WARRANTY DEED WITH REVERSION

FOR VALUE RECEIVED, BALIVI, CHEMICAL CORPORATION, an Idaho corporation (aka BALIVI, INC.), as Grantor, does hereby grant, bargain, sell and convey unto JERRY D. FREDERICK and VIVIAN J. FREDERICK, as Grantee, whose current address is 4401 Balivi Lane, Nampa, Idaho 83687, the following described premises in Ada County, Idaho, to-wit:

See Exhibit "A" attached hereto and incorporated herein.

TO HAVE AND TO HOLD The said premises, with their appurtenances, unto the said Grantee, and said Grantee's heirs and assigns, forever

PROVIDED HOWEVER, reserving unto Grantor and Grantor's successors and assigns, a full and complete reversion of the said real property and appurtenances back to Grantor and Grantor's successors and assigns, in the event the said real property is used at any time as a cattle or other farm animal feeding operation (including use of the real property as a dairy operation or cattle feed lot but excluding normal grazing in fenced areas and excluding feeding of not more than 60 head of livestock in an area no farther north than 1000 feet of the southerly boundary of the said real property), to the effect that in the event the said real property is so used, all right title and interest therein shall immediately revert back to Grantor and Grantor's successors and assigns. Said right of reversion shall remain in effect for so long as any of the parcels of real property described in Exhibit "B" hereto (the "Balivi Lane Residences") are used and occupied as residences.

The said Grantor does hereby covenant to and with the said Grantee that the Grantor is the owner in fee simple of said premises, that said premises are free from all encumbrances except those of record, and that Grantor will warrant and defend the same from all lawful claims whatsoever which do not appear of record as of the date hereof.

Dated this 12 day of January, 1998.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA) SPECIAL MASTER'S REPORT
Case No. 39576) FINDINGS OF FACT AND
CONCLUSIONS OF LAW
FOR WATER RIGHT 63-02757

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On April 21, 2006, the Boise-Kuna Irrigation District, by and through its attorney Shelly M. Davis, filed an objection to the *Director's Report*, seeking inclusion of a remark regarding the source of the right being wastewater. On April 9, 2008, the parties filed a *Standard Form 5 - Stipulated Elements of a Water Right* which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-02757 be decreed with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.

STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law; and that they have appeared, prosecuted and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by their signatures below and by initialing the attached pages.

MEMORANDUM

TO: Transfer No. 73888

FROM: Kay Walker

DATE: April 14, 2008

RE: Evaluation of Sufficiency of Information Submitted

The transfer proposes to replace two existing wells with two new wells. In review of well logs for this area I noticed that one well had been drilled in March of 2007. This transfer will facilitate the drilling of one additional well and one existing well will be abandoned per conversation with representative, Roxanne Brown.

The site is located on the corner of Star Road and Highway 30 in Canyon County.

Contact person for this application is Roxanne Brown, SPF Water Engineering, phone number 383-4140.

Deviations from Transfer Policy Standards

Application form appears to be completed correctly. Proposal intends to replace 2 wells described to 10-acre tracts to 2 new wells in the same 40-acre parcel. The 40-acre parcel description will allow the applicant flexibility in location of the new wells. One of the wells was replaced in March of 2007 (see copy of well log attached). I recommend we allow use of 40 acre tract descriptions for these wells since the application for transfer has specifically requested that be done to allow the applicant flexibility in location.

Summary of Information Submitted

Authority to File: Applicant is current water right holder. Applicant owns property pursuant to Canyon County tax lot information in arc view. They are authorized to do business in the State of Idaho under Secretary of State Business Entity No. C133227.

Water Right Validity: Right presumed to be valid since it was licensed less than 5 years ago (July 28, 2003).

Injury to Other Water Rights: Injury should not occur. Applicant has been utilizing existing wells for uses described under water right. No new uses are proposed, just new wells.

Enlargement of Use: An enlargement will not occur with appropriate transfer approval conditions.

Local Public Interest: Local public interest is served by allowing property owner to replace existing wells with new wells.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use(s) consistent with conservation of water resources in Idaho.

Review of the application finds there is no clear inconsistency with criteria of I. C. § 42-222 preventing processing of the application.

Discussion

Data entry affected the correct record which is a recently licensed water right. This right was not included in the Snake River Basin Adjudication since originally filed under Permit 63-11047 and proof was not submitted until July of 1991.

Overlapping rights at this property are Right 63-32103 (permit for the use of the same two wells for use of water in cheese making process) and water from Nampa and Meridian Irrigation District for irrigation purposes. This right was licensed for use of year-round dilution and land application of effluent discharged from cheese production facility in addition to irrigating with shares from irrigation district.

Summary

Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

Condition 046 would be applicable since a new well is proposed. Also conditions shown on license should be carried forward.

Case No. 39576)
) TRIAL SCHEDULING ORDER
)
) ORDER OF JOINT TRIAL

A Scheduling Conference was held on September 11, 2007. Pursuant to I.R.C.P. 42(a), and because there is a common question of fact regarding whether a "waste water" remark should be included in the partial decrees for these water rights, it is ordered that the trials in subcases 63-02757, 63-04176, and 63-25750 shall be held jointly. The following dates shall govern the conduct of these subcases through trial:

November 30, 2007 5:00 PM Disclosure of Witnesses. Disclosure of all witnesses, except impeachment witnesses, shall be completed by this deadline. All non-disclosed witnesses, except impeachment witnesses, shall be excluded from testifying in the trial unless permitted by the Special Master in the interests of justice. I.R.C.P. 16(e)(6)(J).

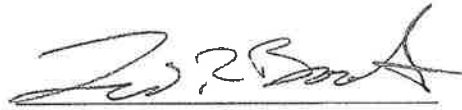

14 days?
January 12, 2008 5:00 PM Discovery Served and Responses Completed. Deadline for completion of all discovery, meaning that all discovery is served and response is complete, including the taking of depositions of lay and expert witnesses, all interrogatories, request for production / inspections and admissions. Motions to compel should be filed accordingly so as to accommodate this deadline.

February 5, 2008 5:00 PM Hearing on Motion for Summary Judgment. Motions for summary judgment shall be filed, notice for hearing, and actually heard by this deadline. The filing and service of the motion, affidavits, and briefing shall be conducted in compliance with I.R.C.P. 56(c).

March 11, 2008 9:30 AM Final Pre-Trial Conference. Pursuant to I.R.C.P. 16, a final pre-trial conference will be held at the Snake River Basin Adjudication Courthouse, 253 3rd Avenue North, Twin Falls, Idaho. Parties may participate by telephone by dialing 225-383-1099 and when prompted entering the code 675342.

March 19, 2008 9:00 AM Trial. The trial be held at the Idaho Supreme Court Building, 451 West State Street, Boise, Idaho, in the lower-level conference room.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 20915.

Comes now Charles C. Tobias and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20915;

That the point of diversion is described in said Permit as being located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 10, Township 2 North, Range 1 West, B.M.

That he now requests that the point of diversion be changed to a point located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 10, Township 2 North, Range 1 West, B.M.

That his reasons for desiring to make such change are as follows: the location as given in the original application Permit was in error.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Nampa, Idaho this 4th day of April, 1950.

CHARLES C. TOBIAS

of receipt at Department of Reclamation April 6, 1950.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 20915. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

SYSTEM DESCRIPTION: DESCRIBED BELOW (), SEE LICENSE FILE (), OR SEE ATTACHMENT () - 4a & 4c

Water flows naturally from a natural drain into a small irrigation ditch at a site on a neighbor's property. There is no headgate or structure in the drain. The ditch flows West about $\frac{1}{8}$ mile and flows into a concrete ditch on the Claemants property. The concrete ditch is used to irrigate a field with syphon tubes and also delivers water to the West where it crosses a larger canal. To the West of the canal dirt ditches flow North & South to irrigate several more fields.

MEMORANDUM

TO: Lynne Krogh, Legal Services
FROM: Mel Schulte, Western Region *MTS*
DATE: November 17, 1995
RE: Waste Water vs Unnamed Drain as sources.

In the process of reviewing SRBA claim A63-02757 which is based on License 63-02757, some generic questions developed concerning "Waste Water" as a source versus an "Unnamed Drain as a source.

License 63-02757 specifies "waste water from a natural drain" as the source. SRBA claim A63-02757 specifies "Unnamed Drain" as the source. The uses in both the license and claim are Irrigation and Stock water. The license is silent as to a Season of Use but, the claim states 3-15 to 11-15.

My initial reaction is the SRBA claim requests a change in source of water for this reason. By recognizing the source as an "Unnamed Drain" rather than "Waste Water" additional water over and above just waste water could be utilized. A natural drain such as the one used for this right can collect a variety of water including seepage water, runoff water, spring water and waste water.

A second issue related to this matter is the Season of Use. If waste water is the source and that waste water results from surface water runoff initially and solely delivered by an irrigation district, the season of use could be limited to the period of the year the water is delivered. That is...if water is not delivered prior to April 1st, the season of use recommendation may have to be limited to an April 1st start date. To the contrary, if the source is an unnamed drain that collects a variety of water the department's standard season of use is probably justified.

Jan and I discussed this matter and decided we need your guidance and opinion as to whether "Waste Water" as a source is interchangeable with "Unnamed Drain" as a source. We recognize this is a relatively broad issue but would appreciate some direction. Also, should a season of use for irrigation waste water be limited to the season of the initial delivery?

In my specific review of A63-02757 I'm concerned that my recommendation is defensible. The Boise Project Board of Control filed a letter of protest in July 1991 relating to right 63-02757 claiming the water can be reclaimed by them because it is within their boundaries. Therefore, we anticipate their challenge to our recommendation for the claim.

Please call me if you have questions or additional discussion.

MEMO

TO: Mel Schulte, Western Region
FROM: Lynne Krogh
DATE: 12/5/95
RE: Claim no. 63-02757

In response to your memo of 11/17/95, the claim should be recommended as follows.

1. The source should be recommended as "waste water". A remark should be included that further describes the source as waste water from an unnamed natural drain. This way, the right is recommended the same as on the license but in conformance with data entry conventions. It is not clear that a change in source is intended; even if it was intended a change in source cannot be used to assert a right to additional natural flows without expansion and injury to other water rights. (Such a claim, if intended, would need to be a separate beneficial use claim, with appropriate combined use remarks.) If the waste water is tributary to a natural source, that should be included in the description of the source of the water right - for example, waste water, tributary to Boise River. Otherwise the source should be listed as waste water tributary to sinks.

2. The right should be recommended with the conditions included in any recommendation of a right to waste water. (G01, and G02 if the waste is tributary to something other than sinks. See Adjudication Memo 32.) Those conditions should adequately address both the season of use concern and the concerns of the Boise Project Board of Control. (I'm assuming here that both the irrigation district water rights and the waste water right would be recommended with IDWR's standard irrigation season. Please let me know if that is not correct.)

Please call if this does not fully address the issues you were concerned about.

NOTES: The diversion measurement was taken about 500' below the P/D because this was the first place in the small delivery ditch that would allow the installation of the broad crested weir. The sides of the ditch between the site of the measurement and the P/D were too soft and overgrown with weeds to support the weir.

ADJUDICATION MEMORANDUM

CLAIMANT: Jerry Frederick, V.P.
Balivi Chemical Co

DATE: December 6, 1995

EMPLOYEE: Mel Schulte *MS*

SUBJECT: Domestic claims, irrigation diversion system, place of use for irrigation rights.

On December 4, 1995 Jerry Frederick and I reviewed in our office the four domestic claims filed by Balivi Chemical Co. We discovered several major errors in the legal descriptions used for the P/D's and P/U's as they relate to the specific claims.

Mr. Frederick stated that the current system of three wells tied together into one system was in place prior to the claims being filed in 1989. Why this was not recognized at that time is unknown. We also discovered the P/U's stated in two of the claims was incorrect and two domestic uses that should have been claimed in the 1989 filings were missed.

Based on the information provided by Mr Frederick, the four domestic claims, A63-19469, A63-19470, A63-19471 & A63-19472 were amended to reflect the P/D's, P/U's and delivery system as they existed the 1989. Also, two new domestic claims A63-30294 & A63-30295 were prepared and mailed to Mr Frederick for signature.

I also reviewed the delivery system and P/U for A63-02757 with Mr Frederick. We concurred the 40 acres as originally licensed does not appear to be realistic. He agreed to the 40 acres as I propose for recommendation: SENW--13 acres, NWNW--2 acres, SWNW--25 acres. He indicated the current system and place of use for the entire farm is the same as when they purchased it in about 1980 with the exception of the domestic sites they developed in the N 1/2 of the Section. He said he would provide an Affidavit to confirm these facts and the domestic claim information mentioned above.

RE: Water rights in T02N R01W S10 NW4

Dear Mr. Fredericks:

This letter is in response to our telephone conversation today. You requested information about splitting the water rights which are appurtenant to the above referenced location.

There are two licenses for irrigation which are appurtenant to the land, numbers 63-02757 and 63-08609. Claims for both rights were filed in the Snake River Basin Adjudication (SRBA) and numbered A63-02757 and A63-08609, respectively. Balivi Chemical also filed SRBA domestic claims as shown in the attached profile reports.

You have indicated that the property will be split and sold to two new owners. IDWR assumes that a proportionate share of the appurtenant water rights are included in property transfer unless specifically withheld in the deed. The water rights retain their priority dates when they are split by ownership. The new owners are required to file a Change of Ownership with IDWR.

An approved Application for Transfer from IDWR is required if a water right holder seeks to change any element of the water right, including the point of diversion (well). The application must be approved before any changes are made by the water right owner.

Please do not hesitate to contact this office if you have any questions or need additional information.

Sincerely,

Maria Minicucci
Sr. Water Agent

MEMORANDUM

DATE: 01-May-1992 09:47

TO: FILES A63-19468 AND A63-02757

FROM: KAY WALKER *KW*

Home = 888-9578 (922-5070) = office

On April 30, 1992, Jerry Frederick, Vice President of Balivi Chemical Co., came into our office to check into the claims he had submitted in the SRBA. He brought in a deed to the property in question which described the S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 10, T02N, R01W and a copy of the claim Balivi had submitted in regard to use of water from a drain which was numbered A63-19468. In looking at our old water right records and the land description he brought in, I located License No. 63-02757 which covered the land in question. No claim had been filed in the SRBA on this license.

The claim which had been filed on the drain covered land (S $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 10, T02N, R01W), which was not owned by Balivi. We reviewed this filing and Mr. Frederick decided that this claim (A63-19468) had been filed in error. We then called over the licensed right and created a SRBA claim for this use. We replaced Claim A63-19468 with Claim A63-02757 which properly described the land and use from the drain. An additional fee of \$3.00 was submitted to cover the filing fee for the replacement claim.

Dear Claimants:

We are forwarding to you a computer generated copy of the Notice of Claim which you filed for your property in Ada County. We are also enclosing Receipt #C008891 in the amount of \$187.00, for the filing fees.

We have interpreted the data from your claim and have made some minor modifications which we feel more accurately describes your water right. Please review the enclosed form to assure that these modifications are in agreement with your water right.

If you agree that the modifications are correct as indicated, you do not have to return this form. If you feel we have misinterpreted this claim, and you make any changes to the Notice of Claim for enclosed, you must initial the changes you make, sign the form before a notary public and return the claim and a copy of this letter to:

Dear Mr. Shaff,

Upon receiving your July 20, 1989 letter, may I take this opportunity to withdraw our 1977 priority dated claim, as we agree this appears to indeed be a duplicate claim.

Also please find Item #6 & #7 of 1950 priority dated claim modified to show rate of diversion requested.

I am also enclosing our check #2950 in the amount of \$187.00 for fees on the four domestic wells. Please return mail receipt for our files. Should there be anything else needed, please feel free to call me.

Sincerely,

BALIVI CHEMICAL CORP.

Re: Snake River Basin Adjudication SRBA
Claim #A63-08609 - Ada County

Dear Mr. Bower:

As you discussed with Helen Harrington-Thornton, we are returning the attached claims. Also enclosed is Receipt #C006672 for \$196.00.

In reference to the claim with the 1977 priority date, you are afforded this opportunity to withdraw the claim. As you discussed with Helen, it appears that this claim is for the same water right as identified in Claim #A63-08609. I have enclosed a copy of #A63-08609 as it has been data-entered for your information.

We are also returning the claim with the 1950 priority from the unnamed drain. As you and Helen discussed, Items #6 and #7 need to be modified to reflect a rate of diversion.

We are unable to process either of the four domestic claims nor the claim for water from the unnamed drain until the appropriate fees are received. The fees are as follows:

Domestic claims (@\$25.00 each)	\$100.00
Irrigation from Unnamed Drain	<u>87.00</u>
Total Due	\$187.00

Please contact Helen if you have any questions. If these claims are returned to this office by August 20, 1989, late fees will not be assessed.
