July 15, 2005

Idaho Department of Water Resources
P.O. Box 83720
Boise, ID 83707-9815

This is in response to your letter of June 29, 2005, requiring proof of the priority date used in my claim to a water right, No. 75-4015, for water used on H.E.S. 544, located on the Spring Creek drainage in Lemhi County.

I am enclosing Federal documents relating to the homestead entry that indicate ditches were in place and in use at the priority date.

No one living can document the earliest days of use, but I am enclosing affidavits showing use as far back as possible. As your response deadline was extremely short, I am requesting that I be allowed to submit additional information at a later date if it becomes available.

Sincerely,

William B. Galligan

I am an owner of a portion of H.E.S. 544 in the Spring Creek drainage of Lemhi County and in 1972 filed a claim to a water right, No. 75-4015, to use the existing ditches for irrigation.

I wish to state that since 1972, I have diverted water from Spring Creek to irrigate my property.

I also attest that the additional owners of H.E.S. 544, present and past since 1972 have also diverted water since then for irrigation purposes.

Sincerely,

William B. Galligan

I am an owner of a portion of H.E.S. 544 in the Spring Creek drainage in Lemhi County.

I have been an owner since 1982. From 1972 to 1982, I annually visited a good friend E.D. Shipp, the previous owner of my property.

I wish to attest that since 1972 H.E.S. has been under irrigation.

Sincerely,

Hailey-H.E. 023676

1. CLAIMANT.

Daniel Collier, present residence or address unknown.
Claimant is not known to be married or to have a family.

2. DESCRIPTION OF CLAIM.

Location of claim is in unsurveyed sections 12, T 24 N, R 18 E, B.M., and in section 7, T 24 N, R 19 E, B.M., at the Forks of Spring Creek approximately three miles north of the North Fork-Shoup stage road.

3. TOPOGRAPHY AND SURFACE.

Claim lies on and about the confluence of the two main branches of Spring Creek and mainly consists of flat area of creek bottom running back to the sloping sides of the surrounding hills. The altitude is approximately 3400 feet above sea. The slope of the bottom land is gradual and slight and toward the south. The portion of the claim bordering on the surrounding hills has slopes from 20 to 45 per cent. Approximately 8 acres would be suitable for tilling.

4. SETTLEMENT AND RESIDENCE.

Claimant settled on the land March 15, 1918. Date of filing May 12, 1919. Actual residence was established March 15, 1918. During the season of 1918, claimant resided on claim and tilled and improved approximately 3 acres, constructed ditches for irrigation and fenced a small area. At this time claimant was married and his wife resided with him on the claim. In July of year 1918, the wife died and the claimant left the claim to accept employment of various short periods at nearby ranches. During the summer claimant was called in the draft and left the ranch without a tenant. During the following years of 1919, 1920, 1921, 1922 and up to the present date of 1923, no other residence of the claimant on the claim in question is to be reported. After the month of July 1918, no cultivation of the claim was performed. The implements for farming were removed in 1918, and nothing remains in the house at the present time except a few useless kitchen utensils an iron bed, springs and a mattress partly destroyed. The following names of witnesses for reference are submitted:
J.R. Hibbs, Ulysses, Idaho, Oscar Westfall, Ulysses, Idaho, and Chas. Twining, Shoup, Idaho.

SCANNED

JUL 21 2005

(54-c)
INSIDE
5. IMPROVEMENTS.

The dwelling is a log structure 14'x 20', board floor, two windows, one room. At the time it was constructed it probably cost \$40, and was substantial and habitable at all seasons. Since 1918, the building has been out of repair and at present would not afford comfortable quarters for habitation during stormy or winter weather.

The water supply is Spring Creek about 50' from the dwelling. An area of 10 acres was fenced with pole, leaning fence, and brush fence, whole length being about 40 rods, the steep bank of the creek being used in places as a barrier. This fence is now out of repair and useless.

The fence is the only improvement built by the claimant.

6. CULTIVATION.

None of the land is producing agricultural crops at the present time and has not since the season of 1918, as stated in the foregoing. The area, 3 acres, as referred to under "Settlement and Residence", is all the land ever cultivated. This area was partly garden and partly seeded to clover for hay.

No orchard was planted.

The whole area was under ditch.

In addition to the tilled area, approximately one acre was slashed and cleared but not tilled.

The cost of clearing the land tilled is unknown. It appears that little work of clearing was necessary. The only crop raised, that of 1918 as stated, was only partly harvested or used. A small quantity of vegetables were used by the claimant during the summer of 1918. The hay was not cut but was grazed off by stock breaking into the inclosed area after the claimant left the claim. All of the land cultivated was cleared and ditched by the present claimant.

The claimant owned a number of horses which were grazed on the National Forest under G-5 regulation.

7. GRAZING.

As stated in the last two lines under "Cultivation".

8. TIMBER.

Approximately 8 acres of the claim supported a stand of merchantable timber. Estimated number of feet board measure, 25 M, valued at \$67.50.

Approximately 10 M feet board measure was cut by first claimant, Jay Carlan, for construction of cabin and fence. Date of cutting unknown. All the timber cut was put into improvement of claim. Claimant did not sell or negotiate for sale of any timber from the claim.

9. ADDITIONAL INFORMATION.

The claim is not used in any way for trade or business or for any purpose not contemplated by the homestead law.

It is not known that the claimant ever made homestead entry elsewhere.

Claimant does not own land of any kind.

Claim has not been sold or mortgaged.

It is not believed that the claim was made at the instance or in the interest of others.

The land of the claim is most valuable for saw mill site and log banking purposes. It is too isolated and too small to be considered a farm unit. There is a sufficient amount of merchantable timber tributary to the site to warrant a saw mill of 25 M feet capacity.

The claim was examined by Forest officer, October 8, 1922.

10. GOOD FAITH.

The claim has not the appearance of a permanent home. The dwelling is in a state of delapidation, not habitable at the present time, the ~~improvements~~ for cultivation are gone and nothing of value or usable in the way of equipment is in evidence.

11. RECOMMENDATIONS.

The residence of the claimant is not known. Since his discharge from the army he has been most constantly in one or another of the various hospitals of the Government and is believed to be entirely disabled. His disability was brought on by some disease of the spine. He was not overseas with the army. On April 10, 1922, he was in a hospital at Missoula, the address being given as 528 West Spruce Street, Missoula, Montana.

No knowledge of the present residence of the claimant can be obtained from local sources, the last information of his location is as stated in the preceding paragraph. The appearance of the claim point toward abandonment. It is therefore recommended that a hearing should be ordered to determine the validity of the claim.

C. F. Clark,

Forest Ranger.

Approved _____ 1923.

Supervisor.

Claims-Salmon
Bevan, Fred Jr.
Blackfoot Land Office

1. Claimant.

Fred Bevan Jr., Ulysses Idaho, unmarried.

2. Description of Land.

For a tract of land described by metes and bounds as follows.

Beginning at U.S.L.M. No. 544 from which Cor. No. 7 of H.E.S. 280 bears S. 18° 33' E. 80.98 chains as corner No. 1; thence S. 71° 45' W. 6.63 chains to Cor. No. 2; thence N. 19° 40' W. 14.80 chains to Cor. No. 3; thence N. 76° 45' W. 15.80 chains to Cor. No. 4; thence N. 45° 45' E. 9.00 chains to Cor. No. 5; thence S. 45° 00' E., 8.00 chains to Cor. No. 6; thence N. 43° 11' E. 6.00 chains to Cor. No. 7; thence S. 27° 05' E. 23.03 chains to point of beginning. List 4-1642, HES 544, located in Sec. 7, T. 24 N., R. 19 E., and Sec. 12, T. 24 N., R. 18 E. Bouse Meridian, within Salmon National Forest, containing 18.13 acres.

Spring Creek crosses the claim. The claim is 2 miles from Northfork-Shoup road and is reached by road up Spring Cr. The nearest railroad is Salmon, Idaho, a distance of 43 miles.

3. Topography and Surface.

Approximate altitude is 3600 feet above sea. Land slopes with fall of the creek gradually to the South. Agriculture possibilities are limited to a few acres of land along stream bed. Approximately 9 acres is suitable for cultivation.

4. Settlement and Residence.

Claimant settled on land during the Spring of 1925. Actual residence was established date unknown, 1925.

Claimant resided on the claim from June 1925 to 1928 with the exception of short periods of three or four weeks when necessary to be employed at other business.

Cultivation of approximately 7 acres has taken place and in hay at the present time. No cultivation can be reported for the summer of 1927 as the place was used for pasture. Examination for dwelling premises show a complete cooking and housekeeping such as cook stove, dishes, bed and bedding, chairs and table. Farm implements consisting of plow, harrow and other small tools.

SCANNED

JUL 21 2005

UNITED STATES DEPARTMENT OF AGRICULTURE
FOREST SERVICE
SALMON NATIONAL FOREST

CABIN
MINUS EXISTING
KITCHEN

5. Improvements.

Dwelling consists of log cabin 18'x 20', three rooms. Probable value of the dwelling \$100.00. The dwelling is ~~now~~ habitable at all seasons. Barn, 16'X 20', probable value \$60.00. Ice house, 12' X 16' probable value \$50.00. Approximately one half mile of fence has been built consisting of three poles, this fence is in fairly good state of repair.

6. Cultivation.

Approximately seven acres has been cleared and producing agricultural crops. Two acres of land has been slashed or cleared of brush. A ditch of about one half mile had been constructed. The present claimant states that he has never raised crops only as planting and using them as pasture.

7. Grazing. Claimant has 10 head of horses which are used on the claim and for packing hunters and camper.

8. Timber.

With the excepting of about 3000 ft. of yellow pine timber and some brush species there is no timber on the land.

9. Additional Information.

The claim is not used in any way for trade or business or for any purpose not contemplated by the homestead law. Claimant has never made homestead entry elsewhere. Claimant does not own any land. The claim has not been mortgaged or sold.

It is not believed that this claim has been made at the interest of others, or believed to be in any way fraudulent.

Since the land has been given a fair test as to its agriculture purposes and crops of value have been grown it is believed that the chief value of this land is for agriculture purposes. The land was examined by a Forest officer October, 1927.

10. Good Faith.

The claimant has resided on the land since June 1925, and has no other residence.

11. Recommendations.

The claimant has filed notice of intentions to submit final proof and has made arrangements therefore. Claimant has complied with all homestead laws.

2.

Chains

Latitude = $45^{\circ} 25' N$: By account from H. E.
 Longitude = $114^{\circ} 09' E$: L. No. 280 (accepted).

From this observation I calculate the bearing to Polaris
 as $N. 0^{\circ} 19' 15" E$. (See computation sheet).

June 4, 1918: At the same station I lay off the azimuth
 of Polaris $0^{\circ} 19' 15"$ to the West and mark the
 meridian thus determined by a stake, firmly set,
 centered with a tack, 5.00 chs. dist. from my
 station.

June 5, 1918: At the same station at 2 h. 30 m. A. M.
 l.m.t., I begin to observe the eastern progress of
 Polaris. When the star begins to recede I mark
 the maximum position in the azimuth upon the
 ground, by a stake, firmly set, centered by a
 tack, 5.00 chs. dist. from my station.

June 5, 1918: At the same station, I lay off the
 azimuth of Polaris $1^{\circ} 37'$ to the West and find
 this meridian agrees within $0^{\circ} 02'$ of the Polaris
 meridian established from observation by hour
 angle observation on June 4, 1918.

I take the mean of these observations for a true meri-
 dian.

June 5, 1918: At the same station, at 8 h. 0 m. A. M.
 l.m.t., I set off $44^{\circ} 25' E$ on the latitude arc,
 $22^{\circ} 31' E$ on the declination arc and determine a
 meridian with the solar. This meridian agrees
 within $0^{\circ} 01'$ of the Polaris Meridian.

June 5, 1918: At the same station at apparent noon, I
 set off $22^{\circ} 32' E$ on the declination arc and
 observe the sun on the meridian. The resulting
 latitude is $45^{\circ} 25' N$. Latitude by account from
 H. E. L. No. 280 = $45^{\circ} 22' 30" N$. I therefore

3.

Coins

assume my index error to be $0^{\circ} 01' 30" N$, and
 take this into account in all observations with
 the solar attachment.

June 5, 1918: At the same station at 4 h. 0 m. A. M.
 l.m.t., I set off $45^{\circ} 25' E$ on the latitude arc,
 $22^{\circ} 35' E$ on the declination arc and determine
 a meridian with the solar. This meridian agrees
 within $0^{\circ} 01'$ of the Polaris meridian. I there-
 fore conclude my instrument is in satisfactory ad-
 justment.

Solar attachment used to determine all courses of this
 survey.

Magnetic Declination at Cor. No. 1 = $21^{\circ} 30' E$.

ESTABLISHMENT OF U. S. LOCATED MONUMENT NO. 544

June 5, 1918: There being no corner of the Public Land
 Survey or any known Location Monument within two
 miles, I establish U. S. L. M. No. 544 as follows:

At Cor. No. 1 of this survey, identical with Cor. No. 1
 and Forest Service Monument of District survey, a
 granite stone, firmly set, and witnessed as
 described by the Surveyor General, I remove this
 stone and in its place I set a 2-in. iron post,
 equipped with a brass cap, 34 ins. long, 2 1/2 ins.
 in the ground, over broken china stones, and 100
 angle lines from the center, 101-544 in the
 easterly quadrant, 1-544 in the westerly
 quadrant for U. S. L. M. No. 544 and Cor. No. 1
 of this survey.

A fir, 2 1/2 ins. in dia., bears $N. 23^{\circ} 30' E$, 10 ins.
 dist.

A pine, 3 ins. in dia., bears $S. 21^{\circ} 00' E$, 37 ins.
 dist.

JUL 21 2005

4.

Chains

A pine, 28 ins. in dia., bears E. 20° 50' W., 73 lbs.
dist.

A fir, 16 ins. in dia., bears S. 77° 45' W., 110 lbs.
dist.

All trees blazed and mch. I-ESLM-544-BT and I-ESL-544-BT.
Raise a mound of stone, 4 ft. base, 3 ft. high, 3½ ft.
dist., west of monument.

I deface the witnesses to P. 3. N. and the listing Cor.
No. 1.

This monument is located about 3½ chm. northeasterly
from the confluence of the East and West forks
of Spring Creek, and about 2½ miles in a north-
westerly direction from the confluence of Spring
Creek and the Salmon River. Owing to the
locality being heavily timbered this monument is
not visible for any great distance.

BEGINNING AT COR. NO. 1 of this survey, identical with
the above described monument.

Thence

S. 71° 45' W.

Over rolling land, through heavy timber.

Descent.

0.70 Leave rolling and enter bottom land, bears EX. and SY.
80 ft. below Cor. No. 1.

Wagon road bears EX. and SY.

Leave timber and enter cleared land, bears EX. and SY.

2.00 East Fork of Spring Creek, 25 lbs. wide, 6 ins. deep,
flows SY.

Thence along edge of cultivation.

5.

Chains

3.37 West Fork of Spring Creek, 25 lbs. wide, 6 ins. deep,
flows SE.

Leave cultivation, bears to the SE.

Continue over cleared land.

6.00 Leave bottom land; enter rolling land bears EX. and SY.
Leave cleared land and enter heavy timber, bears EX. and
SE.

6.65 To Cor. No. 2, identical with Cor. No. 1 of the listing
survey, a granite stone, firmly set, mch. and
witnessed as described by the Surveyor General,
in place of which I set a granite stone, 36 x 12 x
ins., 24 ins. in the ground, over a granite
stone, 3 x 2 x 1 ins., mch. with a cross (X)
for Cor. No. 2 of this survey: mch. I-ESL-544 on
the side facing the claim and a cross (X) on the
top, and raise a mound of stone, 4 ft. base, 3 ft.
high, 3½ ft. dist., within the claim.

A fir, 24 ins. in dia., bears S. 71° 00' W., 53 lbs.
dist.

A pine, 24 ins. in dia., bears S. 13° 20' W., 37 lbs.
dist.

Both trees blazed and mch. I-ESL-544-BT.

I deface the witnesses to the listing cor.

Thence

NE. and SE., the Northerly cor. of
which bears from Cor. No. 7, S. 2° 15'
W., 57 lns. dist., Value 100.00
About 120 rods of irrigation ditches, Value 60.00
Total value of improvements \$360.00

DESCRIPTION

This claim is situated about 3 miles in a Northerly
direction from Shoup, Idaho, the nearest post-
office and about 2½ miles Northwesterly from the
mouth of and on Spring Creek, just above the
forks of the creek. The claim lies on rolling
land along the West Fork of Spring Creek. The
claim lines are along the edge of and just within
the timber, the claim being surrounded by heavily
timbered areas. There is an abundant water
supply for this claim obtained from the west fork
of Spring Creek. The soil is a light granitic
sandy loam with considerable amount of surface stone,
a large amount of which having been removed by
claimant from the cultivated portion. About
2 acres of the land in the westerly portion of
the claim has been slashed for clearing. About
10 acres of the land within the claim are cul-
tivated. No mineral or indications of mineral
are found upon the claim. There are no adjoin-
ing claims.
