Re: Water Rights 35-07991 A and B

Dear Ernie:

Candice has requested that I respond directly to you in the above matter. Enclosed is a photo copy of the assessors map of the subject property to which the objection was made. Since this property was patented as a mining claim before the USGS survey the real property north of the mining claim boundary was listed in the survey as Government Lots numbered one and two. In the past the pivot irrigation system watered several acres of land in Lots one and two. The end gun has been turned off and we are not farming any ground in said Lots 1 and 2 that we are aware of. Mr. Dubois is concerned that the records reflect that we have no interest in property lying to the North of the SW1/4 of said section 15.

My recommendation would be that, based on the recommendation of the Power County Assessor, that the first paragraph on the place of use be revised to reflect the following:

“That the use of water within Section 15 in Township 9 South, Range 28 EBM be limited to the South West ¼ of said Section 15 and shall not include any portion of Lots numbered one and two in the South ½ of the Northwest ¼ of said section 15.”

FILED

SCANNED
SEP 07 2005

The existing language could be read to limit use in the South half of the NESW and NWSW which would reduce my water right from 154 acres to 114 acres, which is not what was intended.

It is my understanding that Candice will prepare a SSFS (?) on this proposal and forward it to all parties and that the Court has set a deadline of May 10, 2002 at 5:00 pm for the complete resolution of this matter.

If you have any problems or questions please give me a call.

Sincerely,

Ben Cavaness
