I just spoke with Mr. Thomas McFarland on the telephone. We agreed to resolve BLM's objections to the above-referenced water right claims by deleting public land from the place of use element in each water right claim: T23N R22E S23 SENE 0.20 acres. Adjust total acres, and adjust quantity, if necessary. Adjust shapefile to exclude public land. BLM is the only objector in all but 75-04341.

Please draft appropriate SF-5s for all but 75-04341. Mr. McFarland objected to quantity and period of use recommended in 75-04341, and he will contact Bob Foster or Nate Arave to try to negotiate a settlement and get an SF-5 that also resolves BLM's objection, as stated above.

Mr. McFarland will obtain the signatures of the other owners.

Let Fred Price at the BLM know when the documents are done. He will send the documents to Mr. Thomas McFarland along with an addressed, postage paid envelope for returning the documents to the BLM. Mr. Price will obtain IDWR concurrence and send the documents to me for signature, filing, and mailing of copies to all on the certificate of service.

Thanks,

Larry

MEMORANDUM

TO: FILE NO. 75-00063

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4102

DATE: July 5, 1995

=====

Transfer No. 4102 was filed to change the point of diversion and place of use under a portion of Right No. 75-00063, splitting the right into parts A and B, and creating a permissible place of use under Part B.

The portion of the right owned by the applicants has been used in combination with other surface rights to irrigate 106 confirmed acres, and will be combined with other surface rights at the new place of use to irrigate 106 acres within a 259.9 acre land base. The original place of use is being subdivided and will be partially irrigated from the remaining surface rights. Use of the unchanged portion of the right, 0.30 cfs, was not more specifically defined, and will remain appurtenant to the originally described place of use.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include permissible place of use limits, watermaster control, measuring & lockable device, irrigation overlap and standard transfer conditions.

75-00063B is Claimed as a Notice #A75-00063A.

*Therefore, A75-00063A was modified and amended
11-1-95 to reflect this Transfer. HJT.*

Applicant is unstacking A75-000634 from rts A75-10061W/-10062U/-10474 (Camm creek) on 100 acres & bringing it upstream to a 259.9 acre piece with rts A75-10923/-10061AN/-00077D/-04341 (Camm creek). The addition of A75-000634 to this 259.9 acre piece of ground still comes in with less than 20000 acres if you discount A75-04341. A75-04341 stream a finoleous & excessive claim with a late priority.

The 259.9 acre area is deemed a permissible place of use because the pd., delivery system and place of use for all the rights is a common entity.

The old place of use is now a housing subdivision.
