Dear claimant,

After reviewing the enclosed water right for the Snake River Basin Adjudication, it would appear that you may have an increase in the number of acres you now irrigate from what was originally found and/or licensed. If you wish to file on these extra acres, or to discuss this, please give me a call at the above address.

SYSTEM DESCRIPTION:

Co-mingled water divided from an artesian well
 used for irrigation. The water is pumped from the well to a holding pond above
 the point of distribution. The water is then pumped from the pond to the point of
 distribution. The water is then pumped from the point of distribution to the point of
 application. The water is then pumped from the point of application to the point of
 use. The water is then pumped from the point of use to the point of disposal.
 Remarks: The water is pumped from the well to a holding pond above the point of
 distribution. The water is then pumped from the pond to the point of distribution to the point of
 application. The water is then pumped from the point of application to the point of use. The water is then pumped from the point of use to the point of disposal.
