Maybe this is the case. I'm not sure how this could be proven, but if that is how you see the remark, Ernie, I'm not going to question that.

Candice,

Through the years I have come across approved transfers that allowed for more land to be irrigated. As I recall these were dated in the 60's or earlier. Transfer 1560 was approved in 1968. Bare with me and take a trip back to 1968 and ponder the following based on the statutes at that time.

According to Craig Redford the intent of transfer 1560 was to allow continued use of the early priority water rights (29-1, 29-2 and 29-3) which are deliverable for the entire irrigation season. Craig indicated their understanding has always been that the transfer allowed them to irrigate different acres provided they did not irrigate more than 195 acres "at any one time". Similar to our present concept of an enlargement with a PPU (more acres but not more water) but in this case limiting the number of acres irrigated at any one time to the number covered by the parent right.

Example: During the beginning of the irrigation season Redford's will irrigate 100 acres of parley west of Nipper Road.

When the parley no longer needs water they move the water east of Nipper Road to 100 acres with a crop that still

needs irrigation but was being irrigated with a junior water right that is off.

My understanding is the transfer did not bring new land under irrigation. Instead it extended the season of use for lands previous covered by a water right with a later priority. The water master's comments state he did not want the transfer to allow irrigation of both places "at the same time." This concern is addressed in Approval Condition #1 which limits both the number of acres irrigated at any one time and the total diversion volume express in both acre-feet and 24 hour second feet. Take another look at the record and see if supports this explanation.

Retaining Approval Condition #1 in the recommendation for 29-10121 and 29-10122 should be sufficient to prevent expansion of the decreed water rights.

Ernie

[McHugh, Candice] Cindy,

I concur with your reading of the transfer. They are limited to 195 acres. It's true they asked for an expansion but the approval condition was placed on there to prevent that, apparently

in response to Mr. Potter, the water master's concern.

hi Candice,

Craig and Barry Redford came into my office today and was asking again about a transfer that was approved in I think 1966, T1560, on water rights 29-0001, 29-0002 and 29-0003. The transfer stated that ".....195 acres could be at any one time....." The claimants son's were in the office today asking about this because they were under the impression that the 2.0 cfs they transferred would allow them to irrigate 100 acres and then moving over to different lands and irrigating another 100 acres within the same irrigation season. Actually, expanding the right. But Barry was with his father during the time of this transfer and that is what he states that he and his father was told. I told them that it's 100 acres of irrigation within an irrigation season. Well anyway they would like you to take a look at the transfer and give your option of what it is saying.

Thanks,

Cindy

Candice

IT IS ORDERED, ADJUDGED AND DECREED as follows, viz.:

1.

1. The plaintiff herein, the United States of America, is, pursuant to law, the trustee for the rights of certain Indians hereinafter named who are wards of the government, and the adjudication of the rights hereinafter particularly recited are for the use and benefit of the respective Indian wards.

2. That the decree of the water for Indian lands hereinafter adjudicated is fixed at one miner inch per second of time per acre measured at the point of diversion and the right to the use of such water upon Indian lands is continuous and the failure of any of the Indians to use the water hereinafter adjudicated will not cause either an abandonment or a forfeiture of their rights thereto, provided however, the next appropriator in point of time shall have the right to the use of the water hereinafter adjudicated to the Indians when said water is not diverted and used for irrigation or domestic purposes by said Indians, but the relief from forfeiture or abandonment shall not extend to the ownership of said lands in persons other than Indians.

11.

"C.F.S." is used herein to designate a flow of one cubic foot of water per second of time.

Allotment numbers used herein are the numbers of the allotments made by the United States Government to Indians on the Fort Hall Indian Reservation.

Michael,

Wendy has gotten me a few areas. But I would like to get the rest of:

6S, 38 & 39E

7S, 38 & 39E

And irrigated areas of:

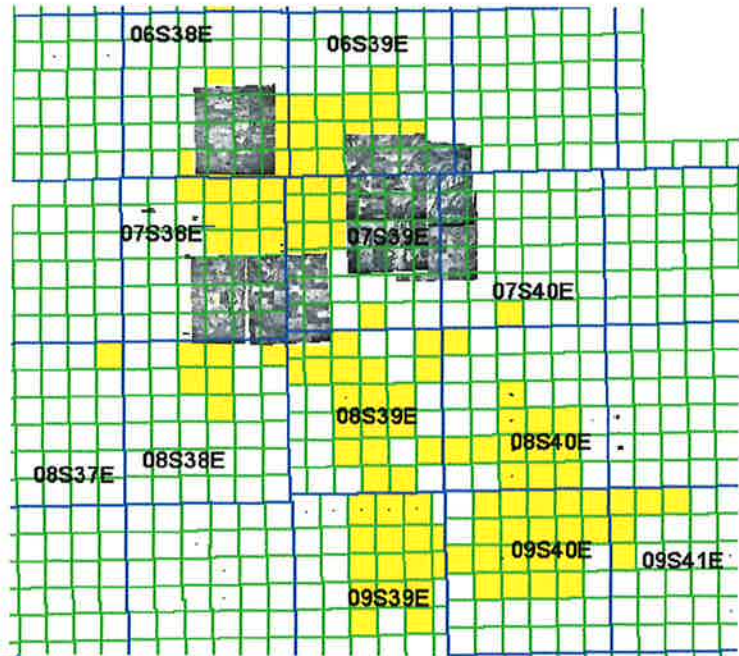

8S, 38, 39 & 40E

9S, 39, 40 & 41E

I guess the 1964 date is what they have that is closest to the 1963.

Which is fine.

Mr. Redford:

I recently talked to our Adjudication agent, Cindy Bird who works in your area. She asked that I clarify the status of Temporary Permit # 29-08067 filed by Ross D. Redford.

As you can see from the copy enclosed that the irrigation of the 320.6 acres in section 6 and 7 Township 7S Range 39E was authorized for the 1992 irrigation season only.

After that the permit reverted back to application status and is in our Moratorium hold file. Therefore no use is authorized for irrigation from the well in the NWNE Section 7 Township 7S Range 39E for the 320.6 acres in question.

Sincerely,

Harold W. Jones

Notes

3/23/04 Craig Redford came in said that he is willing to withdraw the protest because the rounding error on the total number of acres amounts to $1\frac{1}{2}$ acres, but the total number of irrigated acres should be 176 which was rounded to 177. So, he decided to withdraw the protest.

3/24/04 I spoke with Candice McHugh and let her know that Craig (Thelma) wanted to withdraw the project. They (A.G. office) will prepare an SF5 and send it out. CB.

3/26/04 did an SF5 on charges and submitted them to the court. 3/22/04.

Included the ownership change to Ring Creek grazing association. CB

REF: NOTICE OF ERROR REPLY

Subject: CHANGES MADE TO THE PRELIMINARY REPORT

Hi Craig,

I appreciate you taking the time to fill out the notice of error reply on your basin 29 claims. I've enclosed corrected copies of the recommendations with this letter.

I noticed on your replies that you indicated that the acre limits for each right should be changed to the 320.7 acres. The individual claims have an acre limit for that right, but when you combine all of the rights then you can irrigate 321 acres. The 1868 right that was moved to the land west of Nipper Road was changed to include the 195-acre limit for that right. I also noted that the diversion limit requirement on this right. So as long as you don't exceed the diversion rate or volume within an irrigation season you can irrigate the 195 acres in that season. I hope that clarifies this right.

If you have any other questions please feel free to contact me in Soda at 547-3993.

Sincerely;

Cindy E. Bird

THE ROSS AND THELMA REDFORD FAMILY TRUST

This Trust Agreement, dated this 11 day of August, 2000, is made by Ross D. Redford and Thelma V. Redford, hereinafter referred to collectively as "the grantors" or individually as "the grantor", and Ross D. Redford and Thelma V. Redford, hereinafter referred to collectively or individually as "the trustee."

CREATION OF TRUST

By execution of this Agreement, the grantors transfer to the trustee the property described in Schedule A attached hereto and the trustee accepts such property as the initial trust estate. The trust estate shall also include all property hereafter transferred to this trust. Property transferred to this trust shall not lose its character as the community or the separate property of the grantors. All property transferred to the trust is community property unless such property is identified as the separate property of either grantor.

The trustee shall hold and dispose of the trust estate upon the terms set forth in this Agreement. This trust shall be known as The Ross and Thelma Redford Family Trust.

PART ONE

ADMINISTRATION AND DISPOSITION OF TRUST ESTATE DURING THE JOINT LIVES OF THE GRANTORS

ARTICLE 1-1: DISPOSITION OF INCOME AND PRINCIPAL

1-1.1: Direction From the Grantors. As long as both of the grantors are living, the trustee shall (i) hold, manage, and invest the trust estate, and (ii) distribute income and principal as either grantor may specify, except that one grantor may not direct the trustee with respect to property transferred to the trustee which constitutes the separate property of the other grantor.

1-1.2: Absence of Direction. In the absence of effective direction from either grantor, as long as both of the grantors are living, the trustee shall pay to the grantors, or apply for their benefit, all, none or such part of the income and principal as the trustee shall from time to time determine to be advisable to provide for their health, maintenance, support and reasonable comfort in their accustomed manner of living. In the trustee's absolute discretion, the trustee may also pay to or apply for the benefit of any one or more of the

PART TWO

DISPOSITION OF TRUST ESTATE UPON DEATH OF THE FIRST GRANTOR TO DIE

The provisions of this Part Two shall apply upon the death of the first of the grantors to die.

ARTICLE 2-1: TRUST IRREVOCABLE

Upon the death of the grantor who dies first (hereafter referred to as the "deceased spouse"), the trust hereby created shall become irrevocable except as to The Spousal Trust and the surviving grantor (hereafter referred to as the "surviving spouse") shall thereafter have no power to amend the provisions of this instrument (except The Spousal Trust).

ARTICLE 2-2: PAYMENT OF DEBTS, EXPENSES AND TAXES

2-2.1: Direction to Pay Debts, Expenses and Taxes. Upon the deceased spouse's death, the trustee may pay (a) the expenses of the deceased spouse's last illness, funeral and burial, and any other debts incurred by, or for the support of, the deceased spouse, (b) all inheritance, estate and other death taxes that become payable by reason of the deceased spouse's death, and all unpaid income and gift taxes of the deceased spouse, including interest and penalties on all such taxes, and (c) the expenses of administering the deceased spouse's estate, if any. The trustee shall first apply to the payment of federal estate taxes any United States Treasury bonds held in the trust estate of the kind commonly referred to as discount bonds, redeemable at par in payment of such taxes.

2-2.2: Allocation of Debts, Expenses and Taxes. All such debts, expenses and taxes incurred at the first death shall be charged against and deducted from the portion of the trust estate that is allocated to The Sheltered Trust under the provisions of section 2-3.2. The trustee may make such payments from income of The Sheltered Trust.

ARTICLE 2-3: CREATION OF SEPARATE TRUSTS

2-3.1: Creation of Separate Trusts. Upon the death of the deceased spouse, the trustee shall divide the portion of the trust estate not effectively disposed of under the previous provisions herein, including any additions thereto received under the terms of the deceased spouse's will or as proceeds of insurance on the life of the deceased spouse or otherwise, into three separate trusts, designated The Spousal Trust, The Marital Trust and The Sheltered Trust. Such trusts shall be held as separate trusts and administered and distributed in accordance with the following provisions.

2-3.2: Allocation of Assets.

(a) The Spousal Trust. The Spousal Trust shall consist of the following:

- (1) The surviving spouse's share of the community estate.
- (2) The property comprising the surviving spouse's separate property, including the proceeds of any insurance policy on the life of the deceased spouse payable to the trustee and which was the surviving spouse's separate property.
- (3) Any property specifically designated as property of The Spousal Trust received by the trustee under the terms of the deceased spouse's will or under any other document.
- (4) Jewelry, clothing, household furniture, appliances, furnishings, books, paintings, heirlooms and other tangible personal property of a similar nature (other than money, evidences of indebtedness, documents of title, securities, motor vehicles, recreation vehicles, and property used in a trade or business).

(b) The Marital Trust.

(1) The Marital Trust shall consist of property in a pecuniary amount equal to the maximum marital deduction available to the deceased spouse's estate for federal estate tax purposes, reduced by the aggregate amount allowed as a marital deduction for interests passing or that have passed to the surviving spouse otherwise than by the terms of this subsection 2-3.2(b).

(2) Taking into consideration the state death tax credit to the extent it does not increase the amount of taxes payable by reason of the deceased spouse's death and taking into consideration all other credits, exclusions, exemptions and other deductions available to the deceased spouse's estate, if the marital deduction available by virtue of the foregoing transfer to The Marital Trust and other qualifying transfers is more than necessary to eliminate the federal estate tax payable by reason of the deceased spouse's death, the foregoing transfer shall be reduced so that, when added to other qualifying transfers, the aggregate amount of the foregoing and other qualifying transfers is equal to the marital deduction necessary to eliminate such federal estate tax, or if other qualifying transfers are more than necessary to eliminate the federal estate tax, the foregoing transfer shall be reduced to zero. The transfer to The Marital Trust is not to be reduced by the potential personal liability of the surviving spouse on recapture of additional estate tax due on early disposition of the property or cessation to use it for qualified use or by the lien imposed on the property for the recapture tax under §2032A of the Code.

(3) The trustee shall fund The Marital Trust in cash or in kind, or partly in each, with assets selected by the trustee from those includible in the deceased spouse's gross estate and which are eligible for the marital deduction for federal estate tax purposes. The assets so distributed in kind shall be valued at their value on the date or dates of distribution to The Marital Trust. Qualified community property may be used to fund The Marital Trust. To the extent that other assets qualifying for the marital deduction are available, there shall not be transferred hereunder: (a) assets with respect to which a credit for foreign death taxes is allowable under the provisions of the Code in effect at the deceased spouse's death; (b) assets which may be subject to both income and estate taxes and which may be eligible for a credit or deduction; (c) policies of insurance on the life of any person; (d) bonds, notes or other obligations of the United States Treasury which are redeemable at par in payment of the federal estate tax payable by reason of the deceased spouse's death; or (e) stock of any corporation to the extent such stock would otherwise qualify for redemption under §303 of the Code or under the corresponding provisions of any subsequent federal tax law.

(4) It is intended that The Marital Trust qualify for the marital deduction for federal estate tax purposes, that the property funding The Marital Trust qualify as "qualified terminable interest property", that the provisions of this trust relating to The Marital Trust, including any power, duty, or discretionary authority, comply with the marital deduction provisions of the Code, and that they be construed to conform to that intent. To the extent that any such provision cannot be so construed, it shall be deemed to be void. In no event shall the trustee take any action or have any power that will impair the marital deduction and all provisions in this trust regarding The Marital Trust shall be interpreted to conform to that primary objective except that the trustee may choose not to make the election as provided by §2056(b)(7) of the Code.

(c) **The Sheltered Trust.** The Sheltered Trust shall consist of the following:

(1) Any insurance policy on the life of the surviving spouse that was owned by the deceased spouse at the deceased spouse's death, including any proceeds therefrom.

(2) Any property specifically designated as property of The Sheltered Trust received by the trustee under the terms of the deceased spouse's will or under any other document.

(3) All other property in the trust estate not allocated to The Spousal Trust or The Marital Trust.

4-4.7: Code. All references in this Agreement or in amendments to this Agreement to the Code shall mean the Internal Revenue Code of 1986, as amended, or the corresponding provisions of any subsequent federal tax law.

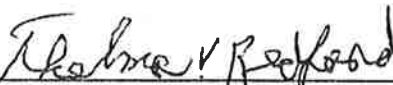

4-4.8: Other Principles of Construction. Words in any gender shall be deemed to include the other genders; the singular shall be deemed to include the plural and vice versa; the word "give" shall also mean devise and bequeath but shall not mean appoint; the words "pay" and "distribute" shall also mean assign and convey; and the table of contents, headings and underlined section titles are for guidance only and shall have no significance in the interpretation of this Agreement.

4-4.9: The Grantors' Family. For all purposes of this Agreement, the grantors have five (5) children whose names are: Edith Janice Thompson, Robert Van Redford, Shirley DeHart, Barry Kent Redford, and Ross Craig Redford. The grantors have one (1) deceased child, Robert Van Redford. For all purposes, his spouse, Lucille E. Redford, is to be treated as a child of the grantors. As used in this trust, the term children shall include the above named children and any other children lawfully born to or legally adopted by the grantors.

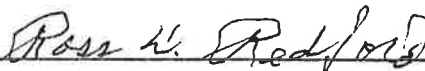

IN WITNESS WHEREOF, the grantors and the trustee have hereunto affixed their hands and seals, and the trustee has executed this Agreement consisting of thirty-three (30) pages (exclusive of the index and any attached Schedules) all as of the day and year first above written.

hi Candice,

Craig and Barry Redford came into my office today and was asking again about a transfer that was approved in I think 1966, T1560, on water rights 29-0001, 29-0002 and 29-0003. The transfer stated that ".....195 acres could be at any one time....." The claimants son's were in the office today asking about this because they were under the impression that the 2.0 cfs they transferred would allow them to irrigate 100 acres and then moving over to different lands and irrigating another 100 acres within the same irrigation season. Actually, expanding the right. But Barry was with his father during the time of this transfer and that is what he states that he and his father was told. I told them that it's 100 acres of irrigation within an irrigation season. Well anyway they would like you to take a look at the transfer and give your option of what it is saying.

Thanks,
Cindy

Re: quantity of water claimed

Analysis of water right performed by Ernie Carlson indicates claimant likely claimed less water than would be allowed according to his water right. Claimant should be contact to be made aware that he can claim up to 3.536 cfs rather than the claimed 2.768 cfs.

upon consideration thereof.

IT IS ORDERED, ADJUDGED AND DECREED as follows, viz.:

1.

1. The plaintiff herein, the United States of America, is, pursuant to law, the trustee for the rights of certain Indians hereinafter named who are wards of the government, and the adjudication of the rights hereinafter particularly recited are for the use and benefit of the respective Indian wards.

2. That the decree of the water for Indian lands hereinafter adjudicated is fixed at one miner inch per second of time per acre measured at the point of diversion and the right to the use of such water upon Indian lands is continuous and the failure of any of the Indians to use the water hereinafter adjudicated will not cause either an abandonment or a forfeiture of their rights thereto, provided however, the next appropriator in point of time shall have the right to the use of the water hereinafter adjudicated to the Indians when said water is not diverted and used for irrigation or domestic purposes by said Indians, but the relief from forfeiture or abandonment shall not extend to the ownership of said lands in persons other than Indians.

11.

"C.F.S." is used herein to designate a flow of one cubic foot of water per second of time.

Allotment numbers used herein are the numbers of the allotments made by the United States Government to Indians on the Fort Hall Indian Reservation.
