IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE  
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA ) SPECIAL MASTER'S REPORT  
Case No. 39576 )  
 ) FINDINGS OF FACT AND  
 ) CONCLUSIONS OF LAW  
 )  
 ) FOR WATER RIGHT 63-04466

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On June 18, 2007, the Wilder Irrigation District, through its attorney Albert P. Barker, filed an objection to the *Director's Report*, asserting that the source of the water right should be described as wastewater. On November 6, 2008, the parties filed a *Standard Form 5 - Stipulated Elements of a Water Right* which resolved the objection. The Idaho Department of Water Resources concurred with the stipulation.

## II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right 63-04466 be decreed with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

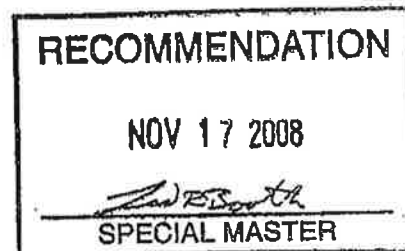

An easement or right of way agreement providing for access to the drain by its owner and those responsible for maintaining it - and/or for access to the drain by the appropriator to divert water pursuant to this right - must be executed among the appropriator, the owner of the drain, and, if appropriate, those responsible for maintaining the drain. Failure to execute such an agreement will constitute grounds for legal action to prevent water from being diverted under this right.

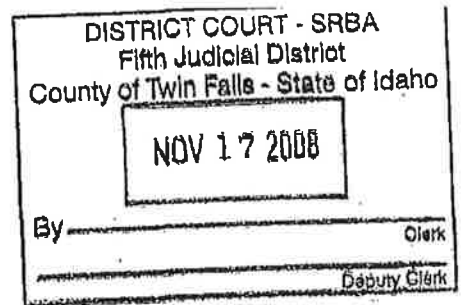

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. I.C. SECTION 42-1412(6).

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

STANDARD FORM 5

STIPULATED ELEMENTS OF A  
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

RE: Notice of Claim to a Water Right No. 63-4466

Dear Mr. and Mrs. Root:

We have received and reviewed the field examination report for the above referenced notice of claim. Based upon our contractor's examination we will recommend the irrigation of 33 acres within the N $\frac{1}{2}$ SE1/4, Sec. 3, Twp. 3N, Rge. 5W. A preliminary notice of our findings will be sent to you within the next month for your review.

Please be advised that we cannot add the springs that our examiner found being diverted and used for irrigation purposes within the N $\frac{1}{2}$ SW1/4, Section 2, Twp. 3N, Rge. 5W to your existing claim since these are separate systems. Your original claim to a water right was submitted in April of 1977 and you did not include the springs and irrigation of those lands at that time. If the springs have been diverted and used for irrigation purposes prior to May 20, 1971, you can file an additional claim in the Snake River Basin Adjudication. You will also be required to submit documentation of the date of first use of this water with the claim submittal. If the use started after the May 20, 1971, date then you should file an application for a permit for a new water right. I am enclosing a brochure entitled "Idaho Water Rights – A Primer" for your information.

If you have any questions in regard to this matter, or wish to have assistance in filing an additional water right, please do not hesitate to contact me at 287-4953.

Sincerely,

KAY WALKER

## MEMORANDUM

TO: File 63-4466

FROM: KAY WALKER 

RE: Water use in N1/2SW1/4, S02, T3N, R5W

Date: September 14, 2006

.....

While reviewing the field examination of this claim, I noticed that the examiner had included a write-up of an additional system under this claim. The examiner found the claimant was using some springs to irrigate lands in the N1/2SW1/4, Section 2. I researched the database for any existing water rights from springs within this area and found no record of spring use. The lands are covered under rights from the Boise Project Board of Control and a couple of statutory claims from unnamed drains. I have written to the claimants and advised them to file an additional water right to cover the use from the springs.

**Description of diverting works:** There are two (2) PODs located in the Fargo Wasteway. **POD#1** is located on the south side: Super E Baldor 20 HP, 6" discharge, 15' lift, 50-60psi. **POD #2** is located on the north side: 7.5Hp (no tag), 3" discharge, 15' lift, 50 psi.

**POD#3**, if it is included with this WR is numerous springs and waste water run-off that accumulate in a ditch, diverted into a 10" PVC pipe then discharged into a 250' x 150' x 8' pond. 30 Hp (no tag), 6" discharge, 50-60 psi, 10' lift.

**Delivery System Narrative:**

**From POD#1:** 6" discharge to 900' buried 6" PVC running diagonally across the field from the northeast corner moving southwest to circle line. Another 6" buried PVC lines runs along the east boarder running north to south. Off of this line running east to west in the northeast corner are (5) 3" aluminum hand lines (starting at top to bottom, number of nozzles: 9, 7, 4, 4, 4). 28 total nozzles run at one time ( 1/8" nozzles), with an average of 25 psi.

**From POD#2:** 3" discharge to 3" aluminum running east to west, with 8 hand lines running south to north. 30 (1/8") nozzles run at 1 time, with an average of 20 psi. Area irrigated is the field around the house going west until it borders the property donated to the church, then running south to the Fargo Wasteway ditch.

**From POD#3:** 6" discharge to 6" aluminum pipe running south to north, with 2 branches running east and west (buried 4" PVC with risers every 50' for big guns). (3) 1 1/2" nozzle big guns are ran at a time (these are portable units). There is an overflow from the pond that goes under the road and runs into the canal.

HAROLD DUANE ROOT

being first duly sworn,

deposes and says:

We established a priority date of  
July 1966 on the use of 1.00 CFS of water for  
the purpose of irrigation. Idaho Power furnished power  
to run a 30 HP electrical pump for sprinkler irrigation.  
Most of this water comes from artesian sources, much  
originating on property I own. This water has been  
in continuous use since the date of priority. Currently  
some of this water is used also to provide a pond  
for raising fish.

Re: Claim No(s). A63-04466

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

## Section 42-225a, Idaho Code

## CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that Harold Duane Root &/or Margret M. Root  
(name of claimant)  
of Rt. 1, Wilder, ID  
(mailing address), claims a right to the diversion and beneficial use of  
the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Fargo Waste Way  
Snake River, tributary to, \_\_\_\_\_
- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed: \_\_\_\_\_
