POOR ORIGINAL

Kennie

The documents you sent were very helpful in preparing an amended notice. I've attached a reduced photocopy of the subdivision plat to the amended notice so you may keep the original and the picture.

On the amended notice you will see a change in the diversion amount, from 0.15 cfs to 0.21 cfs, and an increase in the acreage, from 5 to 7 acres. ~~I left the~~ The 0.21 cfs is based on a diversion rate of 0.03 cfs/acre which was the ratio used to on your <sup>first</sup> notice. This may change as a result of the claim investigation sometime in the future. The licensed rate was 0.02 cfs/acre however the license shows 65 acres being irrigated & I doubt if that many have ever been irrigated. To determine the irrigated acres I scaled the map & then used a dot

MICROFILMED  
APR 18 1994

Page 2

POOR ORIGINAL

material. If you feel there are more acres being irrigated then write the number you wish to claim.

The amended average represents an increase of 2 acres <sup>over</sup> of the 5 acres previously claimed. Therefore the additional fee for the amended notice is \$2.00. Please include it when returning the signed & notarized form.

Naturally feel free to contact me if you have any questions.

Ernest Carlson  
W.R. Supervisor,

MICROFILMED

May 20, 1993

Dear Ernie,

As per phone conversation on May 19, 1993 I wish to amend my irrigation rights form identification number A 75-02055A. You said you needed the plat description in order to amend the existing water right application. As you see the map that is marked in yellow is what I own. I want to add rights to lot 9.

Please fill out form or application and how much I owe. I will return the application with check.
