OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

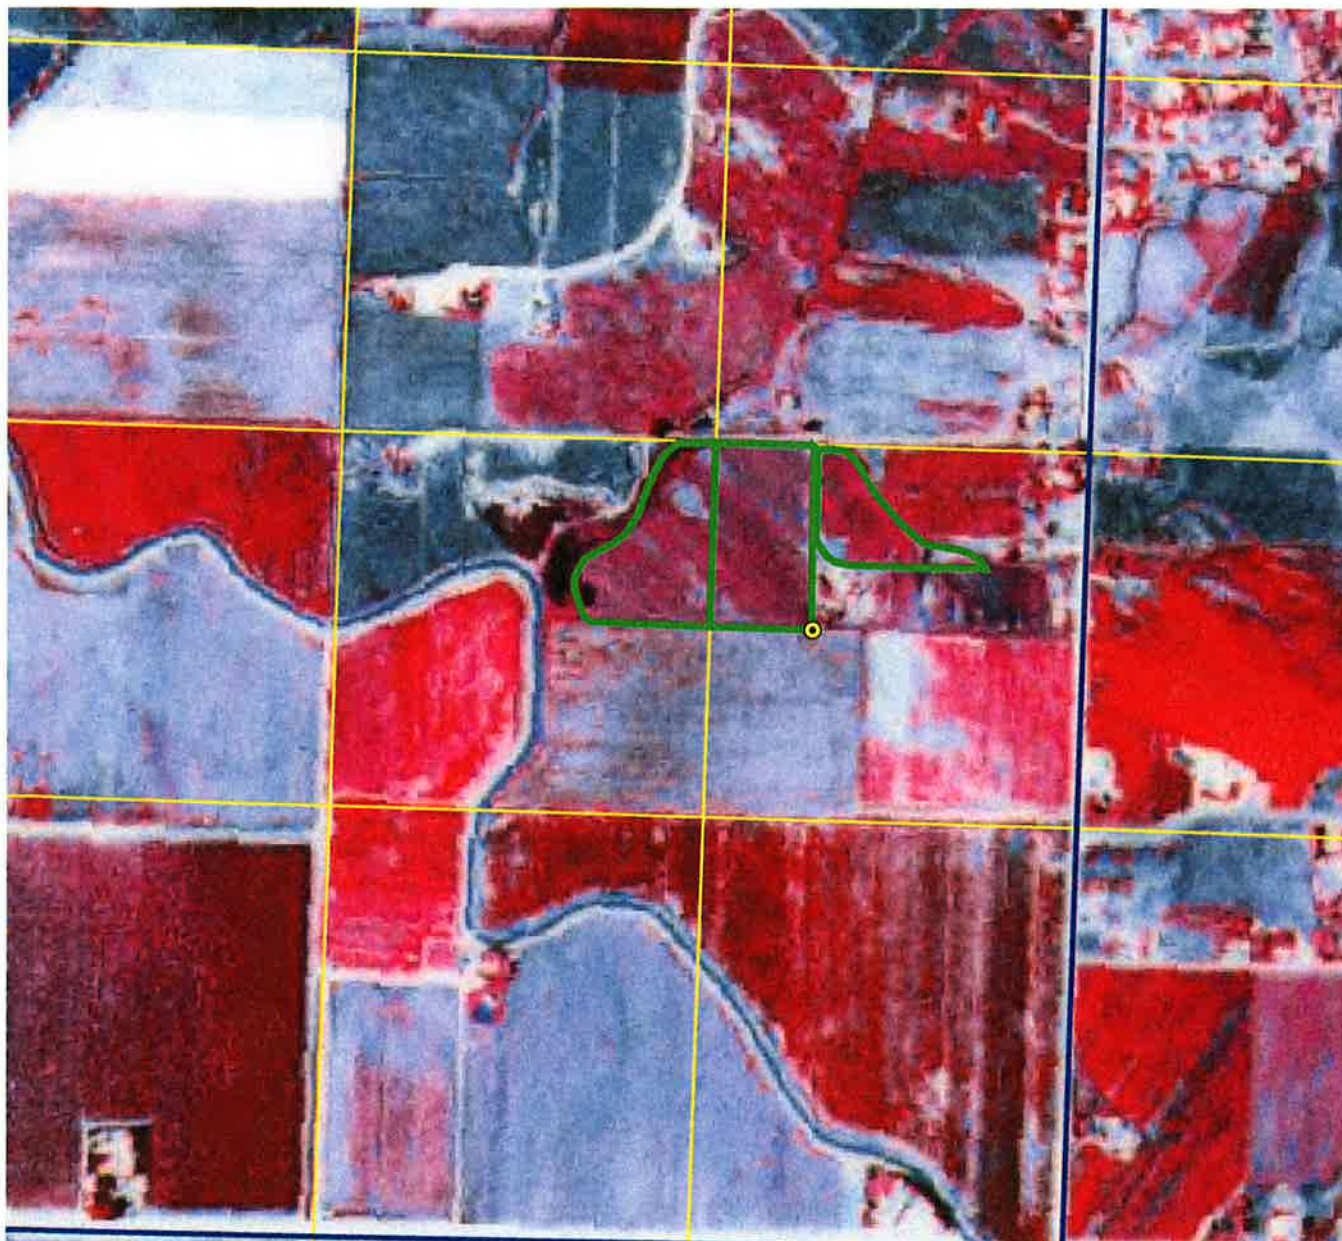

Use of this right is combined with water from Black Canyon Irrigation District.

Conditions of Approval:

1. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
2. W14 Use of this right is combined with water from Black Canyon Irrigation District.

Remarks:

Comments:

1. Igraves 10/2/2006 Source

Comment: As indicated in the filed exam, it appears that water is diverted from BCIDs delivery ditch, which carries wastewater from the upper fields and canal water.

2. Igraves 10/2/2006 Overlaps

Comment: BCID canal water is also used and is delivered through the same system.

3. Igraves 10/2/2006 Priority

Comment: Priority was advanced based on a statement/affidavit submitted with the original statutory claim indicating the pond was developed in 1954 or 1955.

4. Igraves 10/2/2006 Parcel Nos.

Comment: Irrigation is within Parcel Nos. R3811700000 and R3811501100.

5. Igraves 10/2/2006 Pond Size

Comment: The field exam indicated that the surface area of the pond is .3 acre and depth is 8 ft, which equates to 2.4 af total pond volume. The claim was amended to add storage components 9/29/06 based on the flow rate recommended and the 24 hour rule.

6. Igraves 10/2/2006 Flow Rate

Comment: 1.07 cfs was being diverted to the pond for irrigation from the ditch system at the time of the field exam. Recommended acres are limited to .02 cfs/acre.

MEMORANDUM

TO: ADJUDICATION FILES 63-4491

FROM: DANIEL A. NELSON

DATE: 9/9/06

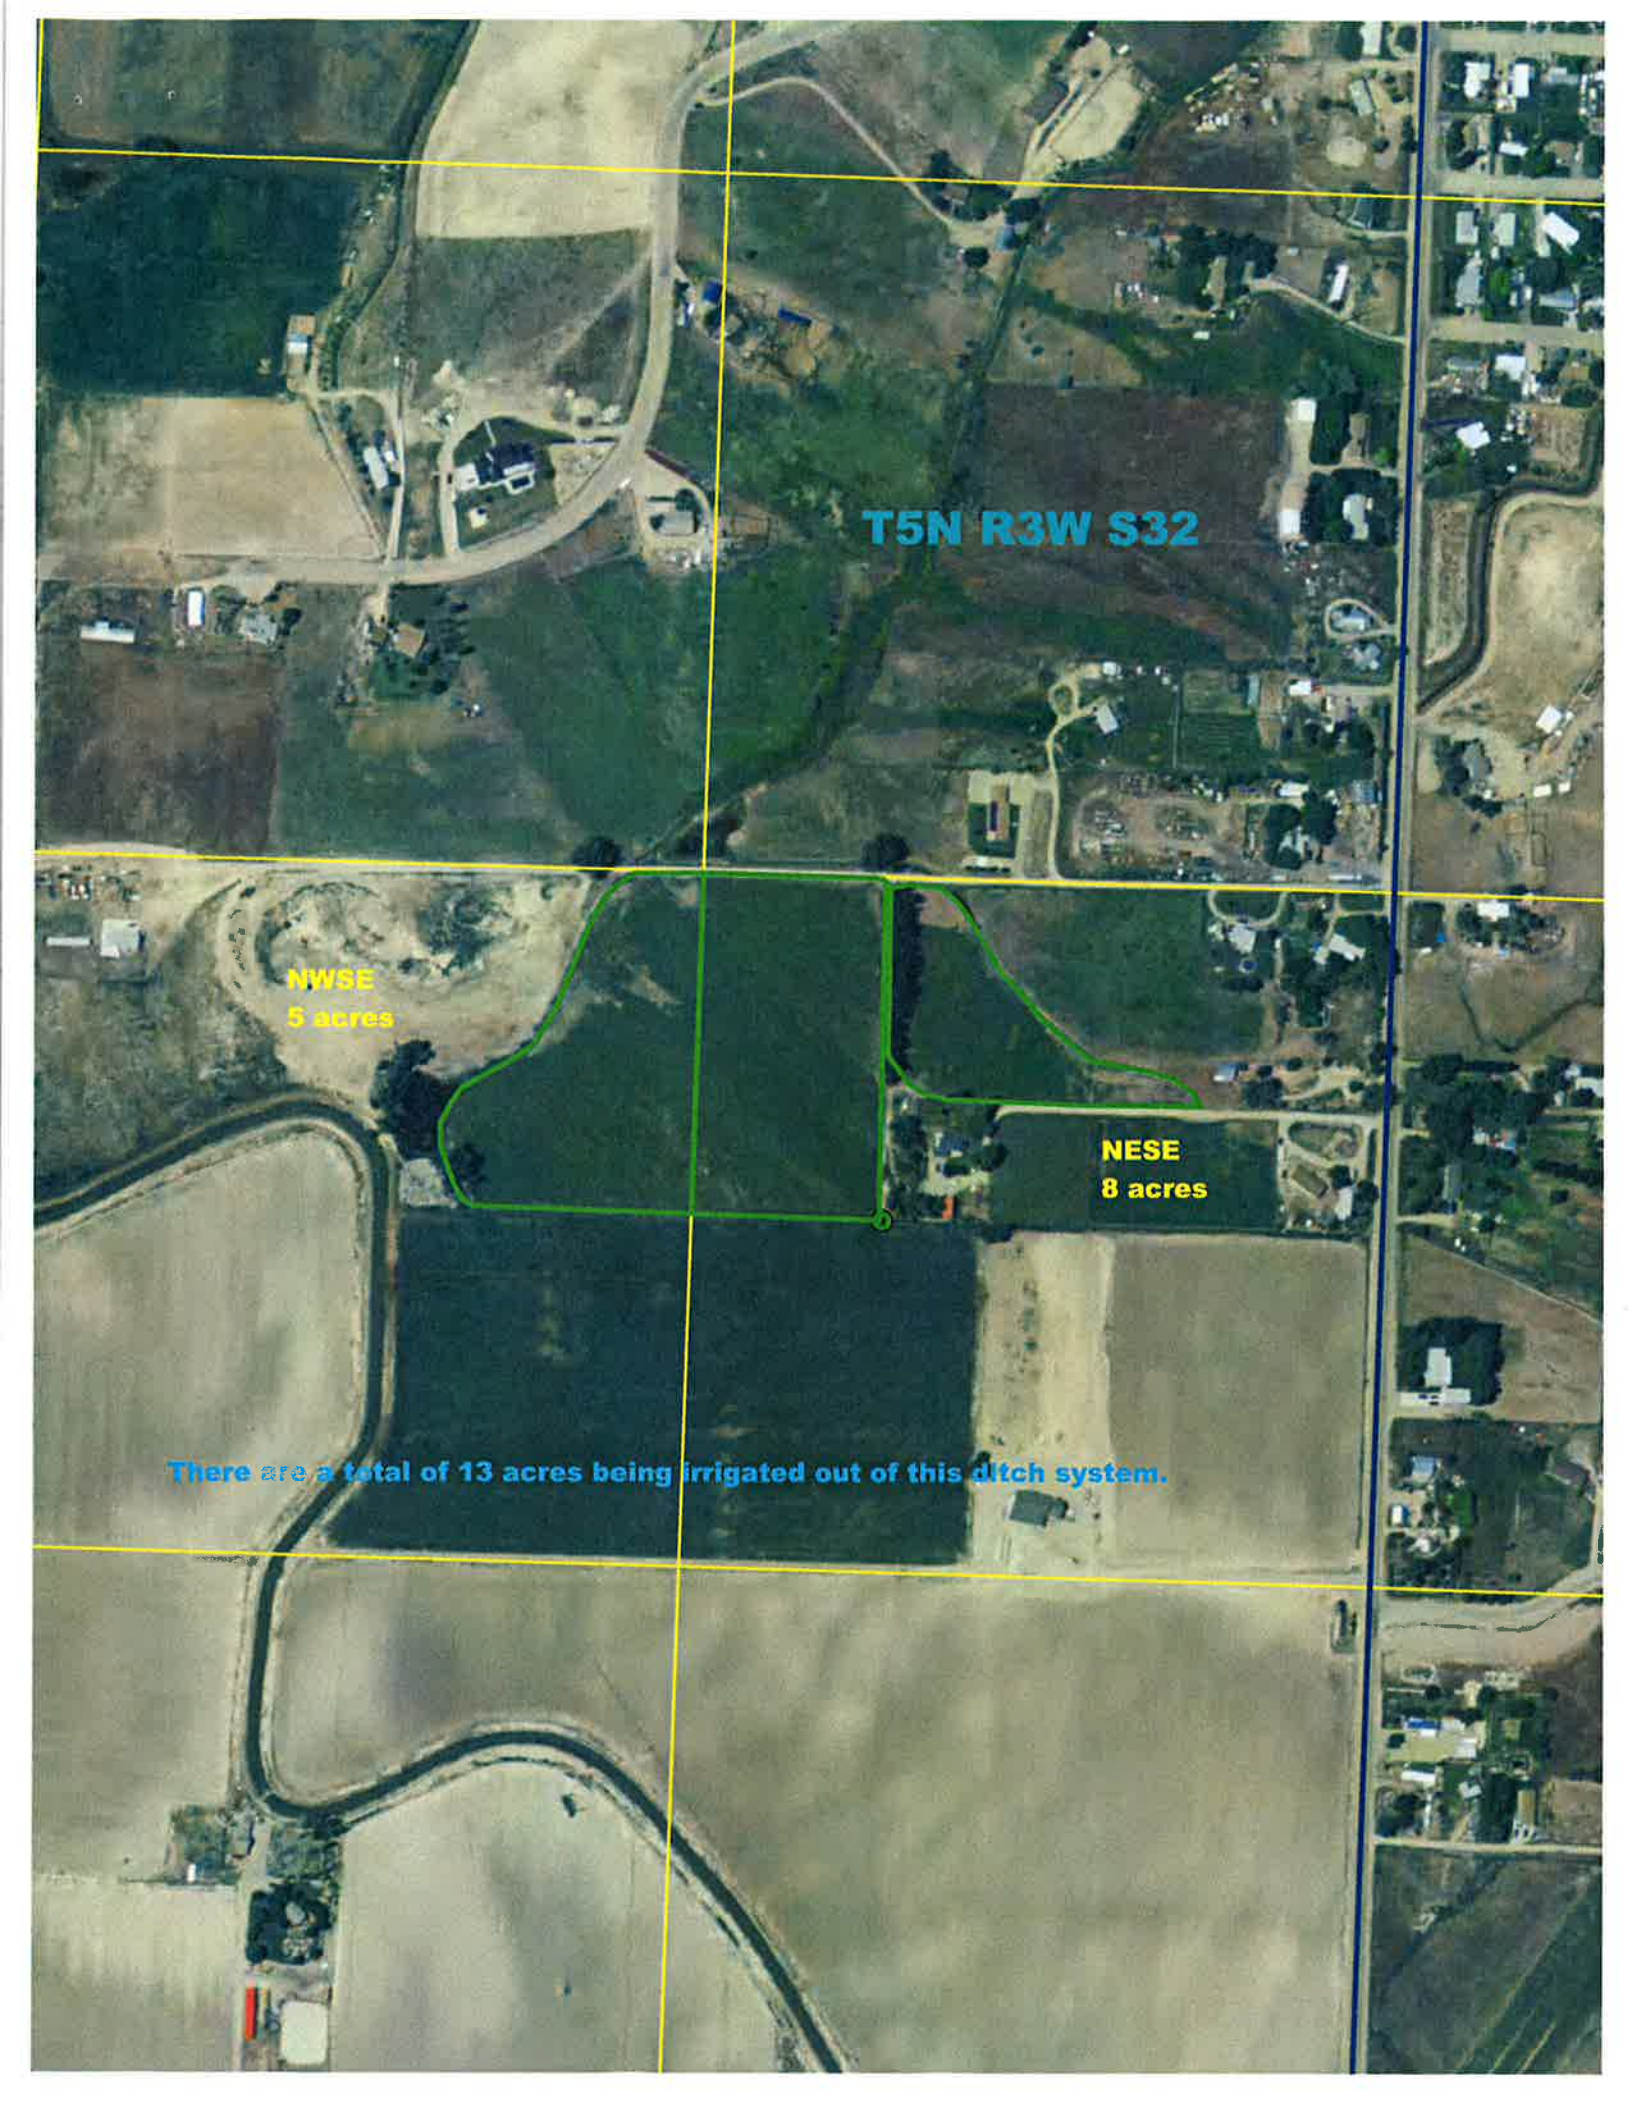

SUBJECT: FIELD EXAMINATION

I visited the property associated with this claim on 8/29/2006. Mr. Bloch accompanied me on this field visit. Mr. Bloch informed me at the time of the exam that he did not have any canal water order, so all of the water in the ditch was wastewater. The ditch split due to a new diversion point and then came back into the pond at the bottom where Mr. Bloch diverts the water from the pump in a catch pond. I measured both ditches and came up with a measurement of 0.51 cfs on the main ditch; and ~~0.23~~ 0.56 cfs on the secondary ditch. Mr. Bloch irrigates 13 acres under this system, so he would be limited to a diversion rate of 0.26 cfs. Dan. 10-10-06

I am very concerned about this claim. The main ditch is actually the delivery ditch for the canal company. The ditch goes down to the pond, and then discharges back into the canal. All of this water appears to be under the canal companies control regardless of whether or not Mr. Bloch order water. It appears that Mr. Bloch is trying to attain approval to use the carry over water by the ditch company that they re-capture and use further down their system. **Therefore, I would suggest that this claim be disallowed on the grounds that this water is covered under the canal companies water rights.**

If the agent recommending this claim does decide to recommend this use, they should limit it to 0.26 cfs / 58.5 afa for irrigation of 13 acres.

On a separate note, Mr. Bloch wanted to include a small field west and up hill of the pond, but there is no way that the water from this ditch could reach that ditch. Mr. Bloch should also work with the canal company to file a transfer on the pond, since it has volume of 2.4 acre-feet and cannot be filled in 24 hours with the 0.26 cfs diversion rate. The canal company would need to file the transfer, since the water is still under their control.

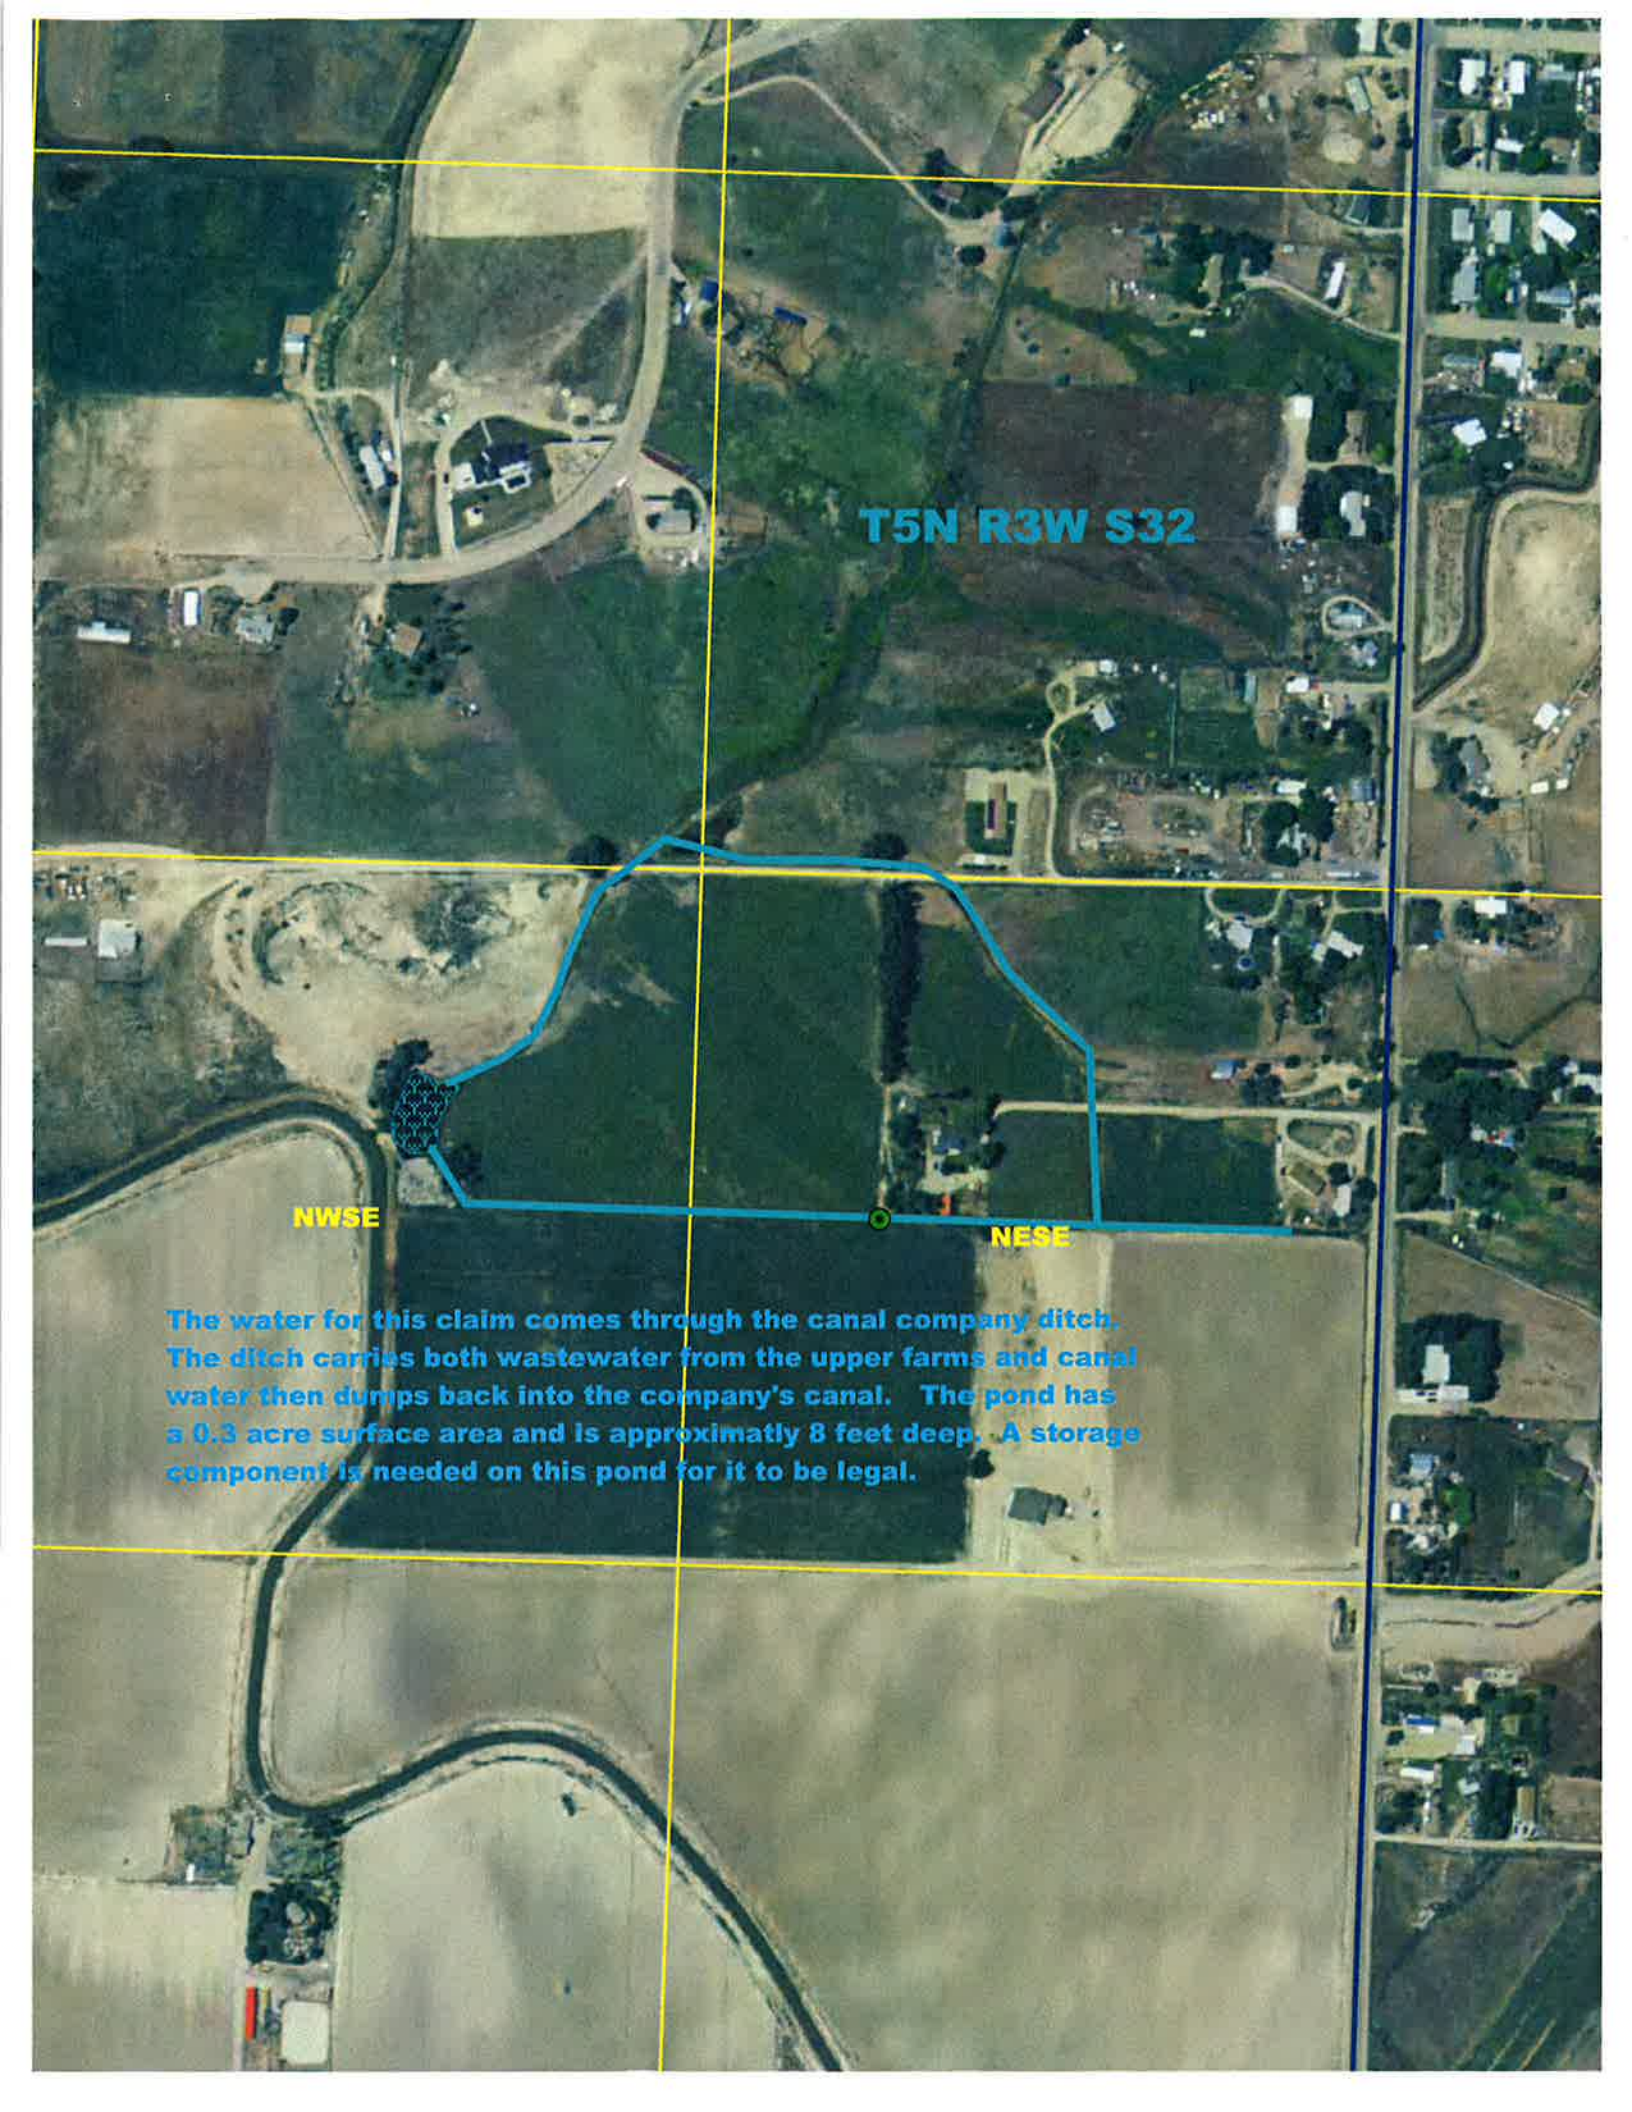

T5N R3W S32

NWSE
5 acres

NESE
8 acres

There are a total of 13 acres being irrigated out of this ditch system.

T5N R3W S32

NWSE

NESE

The water for this claim comes through the canal company ditch. The ditch carries both wastewater from the upper farms and canal water then dumps back into the company's canal. The pond has a 0.3 acre surface area and is approximately 8 feet deep. A storage component is needed on this pond for it to be legal.

FILE NUMBER 63-4491

The top photo is the pump that is currently used to irrigate the west field.

The middle photo shows the west field east of the pond.

The bottom photo shows the eastern field.

ADDITIONAL INFORMATION NEEDED FOR IRRIGATION FIELD EXAMS

Field Examiners, please complete the following checklist. Mark "unknown" or N/A if information doesn't apply or information is unavailable.

IF CURRENT OWNER DOES NOT MATCH PROOF REPORT PLEASE GIVE NEW OWNER CHANGE OF OWNERSHIP FORM TO COMPLETE.

1.) Pump information:

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
Pond Pump	Century	7.5	JAL-1509T	BERKIN	M 5730

2.) Lift (distance from pump to water) 2 FT

3.) How was lift determined (well log, measurement, owner)? MOAS

4.) Pressure against pump (this is checked using the owner's psi gauge, your gauge, or an estimate by owner) 64 psi. OWNER'S GAUGE

5.) Was a measurement made? NO If no can a measurement be made at a latter time? NO MEAS ON PUMP CLOGGED UP

6.) What type of measurement device was used? THEORETICAL

7.) Is there a pump curve available for pump? _____

8.) Please fill out the following:

Number of sprinklers _____

Sprinkler nozzle size _____

Number of Pivots (include gpm rating for each pivot) _____

$$\begin{aligned}
 & (1.70) (7.5) 8.8 = 46.2 \\
 & 2 (64 \times 2.34) = 149.84 \\
 & 135 \\
 & 130 \text{ CFS} \\
 & 130.7
 \end{aligned}$$

138 gpm.

9.) Please outline all acres irrigated on attached aerial photo. _____ DONE

10.) Please clearly mark all points of diversion on map and GPS. _____ DONE

11.) Please clearly mark all mainlines, ditches, and other conveyances.

_____ DONE

12.) Pictures taken of place of use and point of diversion. _____ DONE

13.) Please show where and how water from other sources are diverted into the irrigation system.

Description of diverting works

15" concrete pipe with canvas (See picture # 1 + 2)**OVERLAP REVIEW**

Other water rights with the same point of diversion: _____

Does overlap add acres or uses to existing system, increase rate of flow or volume, or other? Explain: _____

WATER USES

- ☐ No change
☐ Different Uses

Use IRRIGATION From 03/15 To 11/15 Amount ~40 CFS 206 AFA
Use _____ From _____ To _____ Amount _____ CFS _____ AFA
Use _____ From _____ To _____ Amount _____ CFS _____ AFA

TOTAL VOLUME – Groundwater only

- ☐ Incomplete on claim, the total is, Amount _____ CFS _____ AFA
☐ Changes found, the new total is, Amount _____ CFS _____ AFA
☐ More than 1" per Acre? Yes _____ (claimant must complete excess flow sheet)

NON-IRRIGATION USES:

- ☐ No change
☒ Changes Exam found: Domestic # of homes _____ Stock # 15
Types _____ Additional comments: _____

PLACE OF USE:

- ☒ No Change
☐ Changes shown below:

Place of Use			NE				NW				SW				SE				Totals
TWP	RGE	SEC	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
05N	03W	32													15				15.0
																6			6.0

Overlap with other water rights: Black Canyon IRRIGATION DISTRICT-

Does overlap increase rate of flow, volume, additional acres, different source for same acres? Explain:

No

Delivery System Narrative: DIRT ditch with cut outs (See pic's 1 & 2)

Well or Diversion Identification No GPS ID	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge size

FLOW MEASUREMENTS:

Attach appropriate documents

NARRATIVE/REMARKS/COMMENTS

There was No Water being diverted at This Time.
Diversion Pipe is Large enough to divert ~ 40 CFS.
MR Bloch Stated They Run Water Most All the
Time, There is Waste Water, during The IRRIGATION
Seasons

They have Set up a pump and a patch pond to be (See pic#)
Able to possibly in The Future to pump The Water (4 & 6)
back to The top of the Hill (See pic# 1) to The ORIGINAL
Diversion.
I Left a Evidence of PRIORITY Pamphlet with Thomas Bloch

FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

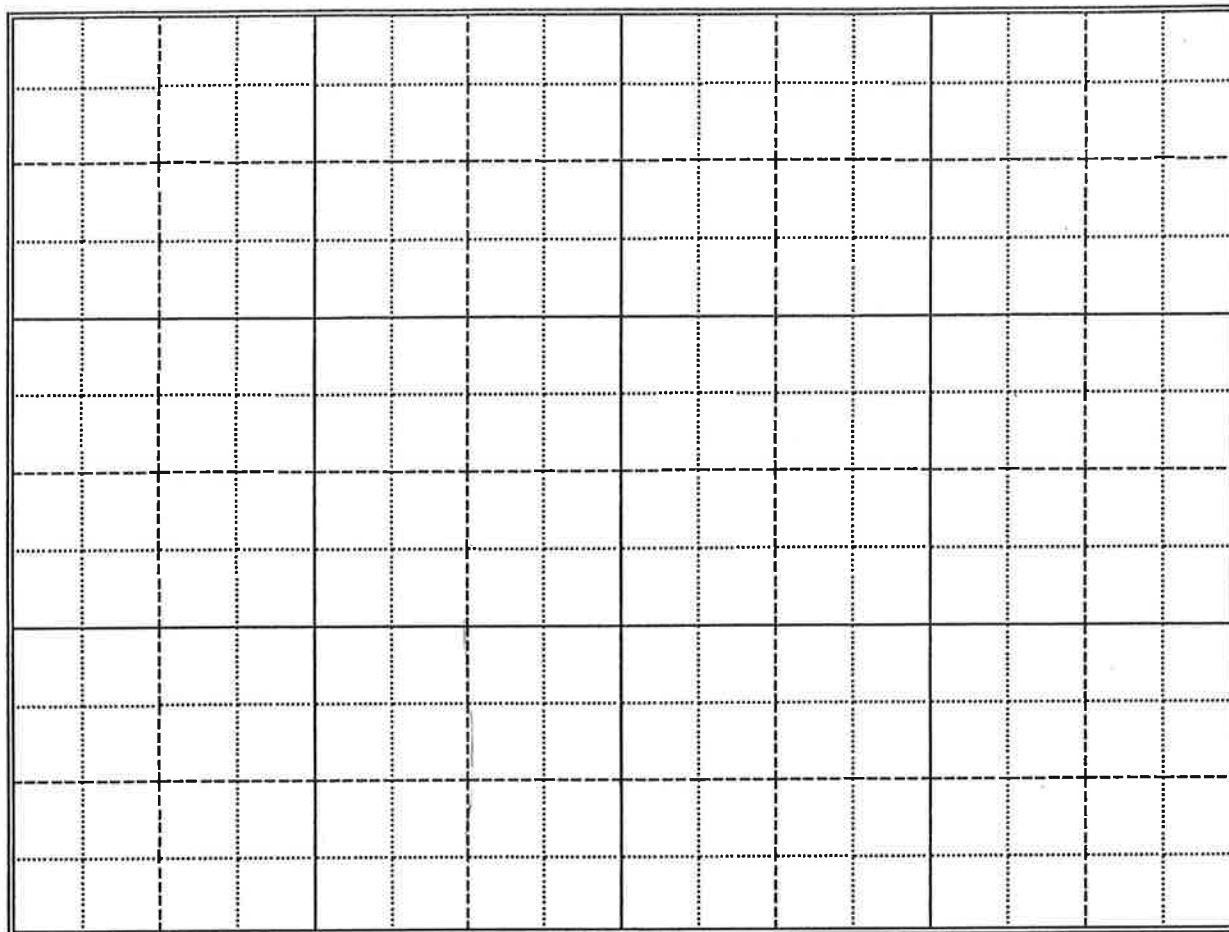

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{21 \times 4.5 = 94.5 \text{ AF/Y}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{4 \times 260 = 104 \times 1.9835 = 206.284}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{94.5}$$

2. Volume Calculations for Other Uses:

Delivery System Diagram: Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable.

Scale: 1" = _____

____ Copy of USGS Quadrangle Attached Showing location(s) of point(s) of diversion and place(s) of use (required).

____ Aerial Photo Attached (required for irrigation of 10+ acres)

FIELD EXAM MEMO

DATE: 6/21/2006

TO: Dan Nelson

FR: Lori Graves

RE: A63-4491

Ken Henley did an incomplete exam on this system in 2005. He referenced a pond in his field report. Notes in the statutory claim file indicate the pond was developed in 1954. If it fills in <24 hours from the wastewater system, nothing is needed. If not, please have applicants amend their claim to include storage and I'll just advance the priority date to 1954.

Other items needed for the claim include:

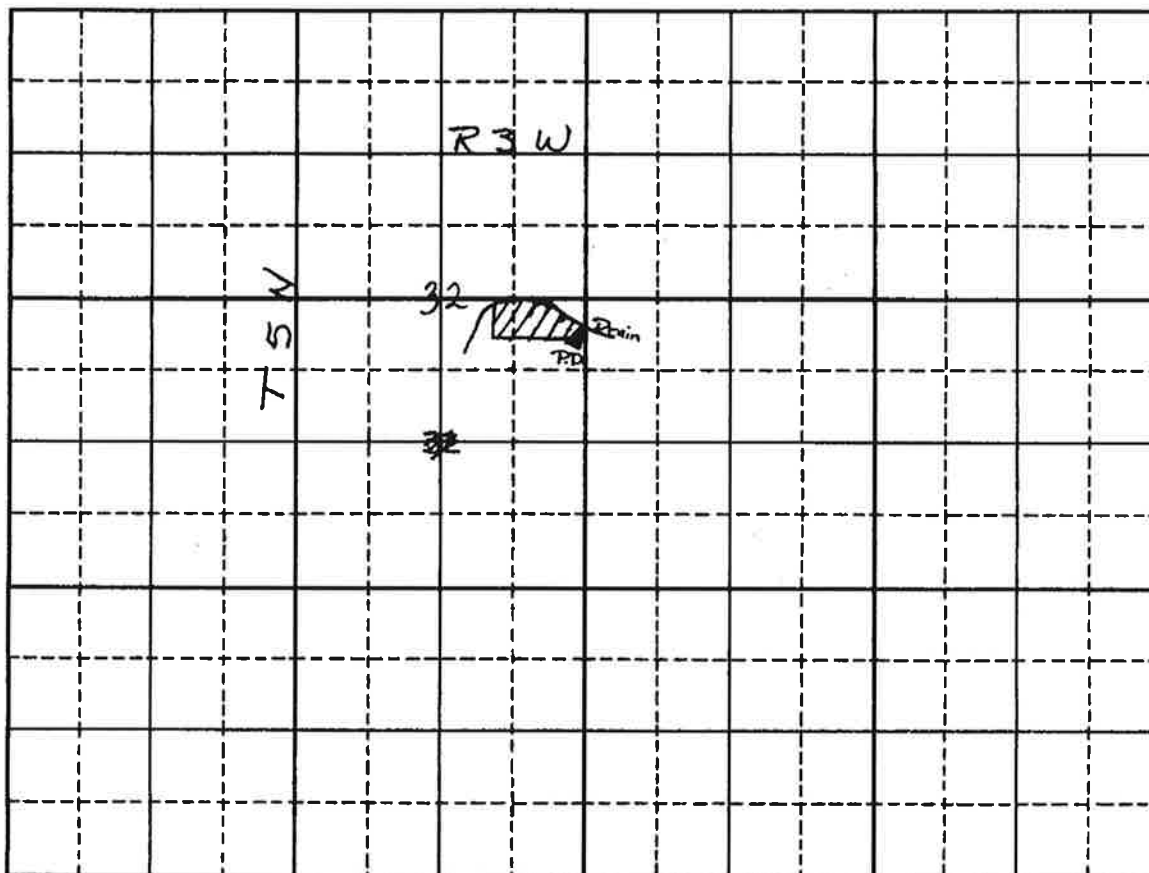

1. System capacity
2. System diagram
3. Acres irrigated in 1987

The claim states that water from BCID is also used.

Thx Dan.

REFLECTION

(8) Remarks _____

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho)
County of Ada) ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiants knowledge.

Sworn to before me this 6th day of May, 19 77

Annette M. Knight Bloch

deposes and says: That in 1976 we purchased approx. 20 acres
from Bessie M. Bradley. Part of the purchase included a
"state water right" for the waste water that came down
the ^{south} ~~north~~ irrigation ditch. It could be used any time
it was available. The water right was transferred to us and
put in my husband's name (Thomas S. Knight). Bessie used
the water the whole time she owned the property and it
was used when "Robert's Ranch" filed on it in the very
early 1950's. Bessie died about 1 year ago.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-4491

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by April 20, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Page 2
3/23/2006

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

Respectfully Submitted,

Lori Graves
Sr. Water Resource Agent

Enclosure: "Evidence of Priority" Pamphlet/Affidavit
Notice of Claim A63-4491

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.
