RE: Water Rights in Reporting Area 23, Basin 75
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right claim(s) in Basin 75 that have been reported to the SRBA Court, covering water right claims from the North Fork of the Salmon River drainage. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended water right claims in your area. Water rights for most domestic and/or stockwater rights were reported earlier to the Court, and most of those have been decreed by the SRBA Court.

Note that you have until October 17, 2007, in which to review the recommendations for your water rights or those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouse in Salmon, and at all the Idaho Department of Water Resources offices (see addresses in enclosures).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to the recommendation for your water right, your water right will be decreed in 2008 as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process. You may also call the adjudication staff in my office at 1-800-451-4129 who can also respond to your questions.

Sincerely,

NOTICE OF FILING OF DIRECTOR'S REPORT FOR IRRIGATION AND OTHER WATER RIGHTS IN BASIN 75

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court the *Director's Report for Irrigation and Other Water Rights in Basin 75* (Director's Report). A map of the area covered by this Director's Report is attached to this Notice. This Director's Report contains the Director's recommendation to the SRBA Court as to how each claimed water right should be decreed in the SRBA.

This Notice includes the Director's recommendation for your water right(s) claimed in the SRBA. IDWR is providing individual reports, like this one, to all claimants of irrigation and other water rights in your area. A complete copy of the Director's Report, listing all of these irrigation and other water rights claimed under state law and "dual based" claims by the federal government, is available at the SRBA courthouse in Twin Falls and the locations listed at the end of this Notice. Copies of the Director's Report can be made, but you may be charged for copying and mailing.

Also included in this Director's Report are some small domestic and stock water uses. The Director's Report for most small domestic and stockwater rights for IDWR Basin 75 was sent to the SRBA Court and individual water users on March 31, 1999. Some small domestic and stockwater claims were withheld from the earlier report. If a claim for small domestic and stockwater was withheld from the March 31, 1999 report, or was filed after that date, it is reported in this Director's Report. The Director's Report also includes General Provisions for Basin 75 that may apply to your water right.

INSTRUCTIONS FOR REVIEWING YOUR OWN WATER RIGHT

The enclosed description of your right(s) is only the Director's recommendation to the SRBA Court on your water right(s). The Court will decide how it will decree your water right(s). You can agree or disagree with the Director's recommendation. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THE WATER RIGHTS OF OTHERS

The complete Director's Report contains recommendations to the SRBA Court on your water right(s) and all other irrigation and other rights in your area. The Court will decide how it will decree all water rights. The Director's recommendations for the state based water right claims are listed in two sections:

- 1) **List of Recommended Water Rights** -- Water right recommendations are listed numerically by water right number.
- 2) **List of Claims Recommended to Be Disallowed** -- Water rights claims to be disallowed are listed numerically by water right number. A short statement of the reason for IDWR's recommendation for disallowance is provided.

Additional information regarding water right claims can be found on the SRBA Web Site.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed as well as when Director's Reports are filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA.

The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

What if a water right is not in this report? What if a water right claim is filed late? How do I get notice of IDWR's recommendation for a late claim?

A water right for Basin 75 may not be included in this Director's Report if it was not filed in time for IDWR to investigate and report. These water rights will be reported at a later time in IDWR's *Director's Report for Late Claims* (Late Claim Report). The Late Claim Report may include recommendations for Basin 75, as well as other basins. As the Director files reports for any remaining water rights in Basin 75, he may also recommend additional general provisions that could also apply to your water rights. The Late Claim Report is issued once per year, usually in the spring. It is the responsibility of all parties to check with the SRBA Court or IDWR to see when the Late Claim Report is filed. It is also the responsibility of all parties to check this report carefully for water rights to which they want to object. No special notice will be sent to you.

CHANGES OF ADDRESS OR OWNERSHIP DURING THE SRBA COURT CASE

You must contact your regional IDWR office with your address change or if the ownership of your water right changes. You may download a copy of a change of ownership form from the IDWR Web Site at www.idwr.idaho.gov. Failure to notify IDWR may result in the loss of your water rights.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office and on the IDWR Web Site at www.idwr.idaho.gov. The IDWR webpage provides information regarding claims, mapping, and other valuable information on the SRBA and IDWR. Maps and aerial photography of this reporting area, as well as assistance in using the maps and the photography, are also available at the IDWR state or northern regional offices. You are also welcome to call IDWR at any of its offices or the SRBA Court. Additional information regarding water right claims can be found on the SRBA Web Site at www.srba.state.id.us. Finally, you may also want to consider contacting an attorney to assist you.

DEFINITIONS OF THE ELEMENTS OF YOUR WATER RIGHT

RIGHT NUMBER: Your water right is identified by a number assigned by IDWR. The first two digits identify IDWR's administrative basin number; for example, 75.

NAME AND ADDRESS: Your name and address should appear here. IDWR will use the most recent name and address in its records for the water right.

SOURCE: The name and/or type of the source where you divert your water. For example: "ground water," "spring," or "Common Creek."

QUANTITY: The amount of water recommended in either cubic feet per second (cfs) and/or the volume of water in acre feet per year (AFY).

PRIORITY DATE: The date used to determine the priority of your water right in relation to other water rights using water from the same source.

POINT OF DIVERSION: The legal location where you divert water from its source; generally described as 1/4 1/4 sections or a 40-acre tract, or smaller. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys, and other survey information.

PURPOSE OF USE: The general category of the type of use you can make of your water. Typical purposes of use include irrigation, domestic, and stock watering.

PERIOD OF USE: The period of time during the year when you can use the water for your water right.

PLACE OF USE: The legal location where you use your water right; generally described as 1/4 1/4 sections or a 40-acre tract. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys, and other survey information.

PLACE OF USE FOR IRRIGATION PROJECTS: Pursuant to Idaho Code Sections 42-219(2) and 42-1411(2)(h), IDWR has included GIS mapping for describing the place of use (digital boundary) for water rights meeting certain criteria (i.e. irrigation projects). The **PLACE OF USE** for irrigation projects is reported in digital format and uses GIS technology to particularly identify and display a geographic area encompassing the place of use with the aid of a computer. The GIS data is stored in digital format and contained on a CD-ROM and is properly marked for identification with the water right number. The CD-ROM will be retained by the SRBA Court. IDWR also retains a duplicate of the original CD-ROM. The electronic data contained on the CD-ROM is available for public use and is also accessible through the IDWR Web Site www.idwr.idaho.gov. *Upon request, IDWR will provide a copy of the CD-ROM with the electronic data to claimants.*

BASIS OF CLAIM: The method that was used to establish your claim. Examples include prior decree, posted notice, beneficial use (historical) method, license, or permit.

DUAL BASED CLAIMS: In some cases, the federal government has claimed one water right under two theories: a state basis and a federal law basis. Both theories will be reported on one form for that single water right. In most cases, the priority dates are different and will be listed separately. The federal law basis is separately indicated by a remark under the priority date that reads:

*4/17/1926 CLAIMED UNDER FEDERAL RESERVED WATER RIGHT *
