IDAHO DEPARTMENT OF WATER RESOURCES  
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 29-12898

NAME AND ADDRESS: LAMOND J BAILEY  
LILLIAN P BAILEY  
7070 RUNNING IRON LN  
POCATELLO, ID 83204-3817

SOURCE: GROUND WATER

QUANTITY: 1.58 CFS  
316 AFY

USE OF THE RIGHTS LISTED BELOW IS LIMITED TO A TOTAL  
COMBINED DIVERSION RATE OF 2.09 CFS AND TO A TOTAL COMBINED  
ANNUAL DIVERSION VOLUME OF 456 AF. COMBINED RIGHT NOS.: 29-  
7050, 29-7613, 29-12898.

PRIORITY DATE: 02/23/1957

POINT OF DIVERSION: T06S R33E S17 SENWNW Within POWER County

PURPOSE AND  
PERIOD OF USE:

| <u>PURPOSE OF USE</u> | <u>PERIOD OF USE</u> | <u>QUANTITY</u>        |
|-----------------------|----------------------|------------------------|
| IRRIGATION            | 04-01 10-31          | 1.58 CFS<br>316.00 AFY |

PLACE OF USE:

|                                       |      |    |               |         |
|---------------------------------------|------|----|---------------|---------|
| <u>IRRIGATION Within POWER County</u> |      |    |               |         |
| T06S R33E S17                         | NENW | 40 | T06S R33E S17 | NWNW 39 |

79 ACRES TOTAL

USE OF THE RIGHTS LISTED BELOW IS LIMITED TO THE IRRIGATION  
OF A COMBINED TOTAL OF 114 ACRES IN A SINGLE IRRIGATION  
SEASON. COMBINED RIGHT NOS.: 29-7050, 29-7613, 29-12898.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS  
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE  
EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE  
ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER  
THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6),  
IDAHO CODE.

NOTICE OF ERROR  
REPLY

Paul  
RECEIVED  
1 MAR 17 2003  
Department of Water Resources  
Idaho Falls, ID

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: April 21, 2003

Water right number: 29-12898

LAMOND J BAILEY  
7070 RUNNING IRON LN  
POCATELLO ID 83204-3817  
Telephone Number: (208)233-5132

LILLIAN P BAILEY

POCATELLO ID 83204  
Telephone Number: (208)233-5132

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):
2. Describe the changes you wish to make in the proposed recommendation:
3. Give a brief explanation as to why you disagree with these portions:

X I AGREE with this proposed recommendation: no changes need to be made.

DATE: 3-10-03

## MEMORANDUM

To: 29-12898

Fr: Bryce Contor

Date: 6/29/01

Re: Recommendation

---

- 1) Priority date: 2/23/1957 as claimed, per 2 "Deposition of Witness" from old permit G-25476.\*
- 2) Source: GW per affidavits & G-25476 documents
- 3) POB: 6S 33E 17 SE NW NW per GIS
- 4) Purpose: Irrigation 4/1- 10/31 per IDWR std.
- 5) Quantity: 1.58 gfs per analysis in file.  
Volume 79 acres x 4 gfa = 316 gfa
- 6) Pole: GIS and affidavits verify use in NE NW and NW NW of 17, as claimed. GIS shows 79 acres, as licensed for overlapping right 29-7613.
- 7) Remarks: C18, QNT limiting combined

---

\* (Note: no new number was assigned to this old number.)

Recommendation

2

division rate of 3 nghts to 2.09  
q/s per memo. Volume limited to  
 $(79 + 35) \times 4 = 456$ .

Average limitation: 3 nghts in

combination limited to 114 accs.

Note that average limitation could be  
applied just to 29-12898 and 29-2613,  
but licensing decisions for 29-2613  
involved joint considerations w/ 29-7050  
so I limit all three.

George A. Butler  
6/29/01

# MEMORANDUM

To: 29-12898

Date: 6/29/01

Re: Diversion Rate Analysis

---

- 1) Proof of Ben use in 29-12898 from permit G-25476 indicates approx capacity of well in NW NW of 17 is 850-900 GPM (1.9-2.0 g/s)
- 2) Grover Noble affidavit indicates 40 hp Fairbanks-Morse motor. Claim remarks assert this is original motor. (N well)
- 3) LaMond Bailey affidavit indicates 4 lines x 35 birds x  $5/32$ " nozzles. (N system)
- 4) License exam 29-7613 indicates N well has 40 hp Fairbanks-Morse motor. Also indicates 4 x 33 birds x  $5/32$ " @ 48-54 psi.

Division rate 6/29/01 2

5) USGS topo shows N well elevation  $\approx 4428$  feet, S well elevation  $\approx 4426$  ft

6) "Water Table Elevation from Map Eastern Snake River Basin and Aquifer Major Ground Water Systems" IDWR 1998 Shows 4400 ft Contour through 6534 E and 4350 ft contour through 6532 E. From this I interpolate GW elevation  $\approx 4375$  ft, Static WL  $\approx (4428 - 4375) \approx 53$  ft

7) Theoretical calculation of N well @ 40 hp, 75% pump efficiency, 10 ft drawdown, 10 ft friction, 55 psi discharge:

$$\text{GPM} = \frac{\text{Water HP} \times 3960}{\text{T D H}}$$

$$= \frac{(40) \times (.75) \times (3960)}{(53 + 10 + 10 + 55 \times 2.31)}$$

$$= 595 \text{ GPM}$$

5) Theoretical of N well at 50 psi, 1 ft draw down:

$$6PM = \frac{40 \times 1.75 \times 3960}{(53 + 10 + 50 \times 2.31)} = 670 \text{ gpm}$$

6) Theoretical based on 10036 Chert:

$$4 \times 33 \times 5.15 \approx 681 \text{ gpm} \approx 1.52 \text{ gs}$$

$$4 \times 33 \times 5.39 \approx 711 \text{ gpm} \approx 1.58 \text{ gs}$$

7) Conclusion fr. North well: 10036 Chert calculation is likely the most reliable as it was field-exam measurements consistent with off-draws describing original system. It is also consistent with theoretical #5. It is not consistent w/ Proof of Ben. Use activation of Q but none of them assert a measurement was performed.

Recommend 1.58 gs for Ben. use claim.

fr. 29-2613

8) South well: License examining found 265 gpm @ South well, his figure look reasonable. 265 gpm  $\approx$  0.59 gs, but license was issued for 0.70 gs. License exam 29-7052

Diversion Rate 6/29/01 4

29-7050 Found 0.66 gfs w/ Badger meter  
but I believe nozzle count is possibly  
more accurate.

Recommend 29-7050 @ 0.70 gfs as licensed.

9) Combined limitation:

Based on license exam 29-7613, combined  
capacity is 2.09 gfs. Limit 3 rights  
in combination to 2.09 gfs.

Note that acreage ( $79 + 35 = 114$ )  
justifies up to 2.28 gfs.

10) Unless Ground Water District Data are  
significantly different this should  
be a sound recommendation. Even  
then, Exam was performed in 1984,  
claim was filed in 1989. Exam is  
probably a better representation of 1987  
condition than is GWD data.

Dwight A. Conner

Table 1. Sprinkler discharge gpm (gallons per minute) for nozzle size (inches) and pressures (psi) (pounds per square inch).

| psi | Nozzle Size (in) |      |      |      |      |       |       |       |       |       |       |
|-----|------------------|------|------|------|------|-------|-------|-------|-------|-------|-------|
|     | 3/32             | 7/64 | 1/8  | 9/64 | 5/32 | 11/64 | 3/16  | 13/64 | 7/32  | 15/64 | 1/4   |

Claim to Water Right Acquired under State Law.

Re: Ident: # A29-12898

Statement of Owner:

My name is Lamond J. Bailey, 7070 Running Iron Lane Pocatello, Idaho 83204. My wife and I purchased this property from R.A. Lyman and George C. Welch in February 1960. Legal Description is T.S. 06S, Range 33EBM, Section 17, N1/2 of NW 1/4. Total land irrigated under this claim is 84 acres according to the Power County ASC office. The irrigation system consists of a 40hp Fairbanks Morse pump, 6 inch buried main line, and four separate sprinkler lines. Each line has 35 sprinkler heads with 5/32 nozzles @ 5.4 gpm for each nozzle. This dispenses between 750 to 800 gpm. This same system has been in use since 1957 and I have operated and irrigated this 84 acres since 1960 to the present time. Crops irrigated are potatoes, wheat, barley, hay, and peas. This system has been in operation every year since 1957.

Re: Ident: # A29-12898

Deposition of Witness:  
Grover F. Noble  
2057 Big Sky Road  
Pocatello, Idaho 83201

My name is Grover F. Noble and the subject irrigated property belongs to my mother, Lillian Bailey and my step-father Lamond J. Bailey. My home is adjacent to their farm. After my parents purchased this farm I worked and moved sprinkler pipe on this property for several years. Later my two boys also moved the sprinkler lines. My parents water system has been in constance use since they purchased the property from a Mr. R.A. Lyman and Mr. George C. Welch in 1960. I remember the 4 1/4 mile lines very well. We irrigated 84 acres with a 40hp Fairbanks Morse pump. The mainline has always been buried. Idaho Power furnishes the electricity for the system. At the present time I am not involved with the operation of the farm. My folks have operated and irrigated their farm every year since they purchased it. The farm has been irrigated continuously since 1957.

Re: Claim A29-12898

Dear Mr. Taylor:

After I returned home and was looking at the claim sheet, I noticed an error in my telephone number.

Please correct the number to 208-233-5132.

Sorry I missed that when I read the sheet.

Thanks again for your help.

Sincerely,

Sep 1 1964  
Department of Reclamation

Permit No. G-25476

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE  
AND COMPLETION OF WORKS  
DEPOSITION OF WITNESS

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. LeRoy C. Lindley, Age 40, Star Route, Pocatello Idaho, Farmer; Residence in Power County on above mentioned star route.

Ques. 2. Are you acquainted with R.A. Lyman and George C. Welch, the holders of Permit No. G-25476? How long have you known him and where does he reside?

Ans. I have known Mr. Lyman for about 3 years; he resides in Pocatello, Idaho. I have known Mr. Welch 12 years, he lives in Pocatello, Idaho.

Ques. 3. Have you read or heard read said Permit No G-25476, and are you familiar with its provisions and conditions?

Ans. Yes, to both portions of this question.

Ques. 4. State sources of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Irrigation well, located on SE corner of the NW $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 17, Twp. 6 South, Range 33 E., B.M.; works for conveying water to point of use consist of a system of pipes leading to overhead sprinklers.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Approximately 2 second feet.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. About 900 gals. per minute. I own and operate a similar system nearby and am familiar with pump delivery under circumstances approximating those covered under this Permit.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of the N $\frac{1}{2}$ NW $\frac{1}{4}$  and W $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$  Sec. 17, Twp. 6 S., R. 33 E., B.M. Entire 100 acres of this tract has been irrigated. All of the land is cultivated land. Land has been cleared, plowed and placed under cultivation as a result of this irrigation development.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not for power or purposes other than irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is gently rolling silt loam. I estimate the amount of water required for proper irrigation to be approximately 900 gpm.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live close to this land and have seen it irrigated during the 1956 season. I estimate the amount of water applied to this land under this Permit to be between 850 and 900 gpm.

(Signed) LeRoy C. Lindley

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in American Falls, County of Power, State of Idaho, on this 23 day of February A.D. 1957.

T.C. Sparks  
Notary Public.

SEAL) Residing at American Falls, Idaho.  
My commission expires October 22, 1959.

Recorded at the request of Pocatello Title Co., at 4:39 o'clock P.M., this 30th day of Sept., 1964 in Book 104 of Misc. at Page 562. Fee \$2.40.

Permit No. G-25476

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE  
AND COMPLETION OF WORKS  
DEPOSITION OF WITNESS

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Russell A. Lindley, Age 32; Power County, in Twp. 6 S., R. 33 E., B.M., Occupation: Farmer. P.O. Address: Star Route, Pocatello, Idaho.

Ques. 2. Are you acquainted with R.A. Lyman and George C. Welch, the holder of Permit No. G-25476? How long have you known him and where does he reside?

Ans. Mr. Lyman 5 years and Mr. Welch for 11 years. Both live in Pocatello, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25476, and are you familiar with its provisions and conditions?

Ans. Yes to both parts of this question.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.  
Ans. Irrigation Well, located on SE corner of the NW $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 17, Twp. 6S., R. 33 E. Works for conveyance of water to point of use consists of steel main line and aluminum als leading to overhead sprinklers.  
Ques. 5. How many second feet of water do you estimate said works will safely conduct place of use, and how much water have you seen being so conveyed?  
Ans. Approximately 2 second feet.  
Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons minute have you seen the pump deliver, and how did you measure or estimate the amount?  
Ans. Between 800 and 900 gals. per minute. I operate a similar system and can tell p well from experience what a given number of sprinkler heads will deliver under a given sure head.

Box 444 Rupert

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, each subdivision in which water has been used and number of acres irrigated in each su State whether cultivated or natural meadow land and the nature of all improvements whi have been made as a direct result of said use.  
Ans. For irrigation. On N $\frac{1}{2}$ NW $\frac{1}{4}$  and W $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 17 Twp. 6 S., R. 33 E., B.M. Entire acreage has been irrigated of this 100 acre tract. All is cultivated land. Land has cleared plowed and cultivated as a direct result of this irrigation use.  
Ques. 8. If for power or other purposes than irrigation, state how water has been app and to what extent.  
Ans. Not for any other purpose.  
Ques. 9. (If for irrigation) state character of land that has been reclaimed, and giv estimate of the amount of water required for its profitable cultivation.  
Ans. Rolling silt loam. I estimate amount of water required for proper irrigation to about 850 gpm.  
Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, what way and to what extent?  
Ans. None whatever.  
Ques. 11. State when, how, in what amount and to what extent you have witnessed the a to beneficial use of water diverted under said permit.  
Ans. I live close to this land and have observed its irrigation during the entire sea 1956. I estimate the amount of water applied to the land to be between 850 and 900 gp under this permit.

(Signed) Russell A. Lindley

I hereby certify that the foregoing testimony was read to the above subscrib fore its signing, that I believe him to be the person he represents himself to be, and said testimony was subscribed and sworn to before me in American Falls, County of Powe State of Idaho, on this 23 day of February A.D. 1957.

Form 36

NOTICE OF PROOF OF COMPLETION OF WORKS  
and  
APPLICATION OF WATER TO BENEFICIAL USE

RECEIVED  
JAN 1 1957  
Department of Reclamation

Notice is hereby given that at 11:00 A.M., on the  
day of February, 1957, at ASHLAND FALLS, IDAHO, County of  
BLaine, State of Idaho, before James H. Smith  
Notary Public, proof will be submitted of the completion of works for  
the diversion of the cubic feet per second of the waters of  
subterranean origin and of the application to beneficial use of  
said water, in accordance with the terms and conditions of Permit No.  
122538 heretofore issued by the Department of Reclamation of the  
State of Idaho.

1. The name and postoffice address of the person or corporation holding  
said permit are R. C. Jones and George C. Wilson, P.O. Box 200, Donnelly, Idaho

2. Said works of diversion will be fully completed on the date set for  
such completion, and the amount of water which said works are capable of con-  
veying to the place of use, in accordance with the plans accompanying the appli-  
cation for such permit, is 2 cubic feet per second.

3. The use to which said water has been applied is irrigation  
and domestic purposes, and the amount applied to beneficial  
use is 2 cubic feet per second.

4. The place where said water is used is Donnelly, Idaho  
and Ashland Falls, Idaho

5. The date of priority which said water is prepared to establish is  
February 1, 1957

Permit No. D-25476

Date: January 1960

A. A. Lyman & Geo. E. Welch  
P. O. Box 623  
Pocatello, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. D-25476 are due not later than March 1, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be associated, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed, for what purpose it is used, the point of, or points of diversion; and the location of use of the lands which are irrigated — all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

*Geo. E. Welch*

Re: Permist No G-25476

Dear Mr. Kulp:

Reference is made to the above permit issued to Mr. L. M. Buhler of Pocatello, Idaho for the development of underground water.

The well was completed in the year 1955. Mr. R. A. Lyman and George C. Welch purchased the land from Mr. Buhler and in May of 1956 installed the pump, steel mainline, and other equipment. We would appreciate taking the necessary steps for proof of beneficial use and have our filing approved.

Very truly yours,

George C. Welch
