IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA

Case No. 39576

Water Right Claim A29-11371

**AFFIDAVIT OF
CONNIE ROWLAND**

STATE OF IDAHO

County of Bannock

: ss.

CONNIE ROWLAND, after first being duly sworn on oath, deposes and states as follows:

1. I am a citizen of the United States of America and a resident of Power County, Idaho. I am 73 years of age and am competent to be a witness.
2. If called upon to testify, I can testify to the following, all of which are within my own personal knowledge or based upon my professional judgment.
3. In July 1970, my husband, Thomas E. Rowland, and I purchased the property at 1254 West Syphon Road, Pocatello, Idaho, which is the property at issue in this matter. The property is 13.1 acres, which for convenience purposes has been divided in what we have come to refer as the Lower Pasture and the Upper Pasture. The Lower Pasture is 7.2 acres and the Upper Pasture is 5.9 acres.

4. At the time we purchased the property, we were living at Rowland Dairy. Just above the property we purchased was an abandoned gravel pit that the dairy used for garbage disposal. Consequently, I often drove that road in an old Jeep with a load of household garbage before we ever purchased the property at issue in this matter. For at least five years before we purchased the property, I remember seeing the prior owner irrigating the entire 13.1 acres of the property.

5. Attached as Exhibit A is a true and correct copy of an aerial map taken in 1968 that shows that the entire 13.1 acres of the property were irrigated that year.

6. The property has been irrigated with water diverted from a spring located on the property, which is more fully described in the Notice of Claim filed for Water Right No. A29-11371.

7. My husband passed away in 1980. From the time we purchased the property to the time of his death, my husband irrigated the entire property, encompassing both the Lower Pasture and the Upper Pasture, every irrigation season.

8. After my husband passed away, my son, Dan Rowland, and I were able to continue the yearly irrigation of the Lower Pasture during every irrigation season up and through the current year.

9. One or two years after my husband passed away (which would have been 1981 or 1982), we leased the Upper Pasture and the Lower Pasture for the pasturing of horses to a couple of gentlemen named Roger Seaton and Don Manning. I recall that they leased both pastures through 1985. During this time, the Lower Pasture *and* the Upper Pasture were irrigated at their insistence.

10. After this lease terminated, we found it difficult without my husband's help to continue with the yearly irrigation of the Upper Pasture. Consequently, we decided that we would limit our yearly irrigation efforts to the Lower Pasture and make sure that the Upper Pasture was irrigated as needed but at least every few years. We thought this was a prudent plan, particularly in light of the drought this area was facing and the fact that horses were not on the Upper Pasture every year.

11. My son began working as a truck driver in the early part of 1987 which took him away for long periods of time during the irrigation season. Without his help that year, I was unable to irrigate the Upper Pasture in 1987. This would explain why the 1987 aerial map relied upon by IDWR shows only the Lower Pasture being irrigated.

12. From 1989 to 2001, I leased the Lower Pasture and Upper Pasture to a gentleman named Mike Larkin for the pasturing of horses. For the first four years of the lease, we irrigated both the Lower Pasture and the Upper Pasture.

13. For the next eleven years from 1993 through 2004, we irrigated the Lower Pasture every year and irrigated the Upper Pasture when necessary and at least ever few years. This was in large respect dependent on when my son was home between truck driving jobs.

14. I specifically remember that my son and I irrigated both the Lower Pasture and the Upper Pasture in 1993, 1994, 1998, and 2000. Although the Upper Pasture may have received only a single sprinkling in each of these years, it was nevertheless irrigated.

15. The Upper Pasture hasn't been irrigated the last few years because of breaks/leaks in the pipes that need to be repaired. We hired a welder in 2004 who welded and repaired the pipes for use during the upcoming 2005 irrigation season.

16. I intended to irrigate both the Lower Pasture and the Upper Pasture this 2005 irrigation season.

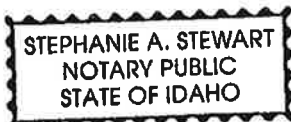

17. Although IDWR has already recommended the 7.2 acres of the Lower Pasture, I believe that our right to also irrigate the 5.9 acres of the Upper Pasture of our property has been preserved through our irrigation over time of both pastures. Consequently, I believe that IDWR should recommend my claim of 13.1 acres for Water Right No. A29-11371.

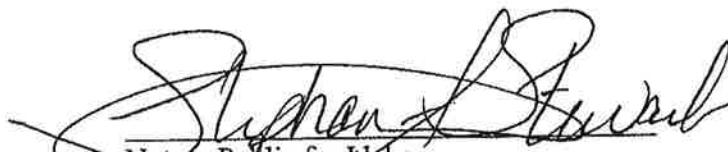

FURTHER SAITH AFFIANT NAUGHT.

Dated this 26 day of April, 2005.

CONNIE ROWLAND

RE: Recommendation on Claim #29-11371

Dear Mrs. Rowland:

I am in receipt of your letter dated November 11, 2003. I apologize for your not getting a response to previous correspondence and hope you find this response to be helpful.

In your letter you express concern about the recommended priority date and acreage. I have reviewed claim 29-11371 and the documents included with the claim. The affidavit of Mrs. May Meader clearly states one of the springs was developed in 1921 for raising fish. However, the purpose of use on your claim is irrigation. Mrs. Meader's affidavit also states that "Up to as much as 7 acres were irrigated before I left in 1956." Of the documentation in the file that is the only reference to irrigation. Based on this statement you could amend your claim to reflect a priority date of April 1, 1956. However, lacking more evidence the number of acres we can recommend would remain around seven. If additional land was irrigated by 1963, this land could be recognized but the recommended priority date would not change.

Unfortunately, the process for making any changes at this point is guided by the Court and is a little cumbersome. The time period for filing objections to the recommendations has expired so you will need to petition the court for leave to file a late objection. It is my understanding this petition is simply a written request explaining why you want to file the objection but did not file it in a timely manner. The court clerk [(208) 736-3011] can also provide you with guidance concerning the process. For your convenience enclosed is a Standard Objection Form, SF1, which will also have to be filed with the court.

Respectfully yours,

Ernest Carlsen
Water Rights Supervisor

To Whom It May Concern:

I feel as if I am operating totally in the dark. I have not received answers to at least two previous letters (copies enclosed).

I spent many hours in the Power County Courthouse trying to determine the year of my water right, but, **more importantly, the number of acres for which I have a water right.**

I'm giving you the instrument numbers of the documents that I feel might be of some help. However, I have little experience in reading these documents.

- Deed my husband, Thomas E. Rowland, and I have for this property:
 - Instrument # 95717 (1970)
- Deed selling property to Warren S. Meader
 - Instrument # 70224 (1918)
- Deed selling property to Warren S. Meader & May Meader
 - Instrument # 42156 (1928)
- Deed transferring property to May Meader
 - Instrument # 57451 (1938)
- Deed selling property to Warren S. Meader & May Meader
 - Instrument # 61387 (1941)

Upon what do you base the number of acres for which I have a water right? Something does not compute. I pay taxes on more than you credit me with. Why is it that I have a water right for some of my property but not all?

I would really appreciate some help from you in figuring out this mess.

Sincerely,

Connie Rowland

Re: Right Number: 29-11371
Name & Address: Connie Rowland
1254 W Syphon Rd
Pocatello ID 83204

To Whom It May Concern:

In receiving the recommendation for my water right, I find that the correction I made in earlier letters (September 24, 2001 – copy attached and March 15, 2003 – copy attached) to the Idaho Falls office has not been implemented or noted.

The priority date should be 1926 based on Claim file 29-4012A, an affidavit made by May Meader, a former owner. Also the Place of Use should be 13.1 acres total. I do not know whether you have broken out the acreage on which my house stands, but even then the total should be different. This Place of Use is even of more importance than the Priority Date, I believe.

What steps do I need to take to correct the Place of Use and the Priority Date? Do I need deed copies from the Power County Courthouse? I did not receive any answers to the previously asked questions.

Sincerely,

Connie Rowland

Re: Water Right Number: 29-11371

Dear Mr. Carlson (or to whom it may concern):

I'm enclosing a copy of a document that shows an earlier priority date than the one assigned to me. May Meader, the person making the deposition, is the mother of Phil Meader from whom we bought the property. I had assumed this document was in the files already, but apparently it is not.

Your document shows 7.2 acres total. I have 13.1 (plus) so that number needs to be increased. From the map included, it appears that my pasture has been excluded entirely.

I would like the priority date corrected to 1925/26, please. Also, the number of acres I have increased to 13.1. Do I need to go to the Power County Courthouse to get documents that show the total number of acres I have, or do you have that information already?

My telephone number is (208) 237-6244. I will not be home from March 17 to April 1, but my son Dan should be here if you have any questions.

Sincerely,

Connie Rowland

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Priority date

Number of acres shown on map

2. Describe the changes you wish to make in the proposed recommendation:

Change date to 1925 or 1926

Increase number of acres to 13.1

3. Give a brief explanation as to why you disagree with these portions:

Copy of deposition by May Meador (attached)

Number of acres I own.

→ former owner of property

☐ I AGREE with this proposed recommendation: no changes need to be made.

Exhibit C

STATE OF IDAHO)
 : SS
COUNTY OF TWIN FALLS)

Mrs. May Meader, being first duly sworn on her oath, deposes and says:

Although I was not there at the time I know that my then future husband started raising fish in and near Papoose Springs in about 1914. His development took over from a group that had been working and raising fish at earlier dates. I believe the earlier group was called the Pocatello Trout Growers. The first used springs on the property now owned by the Papoose Spring Trout Ranch, Inc. were those farthest upstream and near the Portneuf River. I believe their first use by my husband was in 1914. In 1919 I was married and moved onto the property. I was aware of and involved with the development and use of the springs under the hill and near the home in about 1921. Springs farther downstream were developed in about 1925 or 1926.

By cleaning and developing the springs their flow was increased in the initial years. I personally know that until I left the property in 1956, each year thereafter the water was used to raise fish. We also irrigated a small piece of ground from time to time and raised crops on a flat under the hill but higher than the springs. Up to as much as 7 acres were irrigated before I left in 1956.

Re: Claim A29-11371

Dear Mr. Meyer:

In talking to Bryce Contor concerning documenting my water right, he indicated that you would be the person to contact. He suggested that I write a narrative of my knowledge of water use for my property.

My husband Thomas E. Rowland (he died in 1980) and I bought the property at 1254 West Syphon Road, Pocatello, Idaho 83204, at the last of July in 1970 from Phil and Marion Meader who were in the process of divorcing. At that time the pasture was under irrigation from a pond that is on the property. At the time we were living at Rowland Dairy. Just above the Meader house that we purchased was an abandoned gravel pit that the dairy used for garbage disposal. I often drove that road in an old Jeep with a load of household garbage that was not burnable. I passed the pasture each time I did this. For at least five years before we purchased the property, the pasture was under irrigation.

The property we purchased was separated out from the larger property previously known as the Meader Trout Farm by Phil and Marion Meader so that they could build a house and raise a few animals. So at one time it was part of the water use history of the trout farm. In fact, at the time of our purchase some fish were in the pond and we continued getting pond permits for fish for several years. From an affidavit (Claim file 29-4012A) in your possession by May Meader, the mother of Phil Meader, the pond was probably in use circa 1926. Phil Meader is now dead and I am unable to locate Marion or any of their children at this time.

I continue to use the pond for pasture irrigation.

I hope this narrative is satisfactory for your purposes.

Sincerely,

Connie Rowland

Re: Claim A29-11371

Dear Water User:

Last spring I wrote you requesting additional information or documentation of the use of this water right. I need this information to make an accurate recommendation to the court in the Snake River Basin Adjudication. Because this right has never been confirmed by a court decree or a department investigation, I need documentation that the water uses were developed prior to March 25, 1963 (ground water source) or May 20, 1971 (surface water source).

Please refer to the letter and pamphlet sent last spring, and provide documentation. Remember that affidavits must clearly identify "first person" knowledge (I did..., I saw...) and clearly state when the use of water was first seen by the person.

Feel free to contact me or my supervisor Ernest Carlsen if you have questions.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent

Installed Measuring Device- NONE

Hydrographer Measurement- ≈ 250 GPM total flow of Spring.

Data Entry:

Observations About Current Conditions- Dwain uses centrifugal pump to pressure
spring water to underground sprinkler system. Current POA less
than 5 acres pending repair of upper pasture system.
Dwain states pump capacity ≈ 130 GPM. Dedicated
power meter PCC w/ tracking should work. Calculated
pump capacity ≈ 117 GPM (see inventory form).
Information From Interview With Operator-

Equations Used For Measurement- upstream = 0.40 downstream = 0.35
 $V = 4.64 \sqrt{V \Delta h} = 1.04$ ft/s. depth ≈ 0.36 width ≈ 1.5
 $Q = AV = 0.36 \times 1.5 \times 1.04 \approx .56$ cfs ≈ 250 GPM

Re: Adjudication Claim 29-11371

Dear Water User:

Attached is a copy of an Adjudication Claim for a water right near American Falls or Pocatello, Idaho. This claim is based upon "beneficial use." This means that the underlying water right was perfected by the original user simply developing a diversion and using the right. This was completely legal and appropriate up until March 25, 1963, for ground water uses, or up until May 20, 1971 for surface water uses. However, this method of perfecting a water right did not result in a paper record of the water right with the department.

In order to recommend your adjudication claim to the court, I need you to supply "evidence of priority" and "evidence of beneficial use." The enclosed pamphlet describes some typical sources that may be used. If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and provide documentation of the historical use of this right. Feel free to call me if you have questions. You should be able to reach me Thursday or Friday mornings.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent
