I purchased said Approx. 60 acres of Properties in late 1962-early 63 From John Cordon[since deceased] They owned property previous and use all and any spring water for irrigation of domestic raspberries and other fruit trees, I believe from 1958, I bought all water and other rights and since have used the spring water to irrigate farm pasture, fruit trees-garden-lawns and other growth that can prevent erosion. There are several traces of springs on the property with show green in early spring and disappear In early June, the main spring north of the house, never has never and will not run off the property, was by the first settlers of the place, used for drinking water. We have used spring water for past 48 years that we know of and in conversation and 'filing' with the courts have been verified as owners of that water that originates on the property,

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. **Field exams to verify other items of the Notice need to be conducted by the Department personnel.**

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by September 20, 2002, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird
