RE: EVIDENCE OF PRIORITY FOR 29-11419

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 29. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

The above referenced claim shows a claimed Priority Date of May 1, 1965. You have submitted an affidavit supporting limited use but no reference to when this practice began. I have enclosed a copy for your perusal.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind**

of Evidence is Required” and “Some Examples of Documents Which May Be Evidence of the Priority Date”.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

.....
The Department will not recommend the Notice of Claim be decreed by the court if evidence of a priority date is not submitted. The Notice of Claim will be disallowed.
.....

Please submit the documentation supporting the priority date within 30 days of the date of this letter, referencing all documents with the corresponding Claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact this office.

Respectfully submitted,

Allen B. Ruberry

RE: CHANGE IN ADDRESS FOR 29-02563, 29-04144, 29-11407, 29-11412, 29-11419, 29-11420, 29-11421 AND 29-11422

Dear Ms. Thompson:

The above-mentioned water rights have been changed to reflect your new address. However, in order to have Thayne removed from the water rights we require a Notice of Change in Water Right Ownership form be filled out and returned with a copy of his Death Certificate. **It is not required that you remove Thayne from any of the water rights if you do not wish to.**

Water rights 29-11407, 29-11412, 29-11420, 29-11421 and 29-11422 have all been Partially Decreed by the Snake River Basin Adjudication Court and require a \$25.00 fee **each** to be changed (total of \$125.00).

If you do want Thayne removed from the water rights please fill out the enclosed Notice of Change in Water Right Ownership form and return to this office with a copy of the Death Certificate and a check or money order made payable to IDWR in the amount of \$125.00.

If you have any questions feel free to contact this office at 208-525-7161.

Respectfully Submitted,

Cheri Vandermeulen

AFFIDAVIT

O. Thayne Thompson being first duly sworn,
 deposes and says: In reference to the use
of Yago Creek water on portions of the
north wester quarter of section 4 Township 11S
Range 37E, NW 1/4 S 4 11S R 37E, for irrigation,
it is based on the fact if water is available,
This doesn't not occur very often and the
land has not been taxed as irrigated but
equipment is available if water is there to use.
The drought of several years has prevented this use.
Irrigation of small grains was primary use. I
would to protect my potential ability to make
this use.

O. Thayne Thompson
