Re: 63-4851 & 63-4852

Dear Mr. Tuthill:

Thank you for allowing us some additional time to gather our evidence to support our claim of beneficial use of the water pumped from Sand Hollow and Conway Drain.

We are enclosing several documents in support of our claims. However, we cannot locate any documents that date back to 1925 for either pumping station. The earliest document that we have located thus far is a billing statement that refers to Sand Hollow from Dawson Transfer dated April 30, 1927, in the amount of \$16.50. We have located an "Estimate of Needs from February 1, to November 1, 1931", which refers to the estimated cost of Sand Hollow construction; this same document refers to the estimated pumping charges for Conway. The next document that refers to Sand Hollow is dated November 10 and December 4, 1933, from Henry Wurmnest Trucking, and it is stamped as being paid on January 5, 1934.

One of the earliest documents that we have located that refers to Conway Gulch (Drain) is a billing statement from W. H. McCoy, Contractor and Builder, dated August 2, 1930, which is stamped as being paid on August 29, 1930. We have also located building plans for a Conway Pumping Station, which are dated June 18, 1930. (We did not enclose these plans, as they are too big for our copier to copy.) We also have an "Estimated Requirements for 1932" document which refers to the actual pumping charges for Conway Season 1931 in the amount of \$352.85.

During our search for this proof of beneficial use, we discovered minutes in the 1980's, which refer to the Company filing for water rights on our "pumping facilities". The Company has two pumping facilities: the Conway pump and the Sand Hollow pump. We are enclosing a copy of a letter from the State of Idaho, Department of Water Resources dated March 3, 1982, and signed by Jan Grover, Senior Water Resource Agent, which states, in part, that "Your company has established their water rights dating back to the date of first use through the actual beneficial use of the water." We would be interested in hearing your comments about this letter and what exactly it means in terms of our having to prove our beneficial use of this water at this time.

Please notify us as soon as possible if the enclosed documentation is not sufficient to prove our beneficial use of this water and our priority dates. If the documentation is not sufficient, we will continue to search through our records for further evidence.

We appreciate your assistance on this matter and look forward to hearing from you soon.

Sincerely,

Jerry D. Stone

Re: Farmers Cooperative Ditch Company Claim #63-02079

Dear Mr. Howerton:

I received your letter dated May 10, 1990 on the above matter. In reviewing this matter with my client, it appears that you may be correct with respect to the argument that it is a duplication of a previous claim. I understand you are going to be out of the office for a couple of weeks. Would you please give me a call when you come back.

I have also received copies of the claims as filed in the computer in behalf of my client, Farmers Cooperative Ditch Company. I do want to point out that a couple of corrections should be made to two claims. These are Claim Nos. 63-04851 and 63-04852. These two claims represent pumping rights out of the Sand Hollow Drain and Conway Drain, respectively. The description of the diversion works is incorrect and should consist of pumps, etc., pursuant to our claims.

Sincerely yours,

Dear Mr. Stone:

Your two claims filed for Farmer's Co-Op Ditch Co. have been processed at our State Office and placed in our permanent records. The other claim that you filed for on Sand Hollow Drain (Claim #63-4851) was advertised in the Press-Tribune on January 14 & January 21, 1982.

Your company has established their water rights dating back to the date of first use through the actual beneficial use of the water. The claims record these water rights, however, the Department cannot verify these rights in case of a dispute over the water. The rights would have to be verified in court with affidavits from various residents who have witnessed the use of this water since the last priority date.

If you have any further questions concerning your rights, please contact us.

Sincerely,

Subject: Farmers' Co-Operative Ditch Co. maps

2/22/06

Dear Ms. Favreau:

We received the maps that you sent to us with an acknowledgement letter for us to sign and return.

The maps you sent are not the maps that I e-mailed to Michael Ciscell. We made quite a few changes to the maps that were originally provided to us. I made the same changes on the maps in the ArcView program and e-mailed them to Michael. The maps you recently mailed to us do not have those changes on them.

Our original boundary map was filed by Hubert Iverson, who was the President of Farmers' Co-Operative Ditch Company at that time. It wasn't until we started to edit our "place of use" that we discovered that our boundary was incorrect as well as the normal things, such as fields that are irrigated but not shown as irrigated, etc.

We also received a letter today from Dave Tuthill requesting proof of beneficial use and priority dates for our water rights for Sandhollow and Conway drains. We would appreciate a telephone call from someone who can answer some questions regarding these issues. Our telephone number is 722-5044.

Thank you for your assistance with these matters.

Sincerely,

Sheila Seeman

Re: Evidence of Priority Date

Dear Claimants:

RESPONSE DEADLINE
MARCH 21, 2006

The Notices of Claim to a Water Right (claim) identified with the numbers shown above your name have been filed in the Snake River Basin Adjudication (SRBA). The claims indicate your water usage is based on "Beneficial Use." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. Since the priority date and historic use of a beneficial use right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of the ditch company's claims and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: IDWR will recommend the SRBA Court decree the claim disallowed if no evidence of the priority date and of the historic use is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.
