Notes

1/27/03. Recommend domestic only
add N111 & N113 Qty and gen. conditions
limiting the diversion to less than
13,000 gpd.

Couldn't confirm the irrigation
use and claim didn't provide
any evidence to support the
priority date.

This source was decreed in the
Union Grain Elevator decree.

Recommend 0.02 cfs domestic

POD should have GPS data: GPS File 10 ACWP.
In the More Chesterfield theme.
GPS POD matches claimed POD data.

Summary Data Entry Form

Claim No.: 29-10244

Remarks and Conditions (Include Type, Category and Code if applicable):

WAYNE C. PERKINS
Narrative by Cindy Bird
June 10, 2002
Spring

This spring was decreed in the Union Grain and Elevator decree. June 7th, 2002 Steve Hebdon and I measured the flow from the spring with the Departments 15" Broad-Crested Flume. The staff gage indicated a flow of 0.80 cm or 80 mm with converts on the 15" flume chart to 0.55 cfs or 27.5 inches of water.

Photo 1. Installed Broad-Crested Weir.

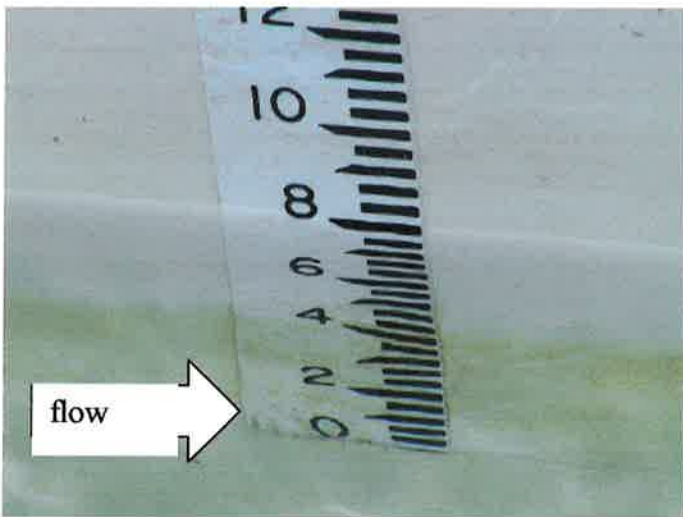

Photo 2. Staff gage measurement of 0.80 cm.

Photo 1 was taken looking east at the flume installation in the spring and photo 2 is a close-up of the staff gage. This staff gage is in centimeters

I have no evidence that this water has been used for the purpose of irrigation on Wayne Perkins property and he has not submitted any evidence to support the claim. In the late 80's the domestic home burned down. There were also some sheep shed's here until the 90's. Wayne still uses this source for cattle. Steve Hebdon confirmed that the day we measured the spring.

Recommending
domestic/stock use from this
source for 29-10244.

Dear Mr. Perkins:

It has come to our attention that your address may have recently changed. The address currently recorded on the above referenced water right(s) is as follows:

Wayne C Perkins
850 Kelly Toponce Rd
Bancroft ID 83217

We recommend if, in fact, the address in question has been changed, you file a "Change in Address" with this department in order that we may send all further correspondence to the appropriate address.

Enclosed is a Change in Address form. Please fill out the form completely, sign and date it and return it to my attention.

If you have any questions regarding this matter, please call 525-7161.

Respectfully submitted,

Cheri Vandermeulen

RE:

evidence of priority

Conversation:

I need evidence of priority for this
10 acres of irrigation. Since this source was
decreed in the Union Grain & Elevator decree
the priority date would be one day after
the decree.

They don't want to loose the domestic
stock use. They had renters in the
house in the late 80's early 90's when the
house burned down.

Re: Evidence of priority for SRBA Claim Nos. 29-10244 and 29-12130

Dear Mr. Perkins:

This letter is in follow up of our telephone conversation of a few weeks ago. You had received my letter regarding proof of priority for the claims referenced above.

I spoke with Candice McHugh, attorney assigned to Basin 29, regarding types of documentation for priority. The types of documentation that would be most helpful in proving your priority date are deeds dating back as far as necessary to prove the priority date, or affidavits from long time residents who can attest to the water use. You mentioned in our conversation that the agent who helped you fill out the claim established the priority date from the information you provided, so it is likely that you have this documentation in your possession.

Please forward the information to water resource agent, Cindy Bird, as soon as possible as the preliminary Director's Report is scheduled to be issued this month.

Very truly yours,

Vicky L. Music
Paralegal

Re: Evidence of priority for SRBA Claim Nos. 29-0244 and 29-12130

Dear Claimant:

I am a Paralegal for the Idaho Department of Water Resources assigned to Basin 29 in the Snake River Basin Adjudication.

The Department of Water Resources has previously contacted you regarding evidence of priority for the above SRBA claim. In order to make a positive recommendation of this water right, each element of the water right must be proven.

If the Department does not receive evidence of a priority date for this claim, your water right will be recommended to the SRBA Court as disallowed, meaning that the water right will not be valid. I have included a brochure that provides examples of evidence of priority date for your information.

Please contact Cindy Bird at the IDWR office in Soda Springs at 208-547-3993 or you can contact me directly at 208-327-7928. It is imperative that you respond to this request as soon as possible so the Department can conclude the investigation of your water right.

Very truly yours,

Vicky L. Music

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department cannot recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by **October 12, 2001, referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird
Adjudication Bureau

Enclosure: Brochure on "Evidence of Priority"
Copy of Claim A29-10244

8/1/01

4:03pm. Claim A29-10244

Water use doesn't match the Quantity appropriated.

6. Irrigation 0.20 (10 acres)
Stockwater 0.05.

7. TOTAL Quantity 0.70 ?
Should be 0.25 cfs.

- Need evidence of priority.

- purchased property early 70's. Over time they removed the sheep sheds (which boarded the property). The house burned down in the mid-to-late 80's.

Crop - alfalfa - Now. (this year).
alfalfa, Barley, wheat-, (rotating crops)

Spring is ~~the only~~ + canal shares out of Topance.

* 300 head of cows.

RE: Exception to A29-10244, Wayne C. Perkins

Dear Mr. Hatch:

The Department of Water Resources (IDWR) has received your letter dated April 8, 1990, stating an exception to Notice of Claim A29-10244 filed by Wayne C. Perkins. The letter will be placed with the Notice for future consideration and a copy has been sent to Mr. Perkins.

Recommendation for each notice of claim will be listed in the Director's Report. In preparing this report, IDWR is required by statute to review each notice to ensure it is complete and accurate. Information in the exception letter will be considered as part of this review.

Publication of the Director's Report for the Portneuf River Drainage is tentatively scheduled for the fall of 1991. When it becomes available for public review, IDWR will mail notification to each claimant. If you are dissatisfied with the recommendation in the Director's Report, you may contest it by filing an objection with the court. Following the objection, the matter will be set for hearing.

If there is a more immediate concern about Mr. Perkins' present use of water, you could file a formal request that the IDWR issue him a cease and desist order for illegally diverting water. It would be necessary, however, for you to file sufficient documentation for the IDWR to be certain that Mr. Perkins was diverting water that he did not own, that had been abandoned or forfeited in the past, or that he has failed to properly transfer the water to the place where he is presently using it. The evidence should be in the form of affidavits, photographs and any other documentation such as aerial photographs which shows the use of water.

Feel free to contact this office for further assistance (525-7161).

Respectfully Submitted

Re: a new filling Ident. number: A29-10244
made by Wayne C. Perkins on 1/25/1990.
This letter is in protest of this filling.

Dear Sirs:

While in your office on 29 Mar. 1990 I was given a copy of the above mentioned filling. In reading it over I find that Mr. Perkins has made a new filling on water that has legally been filed on and decreed to my land since 19 Apr. 1904 (see Ident. number: A29-00070). I see that Mr. Perkins, in his new filling, put basis of claim: BENEFICIAL USE, with a priority date of 1 Apr. 1902. I am relatively certain that this spring water has not watered any ground on the Perkins property in the last 5 years and probably very little in the past 50. I understand that landowners prior to Mr. Perkins attempted on different occasions to dam the water up and use it but were forced to abandon the idea when the landowners of the land which I now have complained to the water master. I know that Mr. Perkins understands that the water is legally decreed to my farm because he called and tried to persuade me to sell him the rights to this spring water shortly after I bought the place two and one half years ago. As a matter of fact his wife called again in Jan. 1990 and ask me if I was going to sell this water. I said no it stays with the place to which it is presently decreed. A few weeks later he made this new filling.

I feel that Mr. Perkins thinks he might take this water from me because I have let another neighbor use it during the peak dry irrigating periods of the last two years to help save his crop while my pasture went dry for a few weeks. If this is Mr. Perkins feelings, I might add that his brother Rondo did the same thing for Mr. Perkins a few years back. I trust that you gentlemen will let me know what more I have to do, if anything, to protect my water rights. I will be interested to hear from you.

Sincerely,
Gary L. Hatch
