Re: *SRBA Water Right Nos. 29-13406 (Enlargement Claim) and
29-13407 (Extended Season Claim)*

Dear Brett and Nancy:

I have received your recent Motion to File an Amended Notice of Claim for the purpose of amending 29-13407 to include an additional 1.2 cfs, bringing the total to 2.4 cfs for the irrigation of 180 acres. I note this motion is set for hearing before Judge Melanson Wednesday, May 31, 2006, at 1:30 p.m. I also note the April 25, 2006 Notice Setting Subcase for Scheduling Conference before Special Master Bilyeu on Wednesday, May 3, 2006 at 10:00 a.m.

From my discussions with Candice McHugh of the Department, it is my understanding that the May 3 scheduling conference is replacing the pretrial conference that was scheduled at the same time on 29-13406. Further, that the Department proposes to use the May 10 trial date as a mediation in an attempt to finalize the settlement with the trial to be rescheduled for June 28. We have no objection to these scheduling changes requested by the Department and will so advise the Court at the May 3 scheduling conference.

The proposed settlement which we have been discussing for some time and has the support of the Department as well as my clients, Portneuf Marsh Valley Canal Company and Marsh Valley Development Company, would be for you to amend 29-13407 as you propose to do for the purpose of adding additional water to this claim. Additionally, we expect that your pending objection to 29-13406 will be withdrawn. As a result that claim will be decree as recommended with a 1962

priority. Accordingly, we will not oppose the Motion to Amend 29-13407 so long as your objection to 29-13406 is simultaneously withdrawn.

Information available including information received from Water Master Steve Hebdon confirms that Topaz Irrigation Company does in fact have the prior decreed right on Dempsey Creek. Accordingly, Topaz would take available water from Dempsey Creek and you would be entitled to receive your proportionate share based upon your stock. This settlement appears to be fair to all involved and would not seem to leave you with any real concern or prejudice of the water you would still have available on the land in question below the canal from Topaz Irrigation Company.

If you are in agreement with the settlement as outlined above, we can simply inform the Court at the May 3 scheduling conference, which will bring the matter to a conclusion at that time. If you have any questions, feel free to give me a call.

Sincerely,

RANDALL C. BUDGE

RE Subcase No. 29-13407

Dear Mr. & Ms. Casperson:

Enclosed, please find a Notice of Amended Claim to a Water Right Acquired Under State Law ("Notice of Amended Claim") and a Standard Form 4 Motion to File Amended Notice of Claim ("Standard form 4").

These documents will need to be filed with the SRBA Court if you wish to attempt to amend your claim in subcase no. 29-13407. The Standard Form 4 contains instructions describing how to fill out and file the form. Please note that since your subcase is being heard before a Special Master, you will need to serve copies on all of the parties to the subcase. The Special Master will determine whether or not you will be allowed to amend your claim. If all of the parties to the subcase agree to allow you to amend the claim, it may be helpful for you to state this in your motion.

The signed Notice of Amended Claim should be attached to the Standard Form 4 when it is filed and copies served upon the parties.

If you should have any questions or comments, please feel free to contact me at (208) 287-4815.

Very Truly Yours,

Candice I have concluded that Brett Casperson is not entitled to a 1932 priority date for 29-13406. However, I do have a question concerning 29-13407 which is his extended season irrigation beneficial use claim.

First let me discuss 29-13406. This claim was originally filed to provide for irrigation of 59.7 acres that was not covered by his decreed water. Though the basis is beneficial use it does not provide for the diversion of more water than he was decreed and the season of use is 4-1 to 10-31. After consulting with Allen and reviewing the file it is apparent this claim was to cover land Casperson started to irrigate in 1962 when he installed a sprinkler system and began pumping water from the ditch. Most of the newly irrigated land is actually north of his pump. The high ditch reference in statement by Lowell Maughan is south (but up hill) of the pump. The land irrigated from the high ditch was filed on as part of the decreed POU under 29-10831 and 29-10833. It was also included on 29-13407, which is the extended season of use claim.

My question on 29-13407 concerns an acreage limit. It seems to me that 29-13407 should have an acreage limit of 120 acres. Since the 59.7 acres under 29-13406 has a priority of 1962, Casperson's extended season of use claim with a priority of 1932 is limited to the remaining 120 acres ($179.7\text{ac} - 59.7\text{ac} = 120\text{ac}$).

Rather than change the recommendation on 29-13406 we should add an acreage limit remark to 29-13407.

I have not updated the database to show the change in 29-13407. Let me know if you decide to go forward with it so I can make the update.

Re: use of irrigation water on the "high ground"
from the "high ditch" on the "Maughan" farm prior
to 1932. (This ditch came through Art Faganant's homes

I, J. Lowell Maughan, son of John Raymond Maughan,
personally assisted my Dad to irrigate this acreage
each fall after 15 September & prior to 15 May
each spring.

My Dad used this water each year from
the time he purchased this property in 1917 to
1948 when he leased it to me. From 1948 to 1958 he
assisted me to irrigate the same.

Since that time the water has been
use by the Casperson family - Brett being the
present owner/operator.

To whom it may concern:

The farm owned by, Brett Casperson located at 8893 E. Maughan RD. Lava Hot Springs, ID. 83246, has historically been operated as a farm and dairy since it was homesteaded by the Maughan brothers. Nathan Maughan Casperson, (Brett's father and a younger cousin to the Maughan Brothers) recalls thinning beets in the fields here while a teenager. That would have been in the late 1920's.

Water was used early in the spring and into the late fall. Prior to April 15th and past September 15th, or for as long as the weather permitted. *Nathan M. Casperson*

This is to certify that I can recall the Maughans using water early in the irrigating seasons from the ditch now known as the West Dempsey Canal in the mid-1940's and then Nathan Casperson doing likewise in the mid to late 1960's until the ditch was abandoned.
