REMARKS: (INCLUDE LIMITATIONS ON CONSUMPTIVE USE FOR COMBINED RIGHTS.)

See Memo in license file - volume calculated at 0.77 afy and rounded to 1.0 afy.
Uses are restrooms, etc., with de minimus consumptive use; washing equipment, which
also would have negligible consumptive use; and agricultural chemical spraying, which is
seldom and which was not even used to compute the diversion volume on the license.
Therefore, consumptive use volume is so small as to be almost unquantifiable. Recommend
De Minimus consumptive use.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

DATE: September 19, 1990

RE: LICENSE EXAM REVIEW/35-8167

=====

This field exam was among a number of industrial/commercial use exams for which I delayed final recommendations because additional data or information was needed.

In this particular case, the examiner assigned an annual volume based on rate of flow. This amount appeared to be high. On this date I called Western Farm Service fertilizer plant and inquired more specifically about the nature of water use at the plant. Plant manager Randy Rueger informed me that water use is limited to domestic use for the plant office, for washing equipment and occasionally for mixing with agricultural chemicals. The chemical mixing use is seldom and is negligible in estimating overall volume. Equipment washing varies according to season, but Rueger said it is generally limited to washing of certain equipment about once per week and for hosing down trucks which enter and leave the plant.

Volume estimate:

- Office w/restrooms -- 5 full-time employees year round and 7 part-time employees in April and May

5 x 50gpd x 255 working days = 63,750gal/yr
7 x 50gpd x 53 working days = 18,550gal/yr

82,300gal/yr or 0.25 af.

- Washing

2 hr./wk x 0.06 cfs x 52 wks./yr = 168,105.6 gal/yr or 0.52 af

Total volume: 0.52 afa + 0.25 afa = 0.77 afa
Recommend rounding volume to 1.0 afa.

RE: Notice of Claim to Water Rights, Idaho

Dear Mr. Haener:

I have prepared a Notice of Claim for the water right numbers you requested. Please review the prepared claims and if you are satisfied with them, sign and notarize the claims and return them to this office. The claim fee is as follows:

A25-04250	\$60.00
A27-07371	\$54.00
A35-08167	\$56.00
Total	<u>\$170.00</u>

Regarding lapsed permit no. 35-08627. The permit was lapsed on May 13, 1987 because proof of beneficial use was not filed. A condition on the permit stated that proof was due on May 1, 1987. The necessary forms were sent to your Jerome office, but they were not returned to us. I have enclosed a copy of the lapse notice for your records.

To reinstate this permit you need to submit proof that the development was in place by May 1, 1987. I have enclosed a Proof of Beneficial Use form that you may use to initiate the reinstatement process. Along with this form (and appropriate fee), you need to send some corroborative evidence that the development was in place by May 1, 1987. Acceptable evidence could be power hook-up records or well driller records. Please send this information and the request, in writing, to:
