Subject: RE: Signature on Settlement Document and Underpayment of Filing Fees

Thank you, the amended claim with the payment for the filing fees has been received.

Because the objection period for Basin 95, Part 2 has passed, Bayview Water & Sewer District will need to file a motion to file a late objection, and a motion to file an amended claim before IDWR can change the recommendation for water right number 95-9880.

I have attached copies of the court's forms for a motion to amend the claim (Standard Form 3) and for a motion to file a late objection (Standard Form 7). Once the court receives the forms and grants the motions, IDWR will be able to file an Amended Director's Report for 95-9880 to change the purpose of use to Municipal, and increase the diversion rate to 1.67 cfs.

Subject: Signature on Settlement Document and Underpayment of Filing Fees

This is to confirm that Sharon Meyer will be signing the settlement document as Chairwoman of the Bayview Water & Sewer District to resolve the Idaho Dept. of Lands Objection to the recommendation for water right 95-9460.

Also, please see the attached letter concerning the underpayment of filing fees for water right 95-9880. Amending water right 95-9880 is still possible, but Bayview Water & Sewer District would need to file a late objection and the amended claim with the court.
