Jesse Creek/Pollard Canyon Creek Confluence Area

This memo serves to document two field trips that I have taken to review the area of the Jesse Creek/Pollard Creek confluence and a review of what is currently mapped as Jesse Creek below the City of Salmon water treatment plant.

Since the Salmon-Challis National Forest took the lead on watershed delineation for the Middle Salmon-Panther Subbasin, the Forest Service has an interest in the correct representation of the streams and watershed boundaries in the Jesse and Pollard Canyon drainages.

I have conducted several field reviews of this area one with Bob Blackadar, local citizen and irrigator, on December 7, 2007 and one with Monica Van Bussum, Senior Water Resource Agent from Idaho Department of Water Resources, on August 29, 2008.

Current topographic maps depict Pollard Canyon and Jesse Creek as separate channels that do not intersect but come close in the SWNW of Section 1 just below the water treatment plant. In reality these streams intersect at a diversion structure located below the road that goes to the Forest Service storage area located south of the water treatment plant. At this structure water can be diverted into what is mapped as Jesse Creek or into Pollard Canyon Creek.

A debate is currently underway in the Snake River Adjudication as to whether the stream course that is mapped as Jesse Creek is a natural channel or an irrigation ditch. From the Roosevelt Street stream crossing downstream the channel is located in a topographic low and appears to be a natural channel, though highly modified as it flows through the residential areas on the upper bar. However, from the diversion structure at the Jesse/Pollard confluence to the Roosevelt Street crossing the channel that is mapped as Jesse Creek is a perched channel that has been bermed to keep the water in the channel. If the water breached this channel it would flow south towards what is mapped as Pollard Canyon Creek.

This stream reach from the diversion structure to the road crossing is not a natural channel. However, remnants of a natural channel can be observed below the existing water treatment plant. It is possible that the natural Jesse Creek channel was moved to the south to its current location when the water treatment plant was constructed.

I have lived and worked as a hydrologist in the Salmon, Idaho area since 1977. Until recent maps were produced the stream channel flowing down the bar hill into the Salmon River adjacent to the Idaho Adventures office has been known as Jesse Creek. Locals still call this channel Jesse Creek. Old maps have variously called both Pollard Canyon and Jesse Creek as forks of Jesse Creek, or called the southern stream Pollard Canyon down to the confluence with Jesse Creek then Jesse Creek below that point. RE: CHANGE IN OWNERSHIP FOR 75-26C

Dear Mr. Power:

The request for Change in Ownership for a portion of the above-referenced Notice(s) of Claim has been processed with the new Notice(s) reflecting you as one of the claimants.

Since the Change in Ownership involved just a portion of the Notice(s) of Claim, the right was split as follows:

75-26C split into:

75-14123: .04 cfs, 7 acres, Wilson

75-14124: .13 cfs, 21 acres, Skunberg

75-14125: .03 cfs, 5 acres, Power

Enclosed for your records is a typed Notice(s) reflecting your portion of the right. Review the Notice(s) and if you have other corrections or questions, please contact this office.

Respectfully submitted,

Jennifer Crabtree

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.
