RE: CHANGE OF ADDRESS FOR A29-11688

Dear Sir or Madam:

It has come to our attention that your address may have recently changed. The address currently recorded on the above referenced water right(s) is as follows:

School District No 25
Bannock County Idaho
Po Box 1390
Pocatello ID 83204-1390

We recommend if, in fact, the address in question has been changed, you file a "Change in Address" with this department in order that we may send all further correspondence to the appropriate address.

Enclosed is a Change in Address form. Please fill out the form completely, sign and date it and return it to my attention.

If you have any questions regarding this matter, please call 525-7161.

Respectfully submitted,

Cheri Vandermeulen
Records Clerk

Re Notice of Claim # A29-11688

Dear Mr. Carlson,

While researching our original claim, it became apparent that the submitted Priority Date was incorrect. On the original claim, the Priority Date was determined to be in 1919, the year that the Tyhee School was thought have opened on the property. However, that date is incorrect. The school actually opened in 1914. As evidence, a copy of the Tyhee School History has been attached.

Please send me an amended copy of our adjudication claim. It will be signed and returned to you along with our evidence of priority date.

Sincerely,

Cari Smart
Assistant Director of Business

NOV 14 1980

The Irving Junior High was of the same floor plan and style as Franklin Junior High and was first used in January of 1925.

It should be noted here that since the railroad tracks divided Pocatello, two communities of the school district evolved and schools serving each had to be constructed.

Also, the Westside School, now Pocatello High School, was rebuilt following the fire of December 16, 1914. Shortly after the fire, the organization of the junior high program in grades 7 and 8 began. It is interesting to note that the pupil grade attendance card now in use in Pocatello was initiated by Mr. Siders. He advocated a school industry plan whereby the student could attend school half-day and work in industry a half-day. But this plan was never adopted because of the opposition of strong labor unions. In regard to finance he said, "When you are handling public money, leave your tracks so clean that anyone can follow them." He thought that all a pupil should bring from home was a pencil and his lunch. Everything else should be furnished by the school.

In 1913 the Tyhee School District #63 was created out of the northern part of Independent School District #1 of Pocatello and from the unorganized part of Bannock County to the north. In the year 1914-15, 49 boys and 42 girls entered Tyhee School.

In 1914 the Blackrock School District #65 was created out of the southern part of Independent School District #1 of Pocatello and from the unorganized part of Bannock County to the south.

Mr. Siders left Pocatello in 1927 to take a position with NEA in Washington D.C.

Mr. John M. McDonald served as superintendent 1927-1932 and contributed to the future operation by establishing a single salary schedule for all certified employees which is still used by District #25 in modified form. During his term of office, three bond issues were presented to the voters to build a new high school in three different areas of Pocatello. All were rejected. In 1929 the position of Director of Elementary Education was made and was filled by Eugene Kile. He supervised both elementary and junior high programs. Mr. McDonald left Pocatello in 1932 to take another position in California.

Mr. E. Norman Vaughn, who served as superintendent from 1932-1944, was the first superintendent to be appointed from the ranks. Before becoming Superintendent he had been Principal of Washington Elementary one year, Irving Junior High five years, and Pocatello High School twelve years. Finances were tough because of the depression which resulted in crowding of classrooms and limitation of curriculum. Fortunately, through the Public Works Administration and a one million dollar project between the years 1934-1939, Pocatello High School was remodeled adding north and south wings. A new complex south of the original building housing the auditorium, gym, cafeteria and central administration offices was built.

Notice of Claim # A29-11688

To whom it may concern:

This affidavit summarizes the information that has been collected as evidence of the Priority Date submitted on our Notice of Claim number A29-11688. This claim is being made on the parcel of land in northern Bannock County on which Tyhee Elementary School is located. The well located on that parcel is currently used to supply the school with domestic water and to irrigate a small patch of grass in front of the school building.

The existing parcel of land on which the school and surrounding grounds are situated was purchased at various times over the last 80 years. The first parcel was purchased in 1914 (Exhibit 1) and additional land purchases were made in 1934, 1960, 1980 and 1984. The school was built on the parcel bought in 1914 and was completed in time to open its doors to students that same year (Exhibits 2 & 3). A newspaper article from that time period also verifies the fact that the Tyhee School had been in session for 3 months as of December 1914 (Exhibit 4). We know from information obtained from local residents (Exhibit 5) who attended Tyhee Elementary School in the late 1920's and early 1930's, that the school was then using the well for its domestic use. Apparently the pump house was located on the west side of the school and the children were constantly being warned not to climb on it. That fact shows that the well was in place before the second parcel of land was purchased in 1934. I have also found documentation noting that a new well was being considered in 1935 (Exhibit 6). One of the options being considered was installation of a pump on the original well inside the school building which is strong evidence that the well was part of the original building. It also states that the well in place at that time had deteriorated to the point it would not be operational with the new pumps that were being considered. This degradation would have happened over time, again indicating that the well had been in place on the original parcel of land. No one remembers any other source of water (such as a cistern), therefore it is logical to conclude that the well was in place to furnish the school with water when it opened for classes in 1914.

The year and month that we are claiming as a Priority Date is therefore: September, 1914.

RE: Notice of Claim for School District No. 25.

Dear Mr. Gallafent:

The Idaho Department of Water Resources (IDWR) is returning your Notice(s) of Claim to a Water Right because of insufficient fees. All fees must be submitted before the IDWR can process the Notice(s). In addition to the variable fee for the irrigation portion of the claim, a variable fee is charged for domestic uses in excess of single residence uses. In this case the filing fee for the School District's notice is:

Claim fee	= \$50.00
Variable fee for 1/10 acre irrigation	= \$0.01
Variable fee for domestic (\$100/cfs)	= \$9.30
Total	= \$59.31

Please return the Notice(s) and filing fee(s) to the IDWR within 30 days of the date of this letter to avoid any late filing fees.

If you wish to make an appointment to discuss the corrections, please call the IDWR at (208) 525-7161.

Respectfully submitted,

Ernest Carlsen
Adjudication Supervisor

THIS INDENTURE Made the 12th day of March, in the year of our Lord One Thousand Nine Hundred and Fourteen between

A.F. Fridenstine,
of Pocatello, County of Bannock State of Idaho
the party of the first part, and The School District Number, Sixty-three
of County of Bannock
State of Idaho, the party of the second part.

WITNESSETH: That the said party of the first part, for and in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration Dollars,

lawful money of the United States of America, to him in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, do by these presents, Grant, Bargain, Sell and Convey and Confirm unto said party of the second part, and to their heirs and assigns forever: All those certain lots, piece or parcels of land situated, lying and being in the county of Bannock

and state of Idaho, bounded and more particularly described as follows, to-wit: Commencing at the corner common to Sections 27, 28, 33, and 34 Tp. 5S. R. 34, E. 3B.M., and running thence East on the section line between said sections 27 and 28, 132.76 feet, more or less, to the place of beginning which is a point four feet east of the point where the outside line of the east foundation wall of the building, now known as Equity Hall, would if projected northward intersect said section line between sections 27 and 34 Tp. 5S., R. 34 E.B.M.

Thence east on the line between said sections 27 and 34, 249.66 feet. Thence at right angles south 295.16 feet; thence at right angles west 249.66 feet; thence at right angles north 295.16 feet to the place of beginning.

Comprising a portion of the N.E. 1/4 of the NW 1/4 of Sec. 34 Tp. 5S. R. 34 E.B.M. and containing 1.72 acres more or less.

This conveyance of the within described land is given and accepted upon the express condition that the lands hereby conveyed shall be used for the purpose of erecting a school house on said lands and using said school house and premises for school purposes, and in the event said lands shall cease to be used for said purposes, the said premises hereby conveyed shall revert to the grantor herein, his heirs or assigns.

Together with all and singular, the tenements, hereditaments and appurtenances therunto belonging or in anywise appertaining, and the rents, issues and profits thereof.

TO HAVE AND TO HOLD, all and singular, the said premises, together with the appurtenances and privileges thereunto incident, unto the said party of the second part, and to their

heirs and assigns forever, and the said party of the first part, and his heirs, the said premises in the quiet and peaceable possession of the said party of the second part, their

heirs and assigns against the said party of the first part, and his heirs and against all and every person or persons whomsoever, lawfully claiming or to claim the same, shall and will warrant and by these presents forever defend.

IN WITNESS WHEREOF, The said party of the first part has hereunto set his hand and seal the day and year first above written.

Signed, Sealed and Delivered in the Presence of

NOV 14 1996

The Irving Junior High was of the same floor plan and style as Franklin Junior High and was first used in January of 1925.

It should be noted here that since the railroad tracks divided Pocatello, two communities of the school district evolved and schools serving each had to be constructed.

Also, the Westside School, now Pocatello High School, was rebuilt following the fire of December 16, 1914. Shortly after the fire, the organization of the junior high program in grades 7 and 8 began. It is interesting to note that the pupil grade attendance card now in use in Pocatello was initiated by Mr. Siders. He advocated a school industry plan whereby the student could attend school half-day and work in industry a half-day. But this plan was never adopted because of the opposition of strong labor unions. In regard to finance he said, "When you are handling public money, leave your tracks so clean that anyone can follow them." He thought that all a pupil should bring from home was a pencil and his lunch. Everything else should be furnished by the school.

In 1913 the Tyhee School District #63 was created out of the northern part of Independent School District #1 of Pocatello and from the unorganized part of Bannock County to the north. In the year 1914-15, 49 boys and 42 girls entered Tyhee School.

In 1914 the Blackrock School District #65 was created out of the southern part of Independent School District #1 of Pocatello and from the unorganized part of Bannock County to the south.

Mr. Siders left Pocatello in 1927 to take a position with NEA in Washington D.C.

Mr. John M. McDonald served as superintendent 1927-1932 and contributed to the future operation by establishing a single salary schedule for all certified employees which is still used by District #25 in modified form. During his term of office, three bond issues were presented to the voters to build a new high school in three different areas of Pocatello. All were rejected. In 1929 the position of Director of Elementary Education was made and was filled by Eugene Kile. He supervised both elementary and junior high programs. Mr. McDonald left Pocatello in 1932 to take another position in California.

Mr. E. Norman Vaughn, who served as superintendent from 1932-1944, was the first superintendent to be appointed from the ranks. Before becoming Superintendent he had been Principal of Washington Elementary one year, Irving Junior High five years, and Pocatello High School twelve years. Finances were tough because of the depression which resulted in crowding of classrooms and limitation of curriculum. Fortunately, through the Public Works Administration and a one million dollar project between the years 1934-1939, Pocatello High School was remodeled adding north and south wings. A new complex south of the original building housing the auditorium, gym, cafeteria and central administration offices was built.

Northern France Is Largely Vast Region of Hospitals

London, Dec. 24.—The thronging of the wounded French soldiers and the thousands of Belgian and French refugees into northern France has led to terrible conditions there. Mrs. T. H. Flood, wife of a well-known artist, who has returned here recently from service in French hospitals, declares. Suspension of imports and the difficulty in obtaining supplies from abroad has made the situation of sustaining life a serious one, she says.

Hospitals and other buildings have taken by the government for use in all the towns and villages in northern France and adequate facilities have been provided for most of them. Mrs. Flood, "But the need is surgical instruments, medicines, antiseptics and all sorts of medical supplies and nothing has been brought from the battlefield except the tatters of uniforms, linens, which is not a large amount, and 40,000 received in a single day in October. In many of the government hospitals it has been necessary to put up with no more than a passageway between them, so that patients must be moved every day. At Amiens, Calais and towns near the fighting line conditions are much the same.

At Boulogne for many weeks there has been a hospital which has been used for the wounded. We are not without antiseptics. At times we are without ether. I even saw the dressing and bandaging of the wounds. All the antiseptic was exhausted and it is not to obtain more in France as the situation has been exhausted. Britain has furnished the extent of this service as it requires manufacturers and the United States is the only source from which we obtain it for use in the hospitals. This service is essential as much of the service which the troops are now in has been heavily manured for. Consequently all wounds are becoming infected and tetanus is general.

It has been necessary at times to use the ether because it could not be obtained in France. It is obtainable, however, in the United States, as indispensable in the hospitals, cannot be had in France and severe do the best without supplies, but limited.

Monday, vegetable soup; Tuesday, soup; Wednesday, mashed potatoes; Thursday, chili con carne; Friday, bean and tomato.

The parents of the district have been very generous in donating the supplies for the lunch room.

Tuesday a telephone was placed in Mr. Chaney Stewart's new modern home. There are at present over fifteen telephones in the district.

Friday will be a day of festivities in the moving home, a program at 11 a. m., Christmas dinner at 1 p. m., children's dance from 2 to 5 p. m., and a dance for the grown people at night.

Miss Catherine Fox will spend her Christmas vacation with friends in Trinita, Idaho.

Mrs. Sarah Stewart and little daughter Trilla, left this morning for Salt Lake, where they will visit with Mrs. Stewart's mother, Mrs. Rich.

Albert Trabant has moved into his new home which was built recently.

Wm. Cutham has purchased the Alfred ranch and has moved his family to the place this week.

More surgeons, more nurses and more supplies are required immediately if the lives of thousands of wounded are to be saved. The situation is growing worse all the time because of the spread of typhoid among troops that have not been inoculated against the disease. Men who develop the disease under present conditions are practically doomed to death.

Mrs. Flood is an organizer of the French Wounded R. O. S. society for the special purpose of affording immediate relief in government hospitals where additional help and supplies are required. Mrs. T. H. Flood, wife of Major Swinburne, 23 Eaton place, London, west, is treasurer of this organization.

Throughout northern France virtually all homes have been opened to wounded and refugees and the French people are giving everything they can for the wounded and the sick. But even the wealthy Frenchmen are now without money. Many estates have been ruined. The great houses have been closed and persons accustomed to luxury are living without servants in small quarters, turning over their incomes to the homeless and the injured.

Tyhee School Will Have An Active Christmas Day

Plans for All Sorts of Entertainment in That Little Community

EXERCISES AT THE GYM

In the Morning There Will Be an Entertaining Series of Handball in the Afternoon Plenty of Music, With Evening Entertainment.

Tomorrow will be a busy day at the Y. M. C. A. and activities in the gym music and programs will furnish a variety of entertainment for those who spend the day at the association building.

Beginning at nine o'clock in the morning a handball series will commence with Holmes and Carothers vs. Watson and Chaffet. At 9:30 Henry and Cleary will meet Krusman and Hansen. Then at 10 o'clock the winners in the first round will face each other. At 10:30 Sturgeon and McConnell will play Myers and Thompson. At 11 Pinyan and Lang will meet Carter and Beck; the winners of the latter two matches then come together and the finals will be played at noon.

Commencing at three in the afternoon will be an excellent musical program consisting of a solo by Elmo Whittington, a comic duet by Prof. and Mrs. A. H. Watkins, a chorus by the Second Junior Boys, selections by Rose's orchestra, a violin solo by Mark Weaver and a cornet solo by George Stinger.

At five o'clock Capt. Captain Crawford's volleyball team will meet Capt. Brown's team in a match game. At seven o'clock the juniors will play an indoor baseball game and an hour later the intermediates will cross bats.

Throughout the entire day free popcorn will be served and popcorn provided so that the fire places may be turned to good use. Tomorrow will be a sort of open house day for those who wish to spend a sociable Christmas in good company.

FALSE TEETH A GOOD INVESTMENT

Spokane, Dec. 24.—Spokane county has supplied the cook at the county

James and A. H. Scott, who fear that the cook may decamp with the manufactured molars. Peter MacMillan, the cook, worked on the sympathies of Commissioner Bishop recently during a visit of the official to the ranch, explaining he was forced to live on a diet of soft food as the result of the loss of his lower teeth. Mr. Bishop brought the box of the cuisine to town and gave an order for the teeth after mentioning the case to the other members of the board. They decided, however, that it would be

only just that the teeth should be stamped, "Property of Spokane County." Everyone at the farm is happy, the inmates because the cook is working and the cook because his teeth are working. "I have always believed in eating bread and the water," said Commissioner Bishop, "and I believe the teeth will prove an asset to the county and aid us in keeping a good cook."

Proposal for Water Supply for the Tyhee School

Independent School District Board
Pocatello, Idaho.

Dear Sirs:

I am herewith submitting to you two proposals for improving the water supply for the Tyhee School Building with a view of increasing the supply as well as increasing the available pressure for fire protection.

PROPOSAL #1 - A NEW WELL AND DEEPWELL TURBINE PUMP WITH A CAPACITY OF 100 Gallons per minute with a maximum of 80 pounds pressure

WELL PROPOSAL- I propose to drill an 8" inside diameter well and furnish heavy 8" casing fully perforated, to a depth of approximately 130 ft. for the sum of \$585.00

PUMP PROPOSAL- I propose to install a 6" Sterling Deepwell pump in this well to a depth of 70 feet capable of delivering 100 gallons per minute against a maximum of 80 pounds pressure fully equipped with pressure control starter switch similar to the present Sterling Pumping Plant at the Irving Junior High School, for the sum of \$675.00. - *50 Gals. per minute with automatic control as above for \$492.40*

PROPOSAL # 2- INSTALLATION OF A 4" Sterling Deep Well Pump in the present well inside the building, with a capacity of 40 Gals. per Min.

I propose to install a 4" Sterling Deepwell Pump in the present 5-5/8 inch casing inside the School Building with a capacity of 40 G.P.M. against a maximum of 80 pounds pressure with pressure control stater switch for the sum of \$678.20

As you will note Proposal #1 contemplates a Pumping Unit on the outside of the School Building where it will be protected from any fire that should start at the building whereas Proposal #2 contemplates the use of the present well inside the building.

I might say that upon inquiring as to the condition of the present well I found that in addition to it being only 5-5/8 inch inside diameter casing the well is crooked at a point about 60 feet from the surface, quite an undesirable condition for the successful operation of a turbine pump.
