RE: Snake River Basin Adjudication (SRBA) Claim No. 37-2675

Dear Claimants:

I have reviewed the Amended Notice of Claim to a Water Right for licensed water right no. 37-2675 that you filed a few weeks ago. I have revised the recommendation so the place of use for this right will be recommended in the Director's Report to the SRBA Court as it was originally licensed. I am unable to recommend a permissible place of use as described on the amended claim, because the evidence I have available indicates the reconfiguration of the irrigation system occurred after November 19, 1987, the commencement date of the SRBA. All changes to the legal description of the place of use of a water right after November 19, 1987 require the filing of an Application for Transfer of Water Right. If you disagree with this analysis, you will have an opportunity to file an objection to recommendation after the Director's Report is filed with the SRBA Court. We are planning to file the Director's Report in approximately one week.

I have enclosed a copy of the revised recommendation and map. Your letter of July 16, 2002 also mentions that you are planning to make an appointment with a Southern Region Office Allocation Agent to assist with the preparing of a transfer for water right no. 37-2760. I am sure they will be able to assist in the preparation of the transfer for right no. 37-2675 as well if you concur that the changes occurred after November 19, 1987.

If you have any questions, you may contact me at 1-800-451-4129 or 1-208-327-7939.

Sincerely,

A handwritten signature in cursive script, reading 'Carter Fritschle'.

RE: Water Right 37-2760 and 37-2675

Dear Mr. Fritschle,

I received your packet concerning the adjudication for both of these rights in Basin 37. My husband and I stopped by Water Resources in Twin Falls on Monday, July 15, 2002, as we had several questions regarding these two claims. We met with Vikie Hancock and reviewed both claims.

Regarding the claim 37-2675, we have filed an amended claim to include the acres we irrigate with that well with the permissible place of use. We paid a fee of \$80.00 to amend the claim to include the additional 80 acres. Vikie emailed you regarding this change and indicated that you would reprocess and review this change.

Regarding the claim 37-2760, we are in agreement on the determination from IDWR. We are currently irrigating with a pivot and have dried up the corner in the SWNE quarter. We plan to see the Twin Falls allocation agent and transfer the water from that corner to the west end of that pivot where irrigation water goes in the NENW and SENW of Section 23, so our place of use and water right are allocated to the proper ground.

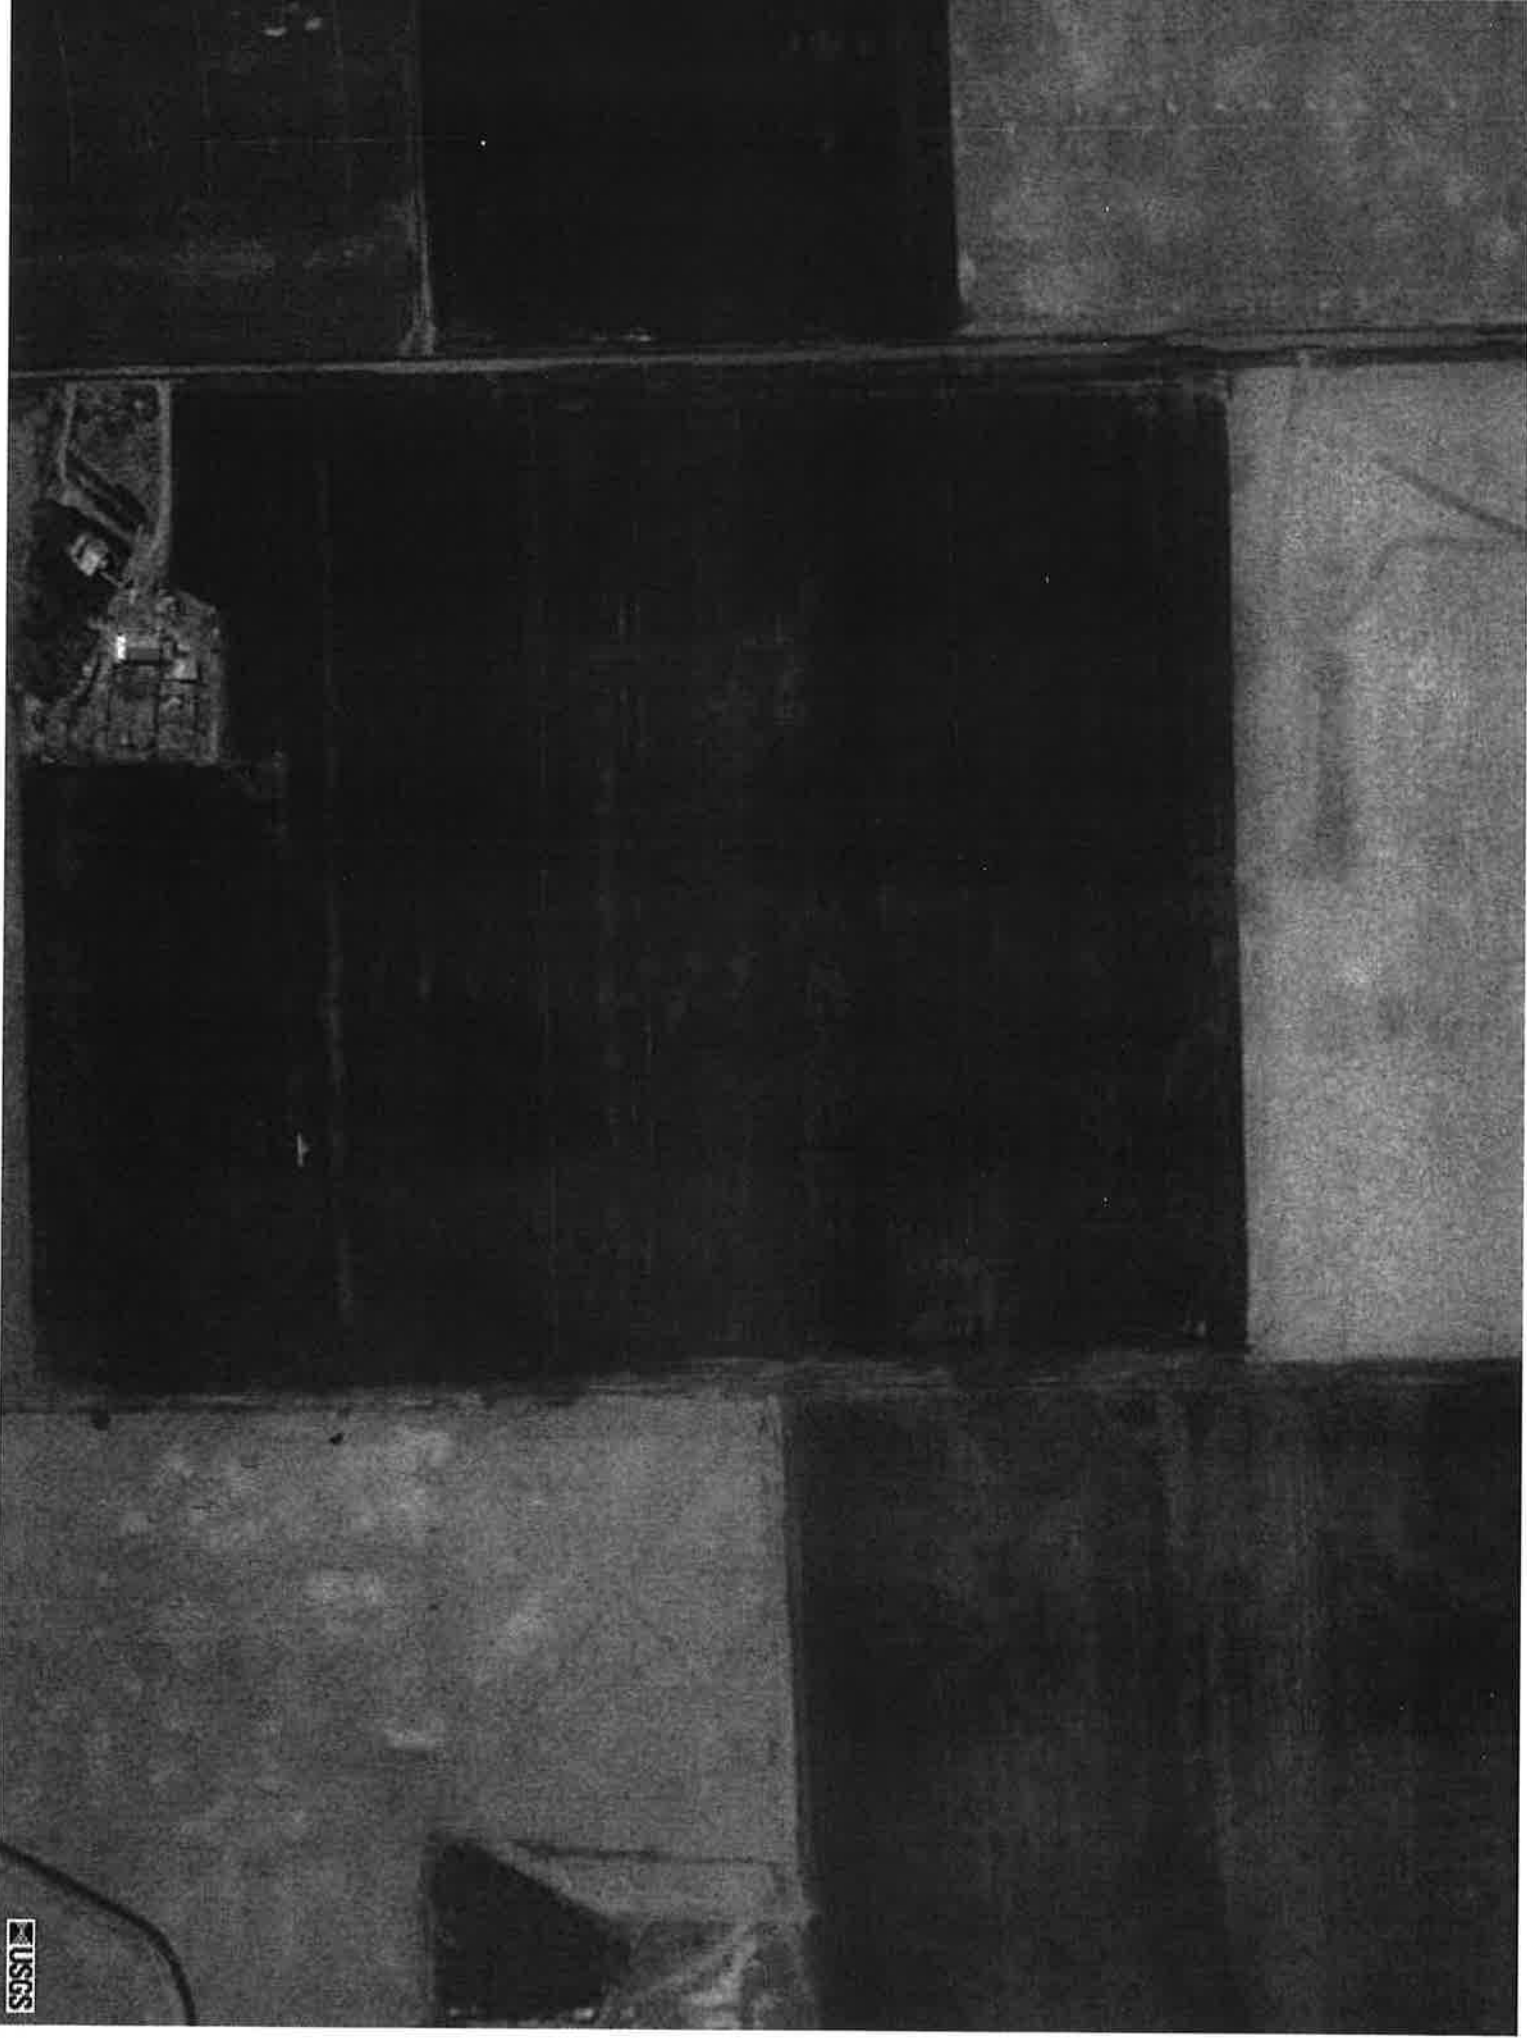

If you have any questions, you may call me at 208-536-2143.

Sincerely,

Kay A. Hults

CALLBACK

NOE 37-2675

She called to ask for the rest of the licensed water to be recommended.. I told her we have been limited by her claim to 40 acres and the license for 0.02 cfs/ac or less. I suggested she go into the southern region and amend her claim as she thinks it is being used. She said they irrigate 160 acres with the well and canal shares. I mentioned she may have claim to an enlargement claim but it is up to her to tell us what she is doing with the water. She has been working with Corbin K. to measure the water in the well over the few months.
