Comments:

1. rwarner 11/14/2002 irrigation disallowed

Comment: Telephone conversation between Ernie Carlsen and Mr. Barton Armstrong indicated that irrigation wells were capped and abandoned when property was redeveloped for single family residence. Only the domestic well remains in use for domestic and stock purposes. Only the stockwater use is needed for this claim.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 22, 2001, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 525-7161.

Respectfully submitted,

RE: NOTICE OF CLAIM SUBMITTAL

Dear Mr. Armstrong:

The Idaho Department of Water Resources (IDWR) is returning your Notice of Claim to a Water Right and your checks (# 5808) in the amount of \$50.00 and (#5807) in the amount of \$25.00 because of insufficient information and fees.

The Notice you submitted is for irrigation and stockwater. The correct fees are \$50.00 to file the Notice, plus \$50.00 for the late fee. It appears this water right covers the same land as A29-11300. If this is true, there will be no additional acreage fees. The total amount due will be \$100.00.

Enclosed is an irrigation form that must be used when filing for an irrigation Notice of Claim. All items on the forms must be completed and re-submitted, along with the correct filing fees, before the IDWR can process the Notice.

If you wish to make an appointment to discuss the corrections, please call the IDWR at (208) 525-7161.

Respectfully submitted,

Ernest Carlsen
Adjudication Supervisor
