Department of Water Resources

An amendment to 75-04302 is on the way to you in the US Mail. Since the original claim was filed in the SRBA the forest has determined a more accurate flow quantity from the spring that is in the pool formed by the rocks placed by bathers, so the change is in the quantity with clarification that the source is 'Hot Springs' as shown on the maps, that the area is all unsurveyed and there is no consumptive use. If you have any questions about this amendment we should probably schedule an on-site inspection.
