NAME AND ADDRESS: KING CREEK GRAZING ASSN
C/O STEVE HEBDON
2924 KELLY TOPONCE RD
BANCROFT ID 83217

QUANTITY: 0.04 CFS

PRIORITY DATE: 04/01/1969

POINT OF DIVERSION:

PURPOSE AND
PERIOD OF USE:

PLACE OF USE: STOCKWATER Within CARIBOU County

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THE QUANTITY OF WATER DECREED FOR THIS WATER RIGHT IS NOT A DETERMINATION OF HISTORICAL BENEFICIAL USE.

Water Right 29-13260

5/23/02. In my discussions with Steve Heddon he said they are bringing the cows back memorial weekend. All of the cows were out last year by the 1st. of November. King Creek doesn't have cows on the place year round so I'm reducing the season to 5/15 - 11/1. Claim was filed for 1,000 head @ 12 gal/day/cow would be less than 13,000 gal/day and the fee paid was \$25.00. reducing the rate to 0.04 cfs and not to exceed 13,000 gal/day.

4/25/02 when I measured Avadna Hansen's Spring I stopped by this spring and it was only running about 2 gpm.

Priority date 4-1-1969 per Steve Heddon.

Claim A29-13260
 King Creek Grazing Association
 Narrative by Cindy Bird
 December 4, 2001

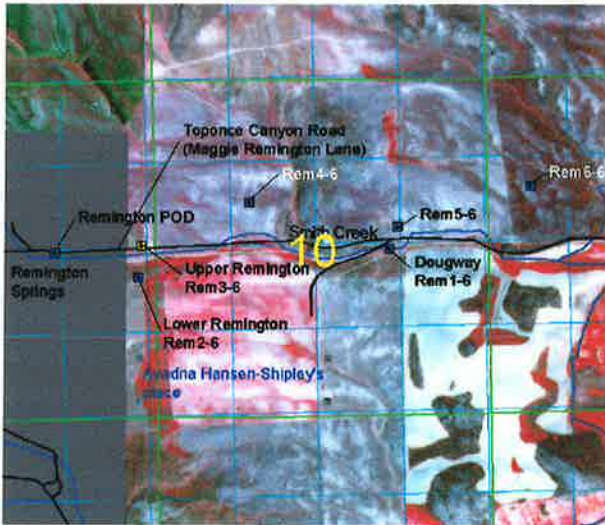

Figure 1. Remington Springs

I spent several days with Steve Hebdon, President of King Creek Grazing Association locating numerous stock watering sites. On this date, October 23, 2001, one of the sites we visited was Remington Springs. The actual source is a spring that sinks but King Creek Grazing refers to it as Remington Springs because west of the point of diversion they purchased the Maggie Remington Ranch.

Figure 1 above shows the location of the point of diversion and the six troughs all within sections 9, 10 and 11, township 7 south, range 38 east of the Boise Meridian.

Photo 1. Name: REMPOD

Photo names refer to the Canon assigned picture number, the local source name and the trough numbers or the point of diversion (POD). Photo 1 was taken at 3:56 pm looking east down Toponce Canyon Road. Steve buried a perforated pipe in the NWSE of section 9, to collect the water and then continued east along the north side of Toponce Canyon Road with 1 1/2" PVC pipe to six 500 gallon stock watering troughs.

Approximately 200 feet from the POD Steve installed a valve in the culvert that can discharge the water into Smith Creek when the watering troughs are not being used. King Creek. They will have as many as 1000 head of range cows in these pastures at one time during the year.

Photo 2. Name: 234_Rem1-6&Rem5-6.

Photo 2 was taken at 3:19 pm from the Dougway (Rem1-6) trough, located in the NWSE, looking north to trough number 5 (Rem5-6) in the SWNE of section 10. Trough 5 is setting in the second field on Toponce Canyon Road. King Creek Grazing Association refers to Toponce Canyon Road as Maggie Remington Lane.

Photo 3. Name: 235_Rem2-6.

Photo 3 was taken at 3:46 pm looking south at Lower Remington (Rem2-6) trough. The trough is approximately 35 feet south of Toponce Canyon Road. The area next to the road was quite wet and marshy from Smith Creek so I didn't attempt to cross to the trough. This trough is west of Avadna Hansen-Shipley's place, shown in figure 1, just over the cattle guard. Trough 2 is located in the NESE of section 10.

Photo 4. Name: 236_Rem3-6

Photo 4 below was taken at 3:47 pm looking north from Remington Canyon Road at trough 3, located in the SENE of section 10. The trough is located approximately 25 feet north of the road. King Creek Grazing refers to trough 3 as Upper Remington. This trough is across the road from trough 2 and northwest from Avanda's place.

Photo 5. Name: 238_Rem4-6

Photo 5 was taken at 4:27 pm looking north at Trough 4 in the SENW in section 10.

Photo 6. Name: 239_Rem6-6

Photo 6 was taken at 4:56 pm looking northeasterly at trough 6 located in the SWNW of section 11 of township 7 south, range 38 east of the Boise Meridian.

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
