

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576

Ident. Number 63-9103F
Date Received: 2/5/1996
Receipt No: X777777
Received By:

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name of Claimant(s)

BEN CHOUTCHOURROU Phone: (208)459-1898

6020 SE 10TH AVE
CALDWELL ID USA 83605

TONI CHOUTCHOURROU Phone: (208)459-1898

6020 SE 10TH AVE
CALDWELL ID USA 83605

2. Date of Priority: 03/31/1977

3. Source: GROUND WATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4 Lot	County	Type
06N	04W	14	NE NE	PAYETTE	

5. Description of diverting works:

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or) A.F.A
IRRIGATION	03/15	11/15	0.47	198

7. Total Quantity Appropriated is:
0.47 C.F.S. and/or 198 A.F.A.

8. Total consumptive use:

9. Non-irrigation uses:

10. Place of use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
06N	04W	11	SE	SE	IRRIGATION	25
					Section Acres	25
06N	04W	12	SW	SW	IRRIGATION	19
					Section Acres	19
					Total Acres	44

11. Place of use in counties: PAYETTE

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

15. Basis of Claim: License

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED**NOV 08 2000****WATER RESOURCES
WESTERN REGION**

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
<u>63-09103</u>	<u>A63-09103</u>				

2. The following **REQUIRED** information must be submitted with this form:
- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions): **PLAT OF PROPERTY** or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
- OR**
- If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The AERIAL PHOTO should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

3. Name and Address of Former Owner/Claimant(s) Lisa Gray
16975 Star Rd., Nampa, Idaho, 83687
4. New Owner/Claimant(s) Ben & Toni Choutchourrou
 Name Connector (Check one): ☒ and, [] or, [] and/or
- New Mailing Address 6020 SE 10th Ave.
- City, State and ZIP Code Caldwell, Idaho 83605
- New Telephone Number 208-459-1898
5. Date you acquired the property 1996

6. **If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

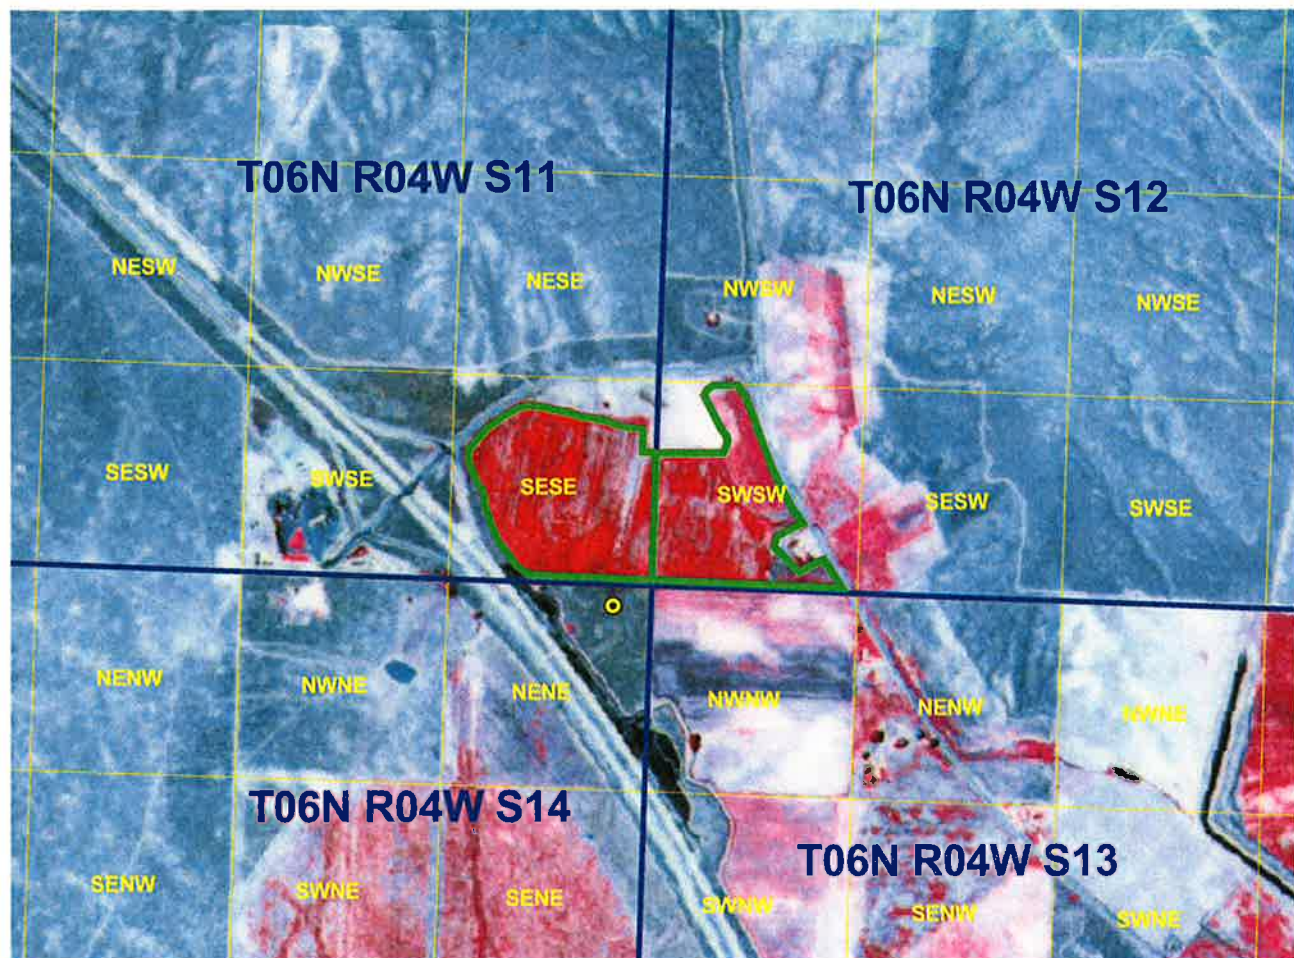

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.

Rights 63-32277, 63-32279, and 63-32280 are also diverted through the point(s) of diversion described above.

4. S39 The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before March 15 and after November 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Remarks:Comments:

1. dnelson 5/31/2006 Claim Review

Comment: This claim was based on portion of water right license 63-9103. A transfer was filed on water right 63-9103 that split the right into four separate pieces. The portion retained by the previous owner 63-9103A was then split again through an ownership change into this claim and 63-9103E. Adjudication claim 63-9103E was the split two more times. Please see the water right split tree in the file for a better picture of the splits. This portion of the original right still seems to be used for irrigation for the property associated with the place of use. The claimants are listed in the county tax lot information as the current owners. There have been no transfers on the water rights that were split, so it is assumed that all of the water rights involved in the split still use the same point of diversion. The other three water rights associated with the transfer were moved to other points of diversion and places of use, and are no longer associated with this irrigation system. The only additional conditions that should be added are the season of use extension and the multiple rights being diverted from the same point of diversion descriptor.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Explanatory Material, other rights diverted from described point of diversion.

2. Describe the changes you wish to make in the proposed recommendation:

Recommendation lists right 63-32780 as also diverted through the described point of diversion. It appears this is a typographical error, and the right should be identified as 63-32280.

3. Give a brief explanation as to why you disagree with these portions:

Right 63-32780 does not exist

CONDITIONS OF APPROVAL AND REMARKS

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. The Director maintains jurisdiction of this transfer up to five (5) years for the purpose of determining potential injury to existing rights, both junior and senior, in the vicinity of the transferred point of diversion.
3. The Director retains jurisdiction of this right to require streamflow augmentation or other action determined to be appropriate to protect prior surface water or ground water rights. Such stream flow augmentation or other action will be required only upon a determination of need and applicability by the Director.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
- ** 8. The total instantaneous diversion of water from all points of diversion under Transfer 5395 shall not exceed 0.20 cfs, nor a total combined annual volume of 79.2 af.

CONDITIONS OF APPROVAL AND REMARKS

- * 9. The total instantaneous diversion of water from all points of diversion under Right 63-09103D shall not exceed 0.10 cfs, nor a total combined annual volume of 34.2 af.
10. Prior to diversion of water under Right 63-09103D, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
11. Two points of diversion are located within SESW, S19, T02N, R01W.
12. The water used for commercial purposes under this approval is applied to and irrigates land listed in the place of use to satisfy water quality requirements. Water shall not irrigate growing plants unless the water is first beneficially used in the dairy as authorized by Right 63-09103D.
13. Use of water under Right 63-09103D shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.
14. The dairy operation authorized under Right 63-09103D shall comply with applicable county zoning and use ordinances.
15. The place of use under Right 63-09103B is also known as Lots 19 and 20, Block 1, Calderon Estates Subdivision.
16. The place of use under Right 63-09103C is also known as Lot 5, Block 3, Heather Haven Estates.

RE: REVIEW

DATE: June 30, 1999

Moving a ground water right this distance in an extensively appropriated aquifer is a concern. However, it is my understanding that the results of the on-going study of ground water in the Treasure Valley indicates that unappropriated water is available and that the ground water levels are stable in the locations to which the right is being transferred. IDWR is now in the process of adopting a management plan for Basin 63 that will provide for processing pending and new applications to appropriate water. The processing of this transfer should be allowed to proceed because it represents a way of for the applicants to move forward with their projects while the management plan is being adopted. However, the transfers, if approved, should be conditioned to recognize impacts on other surface and ground water rights. Specifically,

a. The need to mitigate if near surface ground water is taken that affects surface rights above Star.

b. Use should be subordinated to existing junior ground water rights in the immediate location of new wells drilled under the transfer to prevent or at least provide a basis for addressing well interference problems.

MEMORANDUM

TO: File No. 63-09103 (Transfer No. 5395 in the Name of Lisa Gray)

FROM: Gary Spackman *GSp*

RE: Review and Recommended Conditions of Approval

DATE: June 28, 1999

Application for transfer no. 5395 proposes a single transfer of water rights owned by Lisa Gray to four separate locations, two for dairy use, and two for irrigation of small parcels of property. The point of diversion and place of use from which the water is proposed to be moved is located in the far northwest boundaries of basin 63 in Payette County in the Sand Hollow area. The Duffy point of diversion and place of use for irrigation of five acres is located in Ada County, south of Boise. The point of diversion and place of use for the Asche portion is located northwest of Eagle. The point of diversion and place of use for the Boschma portion for a dairy is located in Canyon County, south of Nampa. Finally, the application for transfer identified the point of diversion for the Choutchourrou point of diversion in T02N, R03W, Sec. 19 (south of Lake Lowell), but described the place of use in T06N, R03W, Sections 19 and 30, which is located in the Sand Hollow area.

After reviewing the application, I identified three potential issues:

1. The distance between the existing point of diversion and the proposed points of diversion concerns me. All of the points of diversion will be moved hydrologically upstream in the basin. Nonetheless, I have no reason recommend denial because of distance other than some specific examples in the next two issues.
2. The Asche point of diversion and place of use is located approximately one mile inside a general boundary where surface water is tributary to the Boise River above Star Bridge. A transfer of water from the Sand Hollow area upstream to an area where water is tributary to the Boise River would cause injury to surface water users if the shallow surface water is not cased out. I asked Sherl Chapman to examine the construction of the well and determine whether the shallow surface water was cased and sealed out. Sherl consulted the well driller's report, a copy of which is in the file. He argued that three clay layers described in the lithologic log would prevent migration of water from the shallow aquifers to the well screens. He admitted that the drive shoe was not seated in the clay, but argued that the clay may have collapsed around the casing. He also stated that the static water level was at 75 feet even though the production zone was located between 147 and 160 feet. I argued in response that there was no proof that the annular space

MICROFILMED
JUN 09 1999

between the well casing and the bore hole was not open, and that the first water encountered was at approximately 80 feet, which is about the same water level as the static water level measured. Nonetheless, we have not published the rough draft maps identifying the area tributary to the Boise River above Star Bridge, and are uncertain as to its boundaries. As a result, I recommend approval of the Asche portion of the application for transfer.

3. The point of diversion identified for the Choutchourra portion is located within the Dry Lake area where water levels have declined. After discussing this issue at length with Sherl Chapman, he finally discovered that the point of diversion description in the application was incorrect, and, furthermore, and that the legal notice for the application was also published incorrectly. In further discussions with IDWR staff and Choutchourra, Sherl discovered that Choutchourra did not need this water, and the Choutchourra portion of the application for transfer was deleted.

I recommend that the Duffy, Asche, and Boschma portions of the application for transfer be approved with standard application for transfer conditions.

As a footnote, I have told staff that we should not accept applications for transfer that describe multiple systems because of independent issues raised by each independent system.

MEMO

DATE: 2/4/1999
FR: lg
TO: X-fer File 63-09103
RE: Review

TRANSFER ATTACHMENTS

- A. Diversion descriptions for each proposal
- B. Maps of new p/u
- C. Ownership documentation
- D. Irrigation proof for acres being transferred
- E. Dairy worksheets
- F. SRBA claim

DESCRIPTION

This transfer is a combination of 4 small transfers.

Ten acres are being transferred for irrigation use for two separate properties:

Duffy (GD) - 5 acres

Asche (RA) - 5 acres

Each will divert from individual existing wells (1 ea) for irrigation of their subdivision lots. No other rights are used for irrigation.

Change in nature of use on ¹⁰22 acres from irrigation to commercial for ^{two} separate dairies is also proposed for transfer:

~~Choutchourrou (BC) - 11.7 acres consumptive use~~

Boschma (SB) - 9.8 acres consumptive use

Both dairies exist and are operating. No new wells are proposed.

* N/A - Choutchourrou has previously filed transfer 5285 to cover his current dairy operation. He plans to expand in the near future, which is why he is applying for additional water via this transfer. Once approved, his share of water will be placed in the water bank for future cows.

Boshma has statutory claim 63-04498 for dom/stock use which he did not file in the SRBA. His dairy has outgrown IC 42-111, which is why he is playing "catch-up" with this transfer.

WR VERIFICATION & SRBA

Applicant's father originally owned land being transferred and submitted CFSA documentation supporting irrigation use within the last 5 years. The father filed an SRBA claim on his remaining portion of the license only. The acres being transferred have not been claimed in the SRBA. Sheryl Chapman stated that a claim will be filed. *

RECOMMENDATIONS

One issue that may be worth pondering is the fact that the license is located in Payette county while the dairies are located in Canyon county and the subdivision acreages are located in Ada county.

* Amended claim filed 2/23/99, COMPLETED

AUG 9 9 1999

-82

This transfer should not be forwarded to the SO until an SRBA claim has been received for applicant's acres. Received 2/23/99

A change of ownership should be required for each separate split if this transfer is approved.

* Choutchoungrow purchased a portion of the acres licensed by this same water right and will be filing a separate transfer in their name.

WATER RIGHT LICENSE

License of Water Right No. 63-9103 Priority March 31, 1977 Amount 1.86 cfs

THIS IS TO CERTIFY, that Leonard K. Hayden
of Caldwell, Idaho, has complied with the terms and conditions of Permit
No. 63-9103 issued pursuant to Application for Permit dated March 31, 1977,
and has submitted proof to the Department of Water Resources on May 6, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.86 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u> at <u>1.86</u> cfs and <u>787.5</u> acre feet		
	from _____ at _____ cfs and _____		
	from _____ at _____ cfs and _____		

Subject, however, to the condition that no more than 1.86 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
787.5 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 14, Twp.
6N, Rge. 4W in the County of Payette

Description and location of place of use:

Re: ERO Project No. 1450

Dear Lori:

Enclosed you will find a Notice of Change in Water Right Ownership for the property Ben and Toni Choutchourrou purchased from Lisa Graves some time back. This is the subject property that we discussed during the Application for Transfer over a year ago when Leonard Haden tried to sell Ben and Toni their own water. If you need any additional information on this or we need to supplement the record, please let me know.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Sheri", written over a horizontal line.
