The ArcView shape created in my project in Soda with Cole Acres came up with 1351 acres. Craig Ciandall filed the enlargement claim based on that.

The GCDB in lava at the foundation shows 1400.7 acres. Craig is amending the claim to match the irrigated shape.

12/31/01 Emailed the amended claim to Lawline in Soda to print off and have Craig Ciandall come in and sign the amended claim.

Dear Ms. Bird:

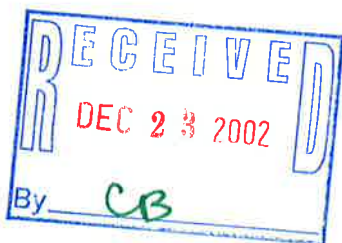

This correspondence is in response to the adjudication of water rights on the ranch currently owned by Crandall Farms Inc in the Upper North Gem Valley, Chesterfield, Idaho. I purchased the ranch from Mr. A Nelson Hogan in 1970. Mr. Crandall purchased the ranch from me in 1999.

In the early 70's most ranchers in the area were anxious to set up sprinkler irrigation, at that time we were irrigating with flood irrigation from the Portneuf River. My neighbors to the North plowed in the ditch going through their property that delivered our water, which necessitated us going to the expense of purchasing pumps and mainlines for the purpose of changing our irrigating practices to a sprinkler system. This took place in the summer of 1973. We purchased the necessary equipment including pumps, mainlines, etc. and installed it in two locations on the canal which are currently in use on the ranch. It has been in continuous use since that time.

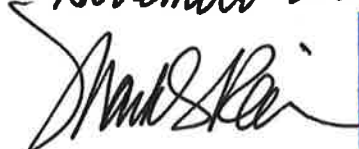

I trust this correspondence will help in informing you of the date of which we constructed and put into use the pumps, mainlines and sprinkler irrigation system conveying water to the ranch lands from the Portneuf River.

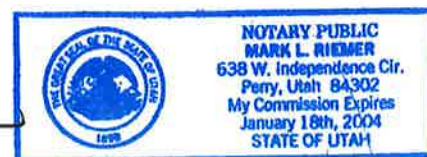

Sincerely,

K V Hansen
