Priority date description: The residence was built in 1992 and the well was put in at that time. As the exact date of initial use was not conveyed to use when we purchased the property in December of 2013, I am being conservative and choosing the latest possible date of the end of the year.

Description of use: Water Use

Description

DOMESTIC

In a day, including domestic use inside the home and watering our garden, I am estimating we use less than 100 gallons per day, which averages out to 0.069 gpm. Our storage is trivial, a 200 gallon cistern inside the home, and thus I don't think this represents what you are looking for like ponds or large tanks.
