IDAHO DEPARTMENT OF WATER RESOURCES
Adjudication Recommendation Report 29-11079 V1

Comments:

1. csaxton 12/4/2002 PPU

Comment: Recommend as PPU with 29-13434

2. csaxton 12/4/2002 POU

Comment: This right was established through flood irrigation. In 1967 sprinkler irrigation was put in place and picked up an addition 2.3 acres. Now irrigation practice is sprinkler irrigation. Recommend 5 acres within the 7.3 total.

RE: Filing a New Snake River Basin Adjudication (SRBA) claim

Dear Ms. Jenta,

Per our conversation on October 1, 2002, I am sending you the information we spoke about regarding filing a new claim for the addition acreage that Della started irrigating when the sprinkler irrigation system was put in place. There are a several things that need to be addressed.

Issue 1:

A new claim needs to be filed for the acreage south west of Mink Creek that could not have been flood irrigated from the historical ditch. For your convenience, I am enclosing a new claim.

Please fill in the priority date on the claim (in yellow). This is the date that water was first "pumped" from the creek into the sprinkler system. Note that for the irrigated place of use (POU) I listed 2 acres. This is probably excessive since the green outline on the map I am sending you shows 1.2 acres. However, I figured it might be in your benefit to claim more acreage since I can always cut back the acreage on my recommendation, but cannot add acreage if it is under-claimed.

Please look at the map I am sending and draw in the irrigated POU if you feel changes need to be made.

Look over the claim and have Della initial any changes you wish to make. When satisfied, have Della sign the claim in front of a notary and return it to this office with a copy of the POU map and the filing fee of \$52.00. Filing fee breakdown is as such: \$50 claim fee, \$1 per acre for 2 acres.

Issue 2:

Along with the signed claim and map, please send evidence of when the pump was put into place. Evidence could be in the form of anything from an affidavit of someone with first hand knowledge or receipts from purchasing pump or irrigation equipment.

This information is needed to support the priority date claimed (date you filled in on claim).

Issue 3:

Since your practice is to use the sprinkler irrigation on both the NW and SE side of the creek, these two claims will probably be recommended as a permissible place of use. What this means is for example, the 1938 right will be recommended for 5 acres within the total 7 acres. And the new right will be recommended for 2 acres within the total 7.

Please note that the acreage just mentioned above is an example and may not be what is recommended to the SRBA court.

Please feel free to contact me if you have any questions. I apologize for the inconvenience, but feel taking these necessary steps will be to Della Johnson's advantage in preserving her water rights that have been established through historical irrigation practices.

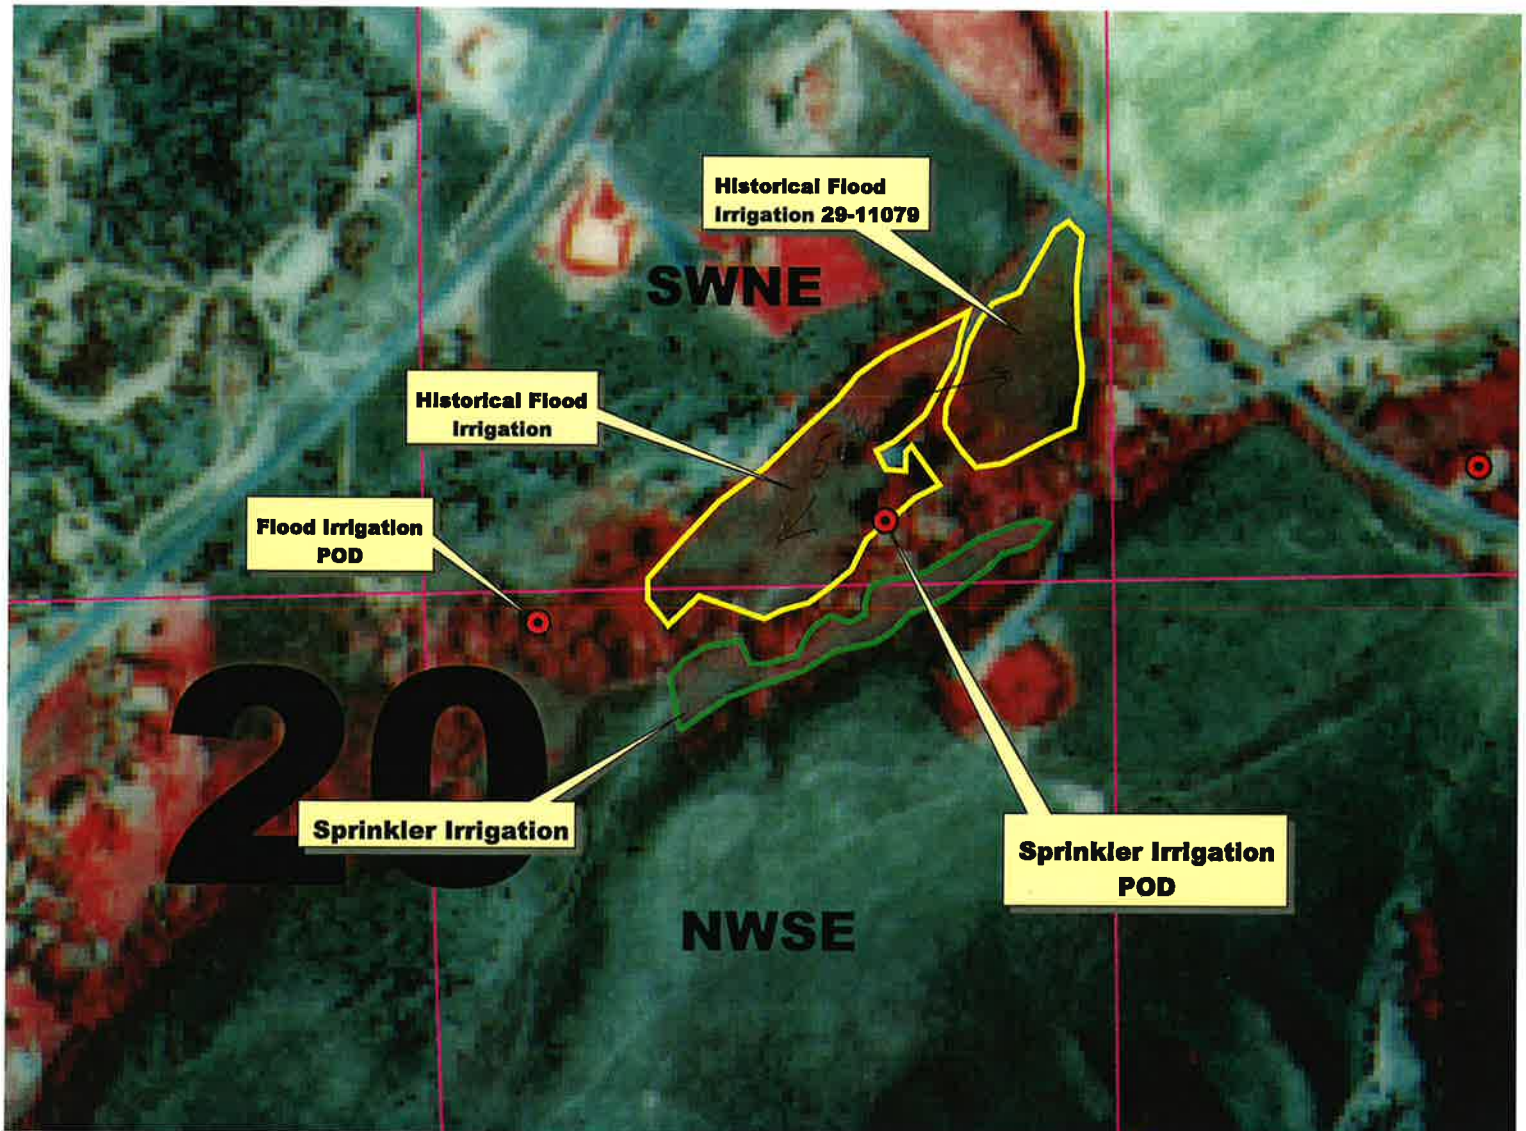

Respectfully submitted,

Craig L. Saxton

Regarding: A29-11079, Della F. Johnson

Dear Sir,

Your letter of January 3, 1995 requesting Evidence of Priority for water rights.

My deceased husband, A.M. Johnson, moved onto this property Circa 1937. In 1938 he dug the well and put in a pump. The water from the well was used for household and external use, like garden area, barnyard area for sheep and/or cattle during the winter. The water we used from Mink Creek was for irrigation of fields.

The well is still in use and the water used is for the house, barnyard for cattle and gardening.

To the best of my knowledge the above is a true statement.

Your Truly.

Della F. Johnson
Signature

On this 7th day of March, 1995, before me, personally appeared Della F. Johnson, to me known to be the person who executed the foregoing Statement and acknowledged that they signed same as their free act and deed.
