RE: EVIDENCE OF PRIORITY

Dear Mr. Pierce:

The Notice of Claim identified with the number shown at the end of this letter has been filed in the Snake River Basin Adjudication (SBRA). The Notice indicates the water usage is based on expansion (irrigation of additional acres) of an existing licensed or unadjudicated right. Water rights of this type are established by the historical use of water, dating back to when the expansion occurred. The expansion date for your claim has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the date of expansion (Item #2).

For your reference I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May be Evidence of the Priority Date".

It is our goal to recommend this historical water right within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notice be decreed by the court if no evidence of priority date is submitted.

Please submit the required evidence supporting the priority date by **July 25, 1991**, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

This property has just recently been purchased by me Isaac D Pierce & before purchase I was in the process of being tested for additional acre expansion - of which a 2 yr. grace period was approved by your office about 2 months ago. While at your office, I believe Mr. Dunn who did all the paper work as far as history on property & pump refer to Mr. Earl Waddop. I file the man who previously owned property.

RE: NOTICES OF CLAIM A35-02139B, A34-10902, AND
A35-10907

Dear Isaac:

The request for Change in Ownership concerning Notices of Claim in the above reference has been processed and the Notices modified to reflect you as the new owner.

In researching the water rights, I discovered one other right belonging to the former owner, Mr. Waddoups. I verified with Mr. Waddoups that the right should be transferred to your name. The number is A35-10907.

Enclosed are typed Notices with your name shown as the current owner. Review the forms and if there are other corrections or questions, feel free to contact this office.

If there are no questions or corrections, please keep these Notices for your records.

Respectfully submitted,

Ernest Carlsen
Adjudication Supervisor

Dept of Water Resources

Dear Sirs or madame,

Department of Water Resources

I bought $\frac{1}{2}$ of Delton Hawkers
Desert Entry Claim and went about
proving up on it. I didn't have much
capital to work with and built it up
gradually until I had a 60 H.P. Pump
and 4 hand lines sprinkler system
which I thought would be adequate and
on which I took my beneficial use.
However the soil was a lighter sandy
loam and not too deep and I soon found
that it wouldn't hold enough water
to last until the sprinklers got around
to it again. So as soon as I could
afford to, I obtain a loan from Federal
Land Banks and increased the numbers
of lines from 4 to 6 and H.P. to 100.
This gives me more frequent irrigations
and produces much better crops.
While 4 lines may be barely adequate

on heavier and deeper soils they are
not adequate for profitable production
on my lighter soil. therefore I am
requesting the additional beneficial
use Water. Thank you for your
help and consideration in this matter.

Sincerely

Verl J Waddoups
