13. Remarks:

Priority date description: This is an old farm house. The tax records show the construction year as 1933. There is no record of the well that I can find. When purchased the well production was reported to be 1.5 gal per minute. The original house on this spot was built many years prior to 1933 but used a hand dug well that is no longer in use. The house underwent an expansion and remodel in 1933 which was when the current well was added. With no other way to determine the exact date of this well being drilled I have simply gone with the first day of the year.
