Photo 1. File name: 231_Lwr4Cmr

October 23, 2001 Steve Hebdon, President of King Creek Grazing Association, and I visited this stock-watering trough. The water is collected in a buried pipe and diverted into a 1 ½ " PVC pipe to the red trough by gravity.

Photo 1 was taken at 2:12 pm looking south from the point of diversion. They water 500 head of range cows each year from this trough.

As you can see from the photo 1 not all of the water from the spring is diverted into the pipe. There is still a lot of seepage from the spring. Photo file names refer to the Canon assigned picture number, the source name and description.

Figure 1. Lower 4 corners

Lower 4 corner is located in Lewis field in Dumont Canyon. Figure 1 shows the Global Positions of lower 4 corners and Deadman sites. No site tags were applied in these locations. Lower 4 corners is located in the NENENW of section 21, township 7 south, range 38 east of the Boise Meridian.
