RE: Notice of Change of Water Right Ownership (NCO) for
35-02750 and Notice of Completed Administrative Proceeding
(NCAP)

Dear Mr. Jorgensen:

The Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for a portion of the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated with new water right numbers reflecting the division of the water right(s).

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of the water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

Jennifer Crabtree
Technical Records Specialist

MR KAY S JORGENSEN
BOX J
MORELAND ID 83256

Re: Your letter, dated 27 October 1998, to: Karl J. Dreher, Director

Dear Mr. Jorgensen:

The department is in receipt of your letter expressing concerns over recommendations to your Snake River Basin Adjudication (SRBA) water right claims. Herein, I will attempt to clarify the points of your concerns.

First, regarding domestic water right 35-10838, which you "declare should be in effect", this water right was decreed (partial) by the SRBA court on 11/28/97. 35-10838 was recommended and decreed (partial) as it was claimed. I have enclosed a copy of the claim for your reference. Any concerns regarding this water right should be addressed to the SRBA court at the number below.

Next, you have expressed concerns regarding the pictorial representation of you irrigation claim 35-02750B. The claim to 35-02750B was examined on 01/16/97. The examining agent determined at that time service from the well did not cross the highway to the north. Consequently, the recommendation was based on the irrigated lands south of the highway. The examiner found 98 acres irrigated. The diversion rate was reduced according to the acres, maintaining a diversion rate of 0.02 cfs/ac, which equates to 1 inch per acre.

Your letter references water right 35-02470B. Our database shows no record of that water right, but it does show 35-02470 is claimed in T.6S., R.31E. Section 18. This is not your water right claim.

However, when you filed your claim in the SRBA, you split 35-02750 into parts A and B. Part A was for 0.04 cfs for domestic use (copy of the recommendation is enclosed). Part B was the remainder of the license used for irrigation. As licensed, 35-02750 was for 2.04 cfs on 102 acres. Since the domestic claim (35-02750B) was filed in the SRBA, the license was reduced to 2.00 cfs available for irrigation. But, the examining agent found only the 98 acres irrigated and adjusted the recommended diversion rate accordingly to 1.96 cfs.

Referencing the last paragraph of you letter, *"The place of use as enlarged has been sold with water right as claimed under state license enclosed"*. The meaning of this paragraph is unclear. If you have sold the lands, or portions thereof, to which this water right is appurtenant a Notice of Change of Water Right Ownership is required to list the name of the new owner pursuant to §42-

248 IC. Further, if the place of use was enlarged, as stated, there is no SRBA water right claim or permit for the lands enlarged. This is a violation of §42-1426 IC.

The deadline for filing a Notice of Error with IDWR was August 31, 1998. To modify the recommendation at this point will require filing an objection with the SRBA court in Twin Falls. To help expedite this, enclosed are objection forms with instructions. Questions regarding the filing of objections should be directed to the court. Their telephone number is (208) 736-3011.
