Dear Sir:

Regarding Preliminary Recommendation of Water Rights Acquired Under State Law- Right: Number 75-2083. There are several errors regarding this right. I contacted the Adjudication Hotline-phone # 1-800-451-4129 on December 1st and spoke with a woman by the name of Denny. She gave me the phone number of Mr. Ken Knoblock in Coeur d' Alene, and I made a phone call to him and arranged an appointment for Monday the 11th of December to go over the errors on this document and to show him the original paper work we had filled out in Idaho Falls in 1990. I also told him that I had deeded this property to my son Jordan J. Stover a number of years ago, and that I had presented this information to Mr. Bob Foster in Salmon this last summer. Mr. Foster had made a copy of the information presented, and at that time made out an envelope for mailing to the Boise office. I spoke with Mr. Foster by phone yesterday and he said he remembered our meeting and indeed the transfer of ownership papers had been sent on to Boise.

Although I have a meeting arranged with Mr. Knoblock for December 11th in Coeur d'Alene your paperwork indicates that the Error Notification must be mailed by December 8th, 2006. Therefore I am filling out a copy with the errors so noted and will also present this to Mr. Knoblock along with copies of the original paperwork and another copy of the change in ownership form, which is sending to my son to fill out.

Yours truly,

Mary J. Stover

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED
JAN 03 2007
IDWR/North

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
	<u>A75-02083</u>				

2. The following **REQUIRED** information must be submitted with this form:

A. ~~The appropriate PLAT OF PROPERTY or SURVEY MAP for the property.~~

☒ B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

3. Name and Address of Former Owner/Claimant(s)

Dear Water Right Claimant:

To help you with your water right claim(s) in the Snake River Basin Adjudication, this letter of explanation is being sent to you along with information sent by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* finding and conclusion about your water right and how it should be reported to the SRBA Court. This preliminary recommendation is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you actually filed.

Therefore, please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This preliminary recommendation is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the actual recommendations are ultimately filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's actual recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see. Of course, you may always employ the services of an attorney if you wish.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous services provided by IDWR.

Sincerely yours,

A handwritten signature in black ink, appearing to read "John M. Melanson", is written over a circular stamp.

John M. Melanson
Presiding Judge
Snake River Basin Adjudication

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and redivision. Points of injection and rediversion are indicated where water is diverted from one source, injected into another source, and then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very-limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a printout showing our preliminary recommendation for reporting your claim(s) to the SRBA District Court later in 2006.

Please review the preliminary recommendation carefully. If there is any information on the printout that you believe is inaccurate, please fill out the enclosed reply form Notice of Error indicating what changes you believe should be made. Further instructions to assist you with review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area that is identified in the enclosed instructions. Please take advantage of one of the public meetings, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right claim(s). Please bring any and all information you have which will help the Department understand your claim(s) and describe them accurately. If you want to call my office, please call (800) 451-4129 or (208) 287-4922.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary for and appreciated by IDWR to provide accurate information to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

To Water Users of Basin 75,

Please find enclosed the Preliminary Director's Report for your water right claims in the Snake River Basin Adjudication. This is an important opportunity to review the Idaho Department of Water Resources' (IDWR) conclusions regarding your water rights, resolve errors, and have questions answered **before** the report is finalized for the SRBA Court.

CONTENTS OF THIS MAILING:

- ❖ Preliminary Director's Report Instructions (colored page, front and back)
- ❖ Letter From Karl Dreher, Director of IDWR
- ❖ General Map of Basin 75 for vicinity reference
- ❖ **Your Water Right Recommendation(s) & Map(s)** with Notice of Error form(s)
- ❖ Letter from the Presiding Judge, Snake River Basin Adjudication Court

Please join us for an informational presentation at:

2:00 P.M. or 7:00 P.M. on Wednesday, December 6, 2006, at the Conference Room of the Stagecoach Inn, 201 Highway 93 North, Salmon, Idaho.

Additional time to discuss your claims is available by appointment on December 7th at the Conference Room of the Stagecoach Inn. You may call the Adjudication Hot Line at 1-800-451-4129 to pre-schedule an appointment for December 7th.

If you miss the informational meeting or need additional assistance then give us a call to set up an appointment in Salmon, Boise or Coeur d' Alene.

Respectfully yours,

David R. Tuthill, Jr.
