Department of Water Resources
Eastern Region

Nov. 5. 2001

Downey Idaho

Dear Mr. Carlson,

I'm sorry I haven't written you before, but another man called and made an appointment with us to check our irrigation wells, 2 or 3 weeks ago, and he has never got back to us.

As we told you my father Roy Cowman, of Rockland Idaho (Power County), drilled a irrigation well at his farm in Downey Idaho (Bannock County) in 1954. We believe this irrigation well was used for two or three years. It caved in and was abandoned. This is the irrigation well you have records on. My father then drilled a irrigation well near the one that was abandoned and another irrigation well nearby, both in the same year. To the best of our memory this would of been around 1959. My husband and I was running the farm for my father at this time. Bob believes that each well was pumping 60 inches when tested.

I'm sorry I can't give you more information, but when my father passed away in Rockland my brother and mother went through his things and I received no records of the wells. The letter I wrote you in 1995 was in reference to the two irrigation wells that are still being pumped. I didn't think to mention the one that was abandoned which is the one you have records on.

Sincerely,

Robert and Laura Hansen

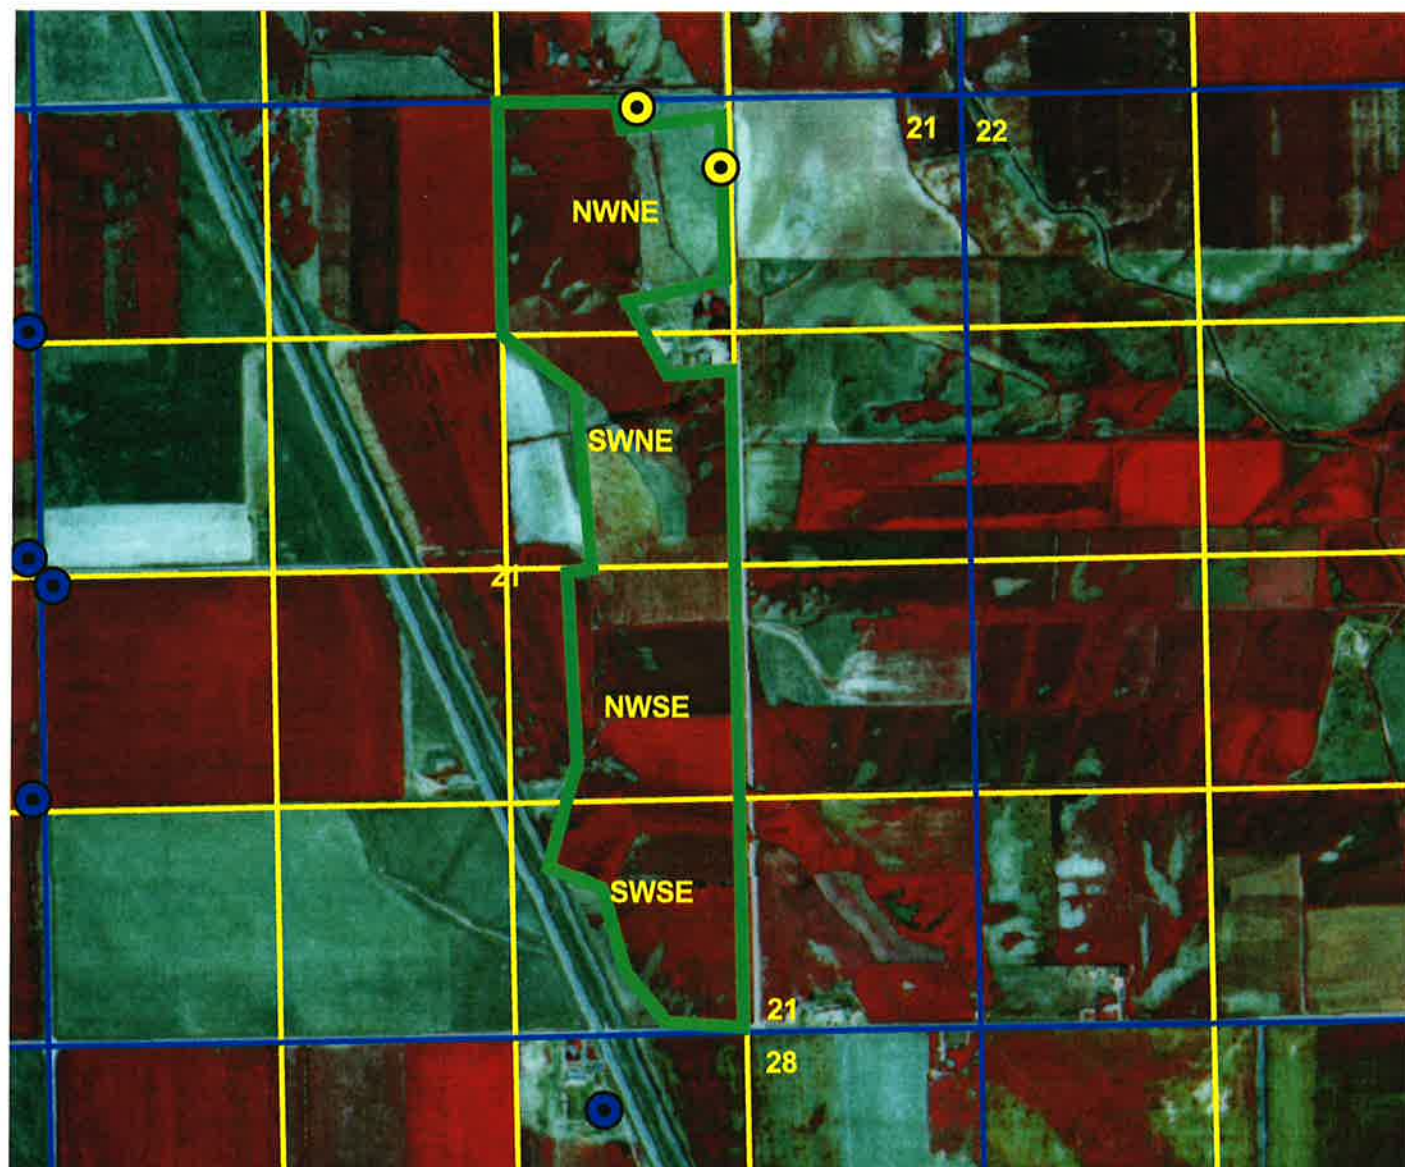

21247 S. Simpson Rd.

Downey, Idaho 83234

Sec. 13 '58

Inspection was attempted but could not be completed satisfactorily due to repairs being made to pumping plant. The pump had been pulled and the motor had been removed. Also the well was covered so it could not be inspected.

Mr. & Mrs. Robert Hansen - (son-in-law & daughter) are operating the farm for Mr. Ray B. Cowman. According to them the well water has not been used during the 1958 season due to the pumping plant being out of order, but repairs are now under way and it is expected that the well will be pumped this season.

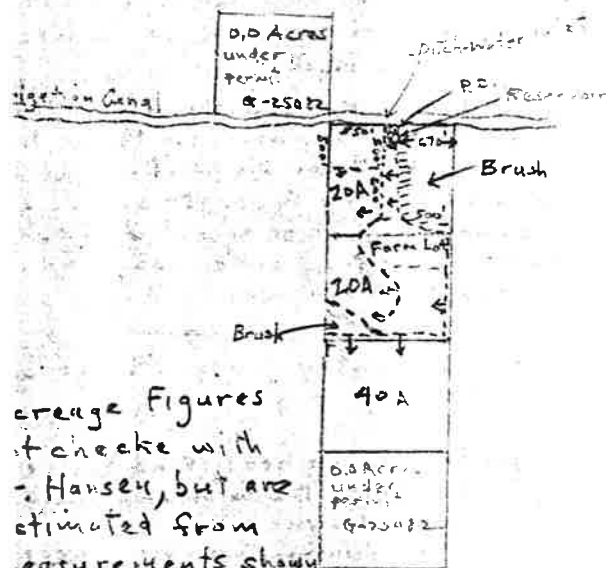

Some information was obtained which is as follows.

Pump: The pump head was labeled "Peerless" however, the bowles - 5 stage 10" - were Layne & Bowler. The column & bowles measured 143' Long.

Motor: Removed - probably for repairs.

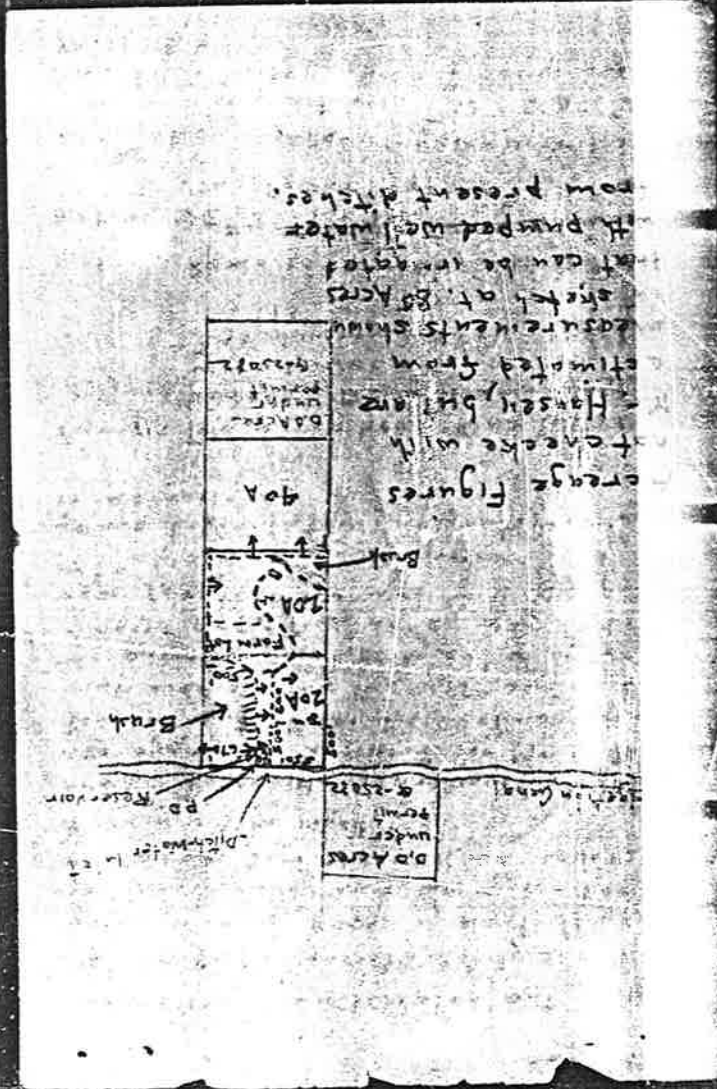

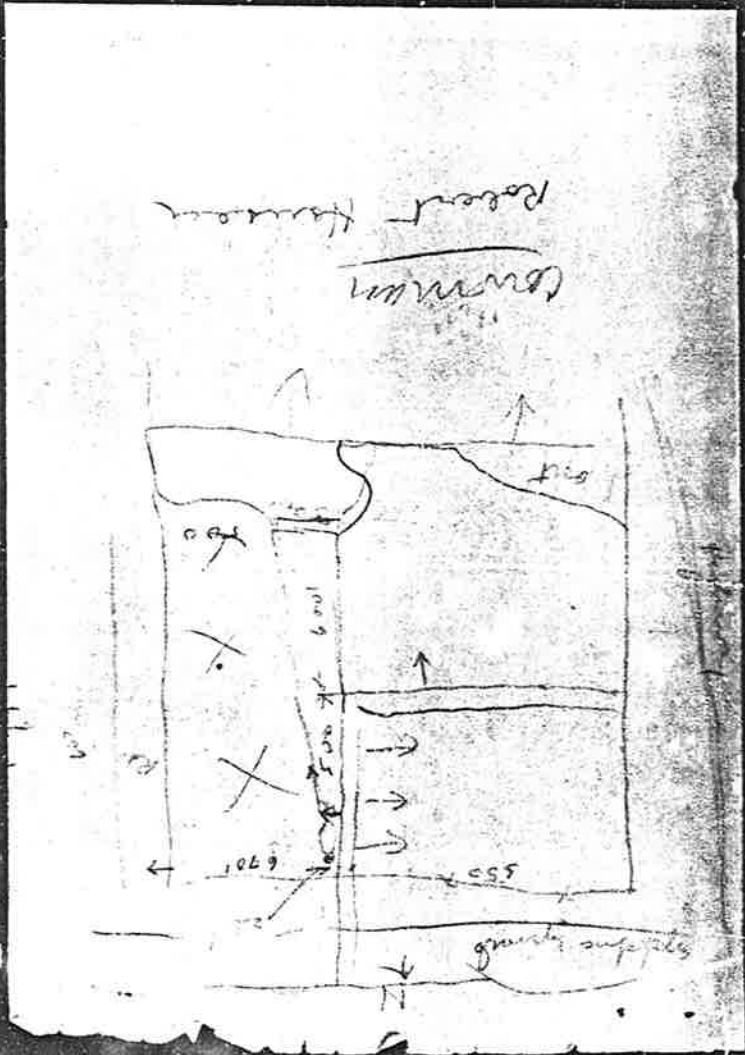

Motor: GE #33 124742
Utah Power Service # DISP 20803

Irrigation System: Reservoir 100' x 500' and unlined ditches. The property also has ditch water which is being used at this time. over.

acreage figures it checks with - Hansen, but are estimated from measurements shown sketch at 80 Acres that can be irrigated with pumped well water from present ditches.
