WATER RESOURCES

Exhibit B

Notice of withdrawal from objection to water right

This letter is to inform Mr. and Mr. Jones and the Court that I wish to withdrawal objection known as 95-17843 that I have file with the Court. This objection is specific to water claim 95-0949 that Mr. Bob Jones applied for in 2009.

When I submitted my objection I did so, in part, based on an aerial map that I received from IDWR Northern Office and I submitted this map in Exhibit A with the objection. The map clearly plots a Spring (recorded as 95-0949) on my property. This map is claimed to have been created mid 1980's by an IDWR Inspector for the adjudication that concluded April 14, 1989. After speaking to Mr. Bob Jones and hiring a contractor to excavate above said location on and surrounding areas on 10-4-2019; this map is incorrect for the location of spring 95-0949 and I do not have sufficient evidence to move forward with this objection.

Respectfully submitted,

 10-9-19
Erin Kingsbury
