Dear Sirs,

This letter shall serve as notice of our objection to the proposed recommendation for water right # 75-14107. We purchased 7.17 acres of irrigated land. We purchased the irrigated acreage from the Smiths, who's previous water right was #75-4350. The water right was to transfer propotional to the irrigated land. We did not buy their house, garage or shop building. Therefore the percentage of the previous water right that would transfer to us should be greater than the percentage of land purchased. Of their 12.6 total acres, our $7.17 = 57\%$. If you subtract 1.5 acres for their home, buildings and driveways, that would make our percentage closer to 65%. The map created from the arial photo that's included with the SRBA recommendation is inaccurate in reference to the irrigated land. There is an irrigation ditch that runs adjacent and parallell to Highway 93 the full length of the property. That ditch and the others within the property effectively irrigate all but the building. I have enclosed copies of the correct water right labelled "A" and of the incorrect map labelled "B". I have also included a copy of our survey, labelled "C", on which I have illustrated the location of the aforementioned irrigation ditch. See other supporting documents enclosed that reference the acreage. We bought the irrigated Ag land they kept the residence. Please review, make the necessary adjustments, and notify us. You may reach me by phone at 765-471-8899.

Thank You,

Michael E. Molter

RE: 75-14706 & 75-14107

We have processed your change of water right ownership form for 75-14706 for Richard and Floris Neustaedter and forwarded the notice for 75-10840 to our State Office for processing.

Water right 75-14706 is for 0.17 cfs to irrigate 5.5 acres and 75-14107 is for 0.24 cfs to irrigate 7.1 acres. These two rights based on water right 75-4350 which was first filed in 1983 which listed 1.0 cfs for the irrigation of 6.5 acres. The claim in the Snake River Adjudication, filed in 1990, listed 0.21 cfs to irrigate 12.

Our question is, how does a water right that irrigates 6.5 acres change to irrigating 12.6 acres?

Sincerely,

Kenneth Knoblock

Dear Sirs,

This letter shall serve as notice of our objection to the proposed recommendation for water right # 75-14107. We purchased 7.17 acres of irrigated land. We purchased the irrigated acreage from the Smiths, who's previous water right was #75-4350. The water right was to transfer propotional to the irrigated land. We did not buy their house, garage or shop building. Therefore the percentage of the previous water right that would transfer to us should be greater than the percentage of land purchased. Of their 12.6 total acres, our 7.17 = 57%. If you subtract 1.5 acres for their home, buildings and driveways, that would make our percentage closer to 65%. The map created from the arial photo that's included with the SRBA recommendation is inaccurate in reference to the irrigated land. There is an irrigation ditch that runs adjacent and parallell to Highway 93 the full length of the property. That ditch and the others within the property effectively irrigate all but the building. I have enclosed copies of the correct water right labelled "A" and of the incorrect map labelled "B". I have also included a copy of our survey, labelled "C", on which I have illustrated the location of the aforementioned irrigation ditch. See other supporting documents enclosed that reference the acreage. We bought the irrigated Ag land they kept the residence. Please review, make the necessary adjustments, and notify us. You may reach me by phone at 765-471-8899.

Thank You,

Michael E. Molter
