D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Pygmy meter				090181		

2. **Measurements:** Jan Shurte performed a measurement of the entire Sand Hollow drain on 5/13/1987. Since the applicant is the last person on the drain before it enters the Snake River, they have the ability to use all of the drain water if necessary.

43-9268

E. NARRATIVE/REMARKS/COMMENTS

On May 13, 1987, Jan Shurte performed a field exam on this permit. During this field exam, Ms. Shurte measured the water in Sand Hollow Drain and determined the capacity of the system. I have reviewed her data and agree with her measurements. This measurement should be used to determine the amount of water allocated for this permit.

The water for this permit is taken from the Sand Hollow Drain at multiple points along the drain. The applicant is the last user on the drain, so they have the ability to divert the entire drain if needed. This system is comprised of a number of wildlife storage ponds and irrigated fields that are all fed through ditch system and gravity irrigation. Approximately 83.4 acres of ground have been irrigated at this place of use. The crops grown are generally corn and grain type crops to supply food for the ducks and other wildlife that use the facility. There are approximately 15 ponds that are used to supply water for ducks and fish. All of the ponds are interconnected and the return flows from the ponds and irrigation goes directly into the Snake River.

OVERLAP

Water rights 63-4717, 63-4639, 63-4640, 63-4638, 63-11812, 63-11813 all overlap the place of use and point of diversion. 63-4717, 63-4639, 63-4640, and 63-4638 overlap the 83.4 acres that were found irrigated. These rights are all statutory claims and have not been verified. However, the irrigation described in these rights more than cover the amount land actually irrigated. Therefore, no irrigation should be recommended under this permit.

63-11812 and 63-11813 overlaps some of the ponds for this permit. However, all of the ponds had been developed except for the ponds in Section 25. Therefore, these permits should be used to cover the ponds in Section 25. All the remaining ponds not in Section 25 will be covered under this permit.

This permit allows wildlife, but does not have any storage component. The four irrigation rights do have a wildlife component, but do not have a storage component either. Therefore, this permit should be amended for the storage of the ponds and the diversion to storage. The refill of the ponds will be covered by the wildlife components listed on the 4 statutory claims.

RECOMMENDATIONS:

I recommend that this permit be recommended for diversion to storage at a diversion rate of 5.16 cfs and wildlife storage for 292 afa. This permit should be amended to remove the irrigation and wildlife component for the permit and changed to include the storage components.

Have conditions of permit approval been met? X yes no

F. FLOW CALCULATIONSYES Additional Computation Sheets Attached

Measured Method:

The capacity of the system was measured at 18.6 cfs (please see attached sheet).

The permit limits the diversion rate to 5.16 cfs, so the maximum allowable diversion rate is 5.16 cfs.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

B

2. Volume Calculations for Other Uses:

292 acre-feet of storage for all of the ponds, excluding the ponds in Section 25, which will be covered under, permits 63-11812 and 63-11813.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial use	Period Of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
DIVERSION TO STORAGE	1/1	12/31	5.16 CFS	
WILDLIFE STORAGE	1/1	12/31		292 AFA
TOTAL			5.16 CFS	292 AFA

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☒ Other

(CHANGE USE TO DIVERSION TO STORAGE AND WILDLIFE STORAGE)
