Re: Tower Creek Adjudication Recommendation

Dear Ms. Hennig:

Enclosed is a spreadsheet that summarizes recommendations filed with the SRBA court for claims for water from Tower Creek for properties that were settled in the 1890's or early 1900's. The claims had a wide array of priority dates and evidence in support of those priority dates was received. Some of you filed a Notice of Error in response to the Recommended Findings that were mailed out to claimants in November 2006. Some of you may have already received a response from us regarding your Notice of Error.

After looking at each right separately, we concluded that a more systematic approach to how recommendations were made was required. It seemed to us that it made sense to have the same priority date recommended for all of the property that was originally part of a single homestead. To that end we evaluated the Evidence of Priority information that was submitted and used the earliest date that we felt could be verified. In some cases documents were submitted that may reference dates earlier than what we have recommended, but the extent of development was not quantified. The spreadsheet lists the various water rights and the basis for the selection of the date used. Please note that you still have the option of filing an objection with the court if you disagree with these recommendations

If you have any questions please don't hesitate to contact us.

Sincerely

Robert G. Haynes P.E.

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
754208A					
75-4483					

The following **REQUIRED** information must be submitted with this form:

~~A. The appropriate **FILING FEE**. See instructions for fee amounts.~~

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

IN THE DISTRICT COURT OF THE SEVENTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF LEMHI

SHARON HELEN HENNIG,

Plaintiff,

vs.

PAUL BYRON HENNIG,

Defendant.

CASE NO. 7003

MOTION TO MODIFY
DIVORCE DECREE

Plaintiff, SHARON HELEN HENNIG, by and through her
attorney, Jordan P. Smith, moves this Court for an order:

1. Modifying the ORDER, entered October 6, 1987, that
granted a divorce between the parties hereto, on the grounds
that there have been material and substantial changes in the
circumstances of the parties such that the decree should be
modified in the following manner:

A. That paragraph 2 on page 3 of the ORDER be modified
to read as follows:

"2. That both parties be granted joint legal
custody of the parties minor children, JODY
HENNIG and JENNY HENNIG, and that the parties
shall share joint physical custody whereby both
children shall reside with Plaintiff for one
week, and then alternate with Defendant for the
following week, beginning at 9 a.m. on Monday and
terminating at 9 a.m. on the following Monday.
The custodial parent shall deliver the children
to the non-custodial parent at his or her resi-
dence at the designated time."

July 28, 2005

Dear Roxanne,

In order to meet the July 29, 2005 response due deadline, here is what I have found so far. I am expecting more information soon from the BLM office in Boise to help support these claims. I will send that in as soon as I can. I have attached the Desert Lands Entries question and answer sheet to show that the land would have had to been irrigated in order to get a Desert Land patent. I hope this is acceptable for now. If not, please let me know. Thank you.

Sincerely,

DESERT LAND ENTRIES

What is the Desert Land Act?

On March 3, 1877, the Desert Land Act was passed by Congress to encourage and promote the economic development of the arid and semiarid public lands of the Western United States. Through the Act, individuals may apply for a desert-land entry to reclaim, irrigate, and cultivate arid and semiarid public lands.

Will it be difficult for are to find suitable public lands and meet the requirements of the Desert Land Act in order to receive legal title to the land?

The public lands have been in the process of being settled for many years. Most of the suitable lands for agricultural development have already been placed into private ownership. The remaining acres are managed for multiple uses. There is competition among users for these public lands. With the problems of finding suitable public land, limited water available for irrigation, and the high cost of development, it is extremely difficult to acquire a desert land entry.

Is there a limit on acreage for which I may apply?

You may apply for one or more tracts of land totaling no more than 320 acres.

Where me the lands located?

The lands are located in the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, South Dakota, Utah, Washington, and Wyoming.

What lands are available?

The lands must be surveyed, unreserved, unappropriated, non-mineral, non-timber, and incapable of producing an agricultural crop without irrigation. The lands must be suitable for agricultural purposes and more valuable for that purpose than for any other. The tracts of land must be sufficiently close to each other to be managed satisfactorily as an economic unit.

Who is qualified to file a desert-land entry?

You must be a citizen of the United States or have declared your intention to become a citizen. You must be 21 years old. You must be a resident in the States of Arizona, California, Colorado, Idaho, Montana, New Mexico, North Dakota, South Dakota, Utah, Washington, or Wyoming. No State residency is required in the State of Nevada.

How much will it cost me to construct an irrigation system?

It is estimated that a 320-acre tract of land will cost you in excess of \$250,000 to construct the irrigation system and prepare the land.

How do I get started to apply for a desert-land entry?

You must find lands that you feel can be economically developed and determine the legal land description. You must contact the BLM State Office where the lands are located and verify that the lands are available for desert land application. If the lands are available for desert land application, acquire an application from the State Office and also find out which BLM District administers the lands.

How do I file an application?

You must file an application on Form No. 2520-1. Two copies of this form are required. You must file the application with the administering BLM District Office.

SCANNED

AUG 02 2005

What information must I include in my application?

You must include the description of the lands. You must include evidence of your legal right to the use of water for irrigation. You must secure a permit from the State Department of Water Administration. You must include a detailed description of soil characteristics, irrigation requirements, and economic feasibility. You must include full disclosure of your plans, arrangements--financial and otherwise--pertaining to the development and operation of your desert-land entry. You must personally sign your application. Your application must be accompanied by a non-refundable fee of \$15.00 and a partial payment of 25 cents per acre.

What will the BLM do with my application?

The BLM will examine your application for completeness and accuracy, and classify the lands included in the application. The BLM will approve your application if the lands are classified suitable for desert-land entry. The BLM will reject your application if the lands are classified unsuitable for desert-land entry.

If my application is approved, how many years will I have to meet the requirements of the desert land act?

You have four years from the date your application is approved to develop an adequate water supply to reclaim, irrigate, and cultivate all of the lands. One eighth of the land applied for must be properly cultivated and irrigated.

Can a group of individual applicants develop a common water delivery system to reclaim the lands?

Some public lands that might be suitable for desert-land entry are in areas where the cost of delivering water to the lands are so high that an individual applicant cannot establish an economic farm unit. With respect to some of these lands, individual farms within the 320-acre limitation of the Desert Land Act can be established where a group of applicants associate themselves to develop a common water delivery system and share in the cost of such a system.

If I associate myself with a group of individuals to develop a common water delivery system, what will I be required to do?

You must spend your own money or incur a personal liability for the money you spend on the necessary reclamation, irrigation, and cultivation of the entry. You must show that the proposal has engineering feasibility. You must show that the proposal will be economically feasible. The soil conditions and other physical characteristics must support continued production under proper management. You must show that, even with the consideration of properly sharing joint costs, each individual desert-land entry involved in a group proposal is economically and physically feasible.

What is annual proof?

Each year for three years from the date your application is approved, you must account for the money you spend on improvements to reclaim, irrigate, and cultivate the lands.

How much money must I spend on improvements to reclaim, irrigate, and cultivate the entry for annual proof?

You must submit statements of two credible witnesses who can testify to the expenditures made for improvements on your desert-land entry during the preceding year. You must submit itemized statements showing the manner in which the expenditures were made. At the end of the third year you must submit a map or plan showing the character and extent of the improvements placed on the desert-land entry.

If I fail to file for annual proof, what happens to my desert-land entry?

The BLM will not extend your time to meet the annual proof of compliance because there are no provisions in the Act which permit extensions of time to complete work. The BLM will cancel your entry.

Will the BLM conduct an on-site examination of the lands in my desert-land entry to determine whether the requirements of the act have been met?

Yes.

If I successfully meet the final proof requirement, what happens to my desert-land entry?

You will receive a patent from the BLM which gives you legal title to the lands.

SCANNED

If I fail to make final proof, what happens to my desert-land entry?

The BLM will cancel your entry, unless statutory authority permits the BLM to grant an extension of time or other relief.

If I experience an unavoidable delay in reclaiming and cultivating the lands, will the BLM extend my final proof?

If you clearly show that failure to reclaim and cultivate the land within the four-year period was due to no fault of your own, the BLM may grant you an extension. If you failed to act or were unable to get financial backing to make the required development, the BLM cannot grant you an extension.

RE: CHANGE IN OWNERSHIP FOR A75-04208

Dear Mr. Foust:

The request for Change in Ownership for a portion of the above referenced Notice(s) of Claim has been processed with new Notice(s) being generated to reflect you as one of the claimants.

Since the Change in Ownership involved just a portion of the Notice(s) of Claim for the others, the rights were split as follows:

A75-04208A, Hennig, 0.065 cfs; 3.6 acres
A75-04208B, Foust, 0.025 cfs; 1.4 acres

Enclosed for your records is a typed Notice(s) reflecting your portion of the right. Review the Notice(s) and if there are other corrections or questions, feel free to contact this office.

Respectfully submitted,

Jo Thompson
Adjudications Secretary

Enclosure:
