RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-4963

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only. You indicated, when these claims were filed, that the water right(s) was based a "Statutory Claim" of the water use. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Please submit the required evidence supporting the priority date(s) by **APRIL 21, 2006**.

Please let me know if have questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Vicky L. Music
Senior Water Resource Agent

Enclosures: Notice of claim report for A63-4963 and "Evidence of Priority" brochure

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. ~~Experience has shown that water users who~~ work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte

RE: EVIDENCE OF PRIORITY - Snake River Basin Claim No(s): A63-4863

Dear ROBERT LAIRD:

In the past, JAKE H HITT submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. You may be the owner of this water right claim. Enclosed is a computer generated printout of the claim(s) for your reference. JAKE H HITT indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" to the use of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

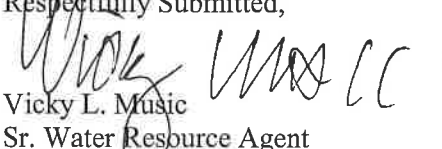

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Additionally, Idaho statutes require that the Idaho Department of Water Resources (IDWR) be informed of a change in water right ownership within 120 days of the property transaction. If you purchased the property referenced in this letter and intend to pursue the claim filed by JAKE H HITT in the SRBA, please fill out the change of ownership form and send it with the required documentation to my attention at 2735 Airport Way, Boise, ID 83705.

All information needs to be submitted by APRIL 21, 2006. Please call me at (208) 334-2190 if you have questions.

Respectfully Submitted,

Vicky L. Music

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-4963
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: CLAIM ANALYSIS
DATE: 9/21/2006
CC:

Jake Hitt filed a statutory claim in 1983 claiming domestic use for the 24 mobile homes occupying the site and irrigation of 3 acres. He states that the priority date that groundwater was first put to use was 1938. The claim provides no information regarding the well but states there is a 3 hp pump with pipelines to homes and sprinkler system. The statutory claim also includes a comment that he has applied for a permit for an additional 20 spaces and 6 acres. I could not find any permit on file. There is also a handwritten note in the top of the statutory claim that is nearly illegible but "1st existing well" is discernible.

Mr Hill has since retired and his son, Jim, was managing the place until it sold recently. Mr Laird who resides in CA filed a change of ownership in response to my request for change and evidence of priority. No evidence of priority was submitted by him or by Jake Hitt to whom I also sent a letter.

The SRBA claim filed in 1990 lists 2 wells and mirrors the statutory claim. An IDWR subcontractor was onsite in 2003. She met with Jake's son, Jim. Jim was unable to provide any information about well #1. Re well #2, Jim stated that the well was drilled in 1965 and the trailer park started in 1961.

I found 2 well logs in Jake Hitt's name, dated 1979 and 1995. Both wells state the purpose is domestic and both logs indicate they are new wells. The addition of the 1995 well is a clear violation of the transfer statute unless it was a replacement.

A review of aerials found no structures on site in 1939 but irrigation is evident. In the 1964 aerial, it appears that something may be happening on site. I cannot tell if there are trailers on site yet or not. The 1964 aerial looks a lot like an earlier undated aerial on which there may be a house and 3 mobile homes. All of the 24 mobile homes are on the site in a 1975 aerial.

The lot is 4.6 acres and less than 2 acres are irrigated. The best I can do with the conflicting information is to assume an accomplished transfer in purpose of use from the 4.6 [4.6 ac x .03 cfs = 0.14 cfs] irrigated acres in 1939. I will recommend 1.5 acres irrigation for .03 cfs which leaves .11 cfs for domestic. According to IDWR this is enough water for the internal use in 7 homes so this is what I will recommend. Accomplished transfer in purpose of use in 1964.
