Re: Notice of Change of Address for claim A29-10668

Dear Mr. Davis:

We are now beginning the investigation of adjudication claims for water rights in Basin 29. In May we sent letters to all the claimants in the basin inviting them to an informational meeting. Naturally a large number of letters were returned because addresses have changed, and researching these has created a backlog in the office. Before we got to your letter, I sent you two more letters, and Mr. Byington stopped to inspect your place of use. I apologize that we did not yet know at that time we needed to update your address.

Now that I have your address, (don't laugh), I need "official" notification from you, so that I may update the computer records officially. Please fill out the enclosed "Notice of Change of Address" and return it. Also, please review carefully the letters enclosed with this mailing, and provide the documentation requested.

I'm sorry for the nuisance this must be. Please call me if you have questions. I am difficult to catch, but I do return phone calls eventually.

Thank you,

Bryce A. Contor

Re: Adjudication Claim 29-10668

Dear Water User:

Attached is a copy of an Adjudication Claim for a water right near American Falls or Pocatello, Idaho. This claim is based upon "beneficial use." This means that the underlying water right was perfected by the original user simply developing a diversion and using the right. This was completely legal and appropriate up until March 25, 1963, for ground water uses, or up until May 20, 1971 for surface water uses. However, this method of perfecting a water right did not result in a paper record of the water right with the department.

Also attached is a copy of the documentation you provided in 1995 to establish the priority date. This is probably enough to base a recommendation for stockwater and domestic use upon, but not for the irrigation. I realize you've already tried, and given us what you found at that time. In order to recommend your irrigation use to the court, I need more documentation. The enclosed pamphlet describes some typical sources that may be used. One source that may help is the Farm Service Agency, formerly the Agricultural Stabilization and Conservation Service. The local office should be able to put you in contact with the archives in Salt Lake. An aerial photo from before 1963 may be enough to show that your parcel was irrigated. Please contact them soon; the turn-around time is quite long.

If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and provide documentation of the historical use of this right. Feel free to call me if you have questions. You should be able to reach me Thursday or Friday mornings.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent
