Roberta Garrett

Department of Water Resources

Dear Ms. Garrett:

I am responding to your letter of December 30, 1982. As shown on the enclosed map, Stoddard Creek originates in a series of four major springs. The southernmost spring is named Lower Waddington Spring, with a flow rate of approximately 3.5 to 4.0 C.F.S. The water of this spring is diverted via Lower Waddington ditch for irrigation of property approximately one quarter mile south of the spring complex. During the non irrigation season the water is returned to Stoddard Creek.

The second southernmost spring is named Upper Waddington Spring, which has a flow rate of approximately 1.0-1.5 C.F.S. The water of this spring is diverted via Upper Waddington ditch for irrigation of property directly south of the spring complex. During the non irrigation season the water is returned to Stoddard Creek.

The third spring, adjacent to Upper Waddington Spring, is named Stoddard Creek Spring. The flow rate of this spring is approximately 5.0 C.F.S., of which 3.5 C.F.S. is diverted via pipeline and siphon to the water distribution box on the Harrison property. This water was questioned and decreed. The balance of Stoddard Creek Spring flow (aprox. 1.5 C.F.S.) percolates through the rocks and into Stoddard Creek.

The northernmost unnamed spring has a flow rate of aprox. 1.5 C.F.S. Claim No. 37-4031 is diverted from this spring, and the balance of the spring flow joins Stoddard Creek.

A Claim to a Water Right No. 37-4225 filed on 12-16-81 defined our irrigation water right. It might be noted that the priority date of the supporting document attached to the Claim is 2-3-1888 for 400 miners inches, which was continually

used until the water dispute. Since that time, and because of the decreed rights we now have only about 300 miners inches of Irrigation water.

The combined flow of the four major springs of Stoddard Creek flows under the old Highway 30 to the diversion box for Claims Nos: 37-4032 and 37-4033. Claim No. 37-4225 is diverted approximately 1,000 feet west of old Highway 30 on Stoddard Creek.

In addition to the above named claims, we have Claim No. 37-4034 and Approved Applications for Permits Numbers: 37-7184, 37-7989 and 37-7200 for Stoddard Creek Waters.

I hope the above information will be helpful to you. If any additional information or clarification is neccessary, feel free to contact me at (208) 837-4970.

Sincerely,

Stanley Standal
