Hwy 39 1 mile office N.

SCANNED
AUG 29 2005

PROF

35-04229

Upon further review the priority date for this claim is recommended as 6/1/1962.

The amount recommended for:

$$\begin{aligned} \text{IRR.} &= 0.09 \text{ cfs } (0.03 \text{ cfs/acre})(3 \text{ acres}) = 0.09 \text{ cfs} \\ 12 \text{ AFA} & (4 \text{ AF/AL})(3 \text{ acres}) = 12 \text{ AFA} \end{aligned}$$

$$\text{DOMESTIC} = 0.09 \text{ cfs}$$

A theoretical flow rate for a 1 HP pump @ 110' = 0.03 cfs.

$$0.03 \text{ cfs} (3 \text{ wells and pumps}) = 0.09 \text{ cfs}$$

The wells will not produce an amount greater than 0.09 cfs, so 0.09 cfs is total Q.

RE: **Evidence of Priority**
NO. 'S' A35-04190, A35-04229, A35-04227, & A35-04168

Dear Claimant:

The Notices of Claim identified with the numbers shown at the end of this letter have been filed in the Snake River Basin Adjudication (SRBA). The Notices indicate the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notices and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notices have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notices be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority dates by JULY 15, 1991, referencing all documents with the corresponding Notice numbers. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

This lava rock structure served in the early 1900's both as school and meeting house for the Church near Tilden, known as the Rich Community. The Rich area lost its identity as a branch when its members were absorbed into the Pingree and Thomas Wards.

The Pingree Ward, organized in 1918, purchased this grand hotel for their first meeting house and chapel. Efforts to remodel the thirteen rooms proved successful and served until a new church was built years later.

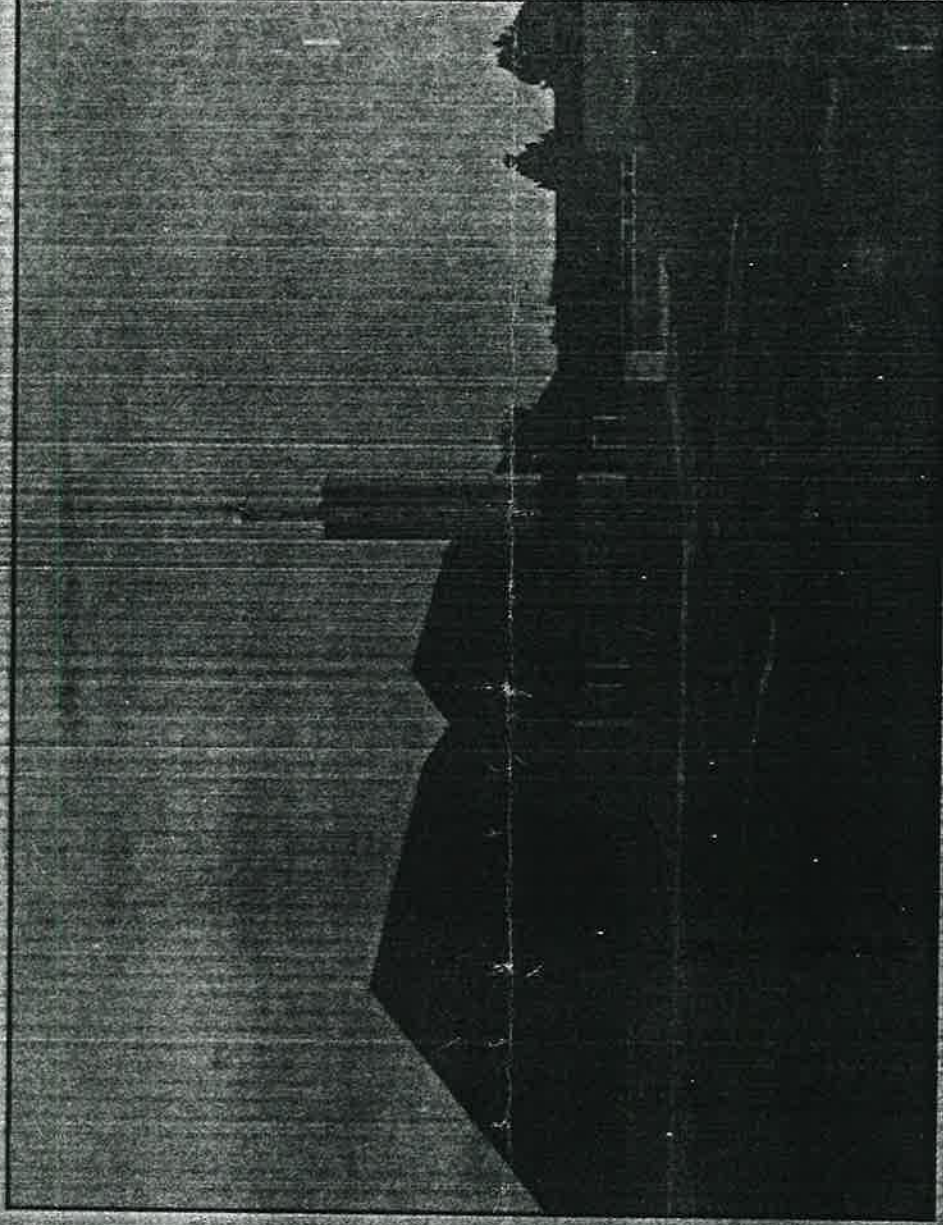

~~The new Thomas~~ ^{PINGREE} chapel was dedicated ^{FEB 21, 1965} ~~June 12, 1949~~ with ^{PRES L LUMBER} ~~Bishop LeGrande Richards~~ giving the address and dedicatory prayer. The building was packed to capacity with people thrilled at the success of combined efforts with the Lord.

PROFUM

The town of Pingree, 14 miles southwest of Blackfoot, was started around 1902-1903 by a businessman from Ogden who believed it would be built into a successful trading center, situated as it was halfway between Blackfoot and Aberdeen.

James Pingree, a lawyer and president of four Utah banks, had his belief enforced when the Aberdeen-Springfield Canal was completed around 1908-1909, bringing life-giving water to the vast country of arid sagebrush and lava. A branch of the railroad came through from Blackfoot to Aberdeen about the same time, and the canal's builders, two men named Bothwell and McCahey, appropriated 320 acres of land and subdivided it into lots which were sold at auction.

Pingree built two large buildings of lava rock, one in a store and the other a modern hotel, the first buildings in the area to have indoor plumbing and hot and cold water piped into the rooms.

The buildings were completed in 1910, and were a wonder to all who saw them. Even the sidewalks and landscaping were beautiful, and Pingree was like an oasis in the desert, which seemed to "blossom like a rose."

The railroad built a big warehouse in which to store materials and to help develop the townsite. The warehouse, located where the Vanderford Cellar was to stand years later, became a part of the Pingree enterprise. A large, beautiful depot was also built near the tracks on the townsite.

Pingree thought the hotel would do a big business, since it could stay midway between the two towns. However, he was doomed to disappointment when the hotel didn't draw the anticipated trade and Pingree lost his investment. He gave up his interests when the town didn't flourish as expected. Pingree was glad to sell, although he lost money in the venture.

Later, the Pingree Townsite Company was formed. The lots were surveyed and a wide-spread promotion began to sell them. Rueben Miller was the director of the PTC and the promotion really put Pingree on the map.

Many people from the east and other places bought lots and plots of ground when they read of the fine climate, good water rights and the fact that Pingree had the best drinking water (encased in lava) in the country.

The Pingree ward of the Church of Jesus Christ of Latter-day Saints organized in 1918, was an outgrowth of the old Rich community. Its first home was the hotel which Clarence Miller had mortgaged to Z.C.M.I. Through the efforts of Bishop E.S. Buchanan, the LDS Church purchased the hotel for use as the Pingree Ward meeting house.

Early spring of 1980 Pingree Bishopric launched an extensive building and remodeling program to fit the needs and growth of the ward. The first Sunday services held in the new building were on May 10, 1981, a special memory for those mothers who received tribute in honor of Mother's Day.

Growth continued rapidly, so on October 11, 1981 the ward was divided forming the Pingree Second Ward.
