Dear Craig,

June 11, 2001

We are writing you concerning water right no. 29-10759, known as 8503 Buckskin Road. This is a house and acreage and currently the residence of Kirk and Jill Kirkham.

This diversion was dug in 1962 by a backhoe and then a pipe was placed in the ground. It was dug by Ray Wendling who built the house and lived there until 1979 when he died. The home was then purchased by the Tobler family and in 1985 the Kirk Kirkham family moved in to the home.

Dock Farrens, a long time resident of the canyon has presented me with a statement to justify the priority date.

I am submitting a 6/1/1962 priority date for water right no. 29-10759 for your consideration.

Sincerely,

Dale and Kirk Kirkham

To Whom it May Concern

My name is Dock Farrens and I have lived on Buckskin Road my whole life with the exception of a couple of years.

I knew Ray Wendling who moved into the canyon in 1962. He bought 5 acres from the Bistlines and moved a Boise Cascade house in there and drilled a well. The well was not to good, and he wanted to water the acreage, so he dug a well with an excavator and put some cement culverts in the ground for a cistern. He used it to irrigate with.

He died in 1979 in the north bedroom.

The Tobler family bought the Bosie Cascade house and expanded it by adding a two story addition on to the house.

Water has always been a little bit hard to come by in the canyon, by Ray's well that he dug with an excavator has been a good one. I don't think the one he drilled was to good.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 22, 2001, **referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 525-7161.

Respectfully submitted,

Craig L. Saxton
Water Resource Agent
