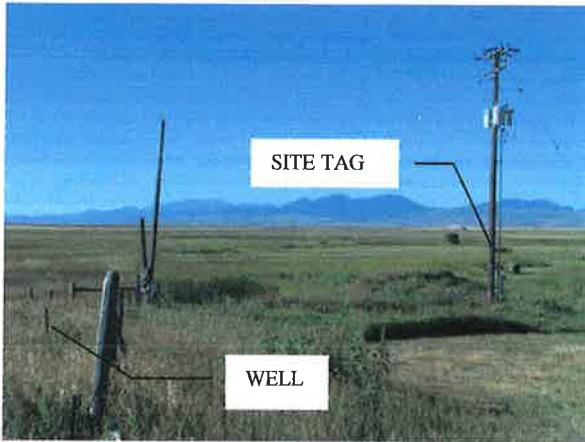

Photo 1. Looking south at POD.

August 12, 2002 Judy Hatch accompanied me during the field exam for the Chesterfield Cemetery.

The GPS site tag, A0012010, was applied to the power pole, which is about 60 feet southwest of the well. This replacement well was drilled in 1995 and a submersible 10 hp pump was installed. The GPS file name and location is BANCEM, N42 degrees, 51.053 minutes, W111 degrees, 54.310 minutes.

Photo 2. Looking southwesterly at the POU.

Photo 2 was taken looking southwesterly at the place of use (POU). The claimed POU was 3 acres but the measured POU is 2.5 acres. This also agrees with the 1987/88 NAPP photography. Risers are located along the west side of the cemetery.

Photo 3 was taken looking west at the old well. The small white headstone covers the well.

Photo 3. Looking west at old POD.

GPS location of the old well is N42 degrees, 51.271 minutes, W111 degrees, 54.256 minutes.

Need pump size: 10 hp. per Carl Hatch. 8/13/02

- May concerns would be with a 10 hp pump they are diverting too much water.

- Where was the previous POD? - at the cemetery.

~~Verify~~ replaced in 1995.

- Priority date advanced to May 1, 1960.

hi,

Beneficial use claim 29-12883 claimed May 1, 1939 from ground water, for irrigation of 3 acres. The cemetery owns 10 acres. Right now the farms around the cemetery farm the land but they want to make sure that if they have to expand the cemetery to use the additional land they can irrigate it. I've been trying to get evidence of priority from them for months. They called today....according to this guy the well wasn't used for about 10 years prior to 1987. And they drilled a new well in May, 1996. Between the time they abandoned/forfeited the old well the farmers around the cemetery would put a pipe through the fence and irrigate. What do we do on this one? He is going to check with other board member to get more specific dates and get back to me.

Cindy

7/8/02 My discussion with Carl Hatch, ~~elise~~ given  
him until 7/29/02 to get me some info.

19 7/8/02 Carl Hatch - Cemetery - 1:15pm.

The old well wasn't used for at least 10 years prior to 1987 for irrigation.

The farms would stick a pipe through the fence and irrigate the land with these waters.

New well was drilled 1996, Spring. (May).

The 1939 Well wasn't used prior to 1987.

I gave Carl until ~~7/29/02~~ 7/29/02 to get me info.

- owns 10 acres, irrigated by farmers.
