**Subject:** Re: Notice of Claim 95-7419

Hello Sandra,

Finally, we should have a recommendation of 0.08 of water licenses due to the lots we own. We may change the trailer/mobile home to a manufactured home for our in-laws and would like the option to have independent water licensing to the Sanns lots which we own.

I forgot to articulate this information in the first email.

Thank you for your time and consideration,

Laurie and Vance Lamont

Hello, I am working toward recommending right 95-7419. You submitted a de minimis claim, limited to a daily use of less than 13,000 gallons per day. You indicated on your claim that the domestic use is for 1 home and 1 camper. The attached files include the water right report for 95-17871. This is a split portion of licensed water right 95-7419. On the face of the licensed right 95-7419, within the place of use portion, it says *four families* (see attached file WRBackfile95-7419 pdf page 3). Without information showing that you have two of the original lots we will recommend 1/4 of the original right for 0.04 cfs.

I have also included a map showing the place of use and point of diversion. If the well location is incorrect please let me know. Please let me know if you have any questions or other changes. If you do not, I will recommend right 95-17871 as shown in the attached documents.

Hello Sandra,

We disagree with the information contained in this email and met with Evan Roda last Friday at the CDA office. He said to give him a few days to clarify and check back. We checked back with him via telephone today and he referred us to you for further follow up.

Please let us know if you need further documentation from us. We have spent numerous hours and days at the recorder and accessors office printing documents. Presently, we own the lots for two of the original licensed water right owners. At the time of original water license, there was a trailer/mobile home on the Sanns lots and a house on the Dunn lots. I included the lot and ownership which we now own all of the Sanns and Dunn lots related to the water licenses. We have a mobile home/trailer on the Sanns lots and a house on the Dunn lots. The point of diversion which is a well is located on lot 19 which we also own.

Please let me know if there is anything else you need from us.

Thank you for your time and assistance,

Laurie and Vance Lamont
