Hi Arden,

Thanks for your patience as we took some time to consider the proposal you enclosed in your last email.

IDWR can agree to change its recommended acreages for your properties to coincide with your proposal. We can also match your proposed rate of flow with some of the water rights, but not all. I have detailed our proposal below:

area	IDWR adj. cfs	WR#	Priority date	Arr. area	Arr. cfs	IDWR adj.
Lot 11 (residence)	0.04	75-13948	1898	0.04	4	4
	0.05	75-13950	1902	4	0.06	4
Lot 1 (Vistas)	0.03	75-14444	1898	3.2	0.03	3.2
	0.04	75-14446	1902	3.2	0.03	3.2
Lot 2 (Vistas; Pensco)	0.03	75-14475	1898	3.2	0.03	3.2
	0.04	75-14447	1902	3.2	0.03	3.2
Total	0.22			10.4	0.22	10.4

Formatted
table
attached
MVB
11/9/2009

In the table above, Arr. area and Arr. cfs stand for Arrington area and Arrington cfs, respectively, which represent the values you proposed in your letter of October 25. IDWR adj. area and IDWR adj. cfs stand for IDWR adjusted area and IDWR adjusted cfs, respectively.

As you see, IDWR's proposed flow rates for water rights 75-13950, 75-14446 and 75-14447 do not agree with your proposal. Your proposed flow rate for 75-13950 was 0.06 cfs and our proposal is 0.05 cfs. Your proposed flow rate for 75-14446 was 0.03 cfs and our proposal is 0.04 cfs. Your proposed flow rate for 75-14447 was 0.03 cfs and our proposal is 0.04 cfs.

I realize the flow rate is a little lower than you desire for 75-13950 and a little higher for 74-14446 and 75-14447. At first glance, you might ask why we can't just reduce the ones that are greater than your proposed rate and increase the one that's a little lower, and that's certainly a valid question.

There are two reasons we are unable to do this: 1) delivery system and 2) duty of water. The water to the residence is delivered via a different system than water to the Vistas lots. If we were to increase the cfs under 75-13950 and decrease it under the Vistas lots rights, we would essentially be moving water between systems, which requires an additional administrative proceeding and has the potential to cause conflicts among neighbors.

That hurdle can normally be jumped, but the issue of duty of water is significantly greater. To refresh your memory, duty of water is the amount of water to be used on each acre of land.

Per Section 42-220, Idaho Code, IDWR's state standard is 0.02 cfs, or one miner's inch, per acre of irrigated land. As we discussed several times on the phone, I calculated the flow rates for lower Wallace Creek rights based on the proportion of irrigated land they had on Lower Wallace Creek, keeping in mind IDWR's standard duty of water and taking into account some rounding. For example, under IDWR's proposals for 75-13948 and 75-13950, the 4 acres at the residence are entitled to 0.0225 cfs per acre (0.09 cfs divided by 4 acres), just above IDWR's state standard. This is in line with the recommended flow rate for all of the other water rights on lower Wallace Creek. However, if I were to change the flow rate on the water rights mentioned above to match your proposal, the duty of water would be 0.025 cfs per acre, which would put the duty of water on your residential property greater than that of your neighbors, making the water rights inequitable and potentially causing even greater conflicts among neighbors than we already have. Moving water from the Vistas lots to the residential lot would also make the duty of water on those lots inequitable when compared with the duty of neighboring landowners.

I realize this is a lot of information to process and I certainly welcome your questions. Our next hearing on this matter is scheduled for Monday, November 30.

Dear Mrs. Van Bussum

In the interest of closure and of getting on to Wallace Creek issues that we believe to be far more important, Ilene and I have decided to withdraw our objections to the water right recommendations for our properties as issued in the *Amended Director's Report* of August 24, 2009— *if the adjudication bureau will agree to the solution proposed in this communication*. As you are aware, Ilene and I own 3 properties within the lower Wallace Creek area of distribution. Lot 2, Vistas at Diamond Creek is held within my IRA (Pensco Trust). We own the other two properties jointly.

We propose to redistribute slightly the total acreage and total volume of water recommended for our properties in the amended report of 8/24/09 within our 3 properties, to more closely match the acreages and volumes for our 3 properties as previously stated by IDWR in the Partial Decrees issued by the court on November 17, 2008. We have outlined those redistributions in the attached chart. *The totals of both the acreage and the volume of water allotted to these 3 properties do not change.*

You will recall that I stated that for our residence property, a survey of record was being prepared in order to call out a conservation easement for the mouth of Wallace Creek (0.65 acres) to be held by IDFG. This survey also calls out the surveyed area of the building footprint that should have been deducted from our residence property (4.88 acres) in IDWR's 8/24/09 recommendation for rights, based on the actual irrigated area. The surveyor's calculations (0.55 acres) based on actual surveyed area is essentially the same as the drawing that I sent you (0.58 acres) on September 3, 2009. You already have the survey of record for Lot 1 and Lot 2, Vistas at Diamond Creek showing the irrigated areas.

As soon as IDWR changes the (*amended*) recommended acreages and volume for these 3 properties, we will be happy to call it a deal and withdraw our objections. We can think of no reason why IDWR should have any justifiable grounds for not doing so.

Please send me an email confirmation that you have received this correspondence, so that we will not have to go to the additional trouble of mailing hard copies.

Sincerely,

Received via email 10/26/2009 MVB

RE: Objections to Amended Director's Report dated August 24, 2009,
SRBA Civil Case # 39576; Rights #'s 75-13948, 75-13950, 75-14444, 75-14446

Dear Ms. Van Bussum:

As we discussed yesterday, I am forwarding to you copies of objections to the above-listed recommendations in the new Director's Report. As I mentioned, unlike other folks in this case, we received no notice of a court order setting aside the partial decrees that were conditionally granted back on November 17, 2008. Our rights had never been objected to, and IDWR had issued the partial decrees as recommended. Thus, I had no idea that your visit to our properties might have resulted in a reduction of our water rights. The information presented as justification in my objections has always been available to IDWR. Simple subtraction will verify the acreages irrigated, using the exhibits contained in this mailing. Had we received the same advance notice that others were given, I could have given you this information then, as part of our due process. Thus, and as I told you twice during our conversation, I am sorry that this has happened. You and I could have resolved this much earlier on.

As I mentioned, Ilene and I are the only water users in this case who currently raise livestock (sheep) on our property commercially. We and Gertrude Maxwell are the only two water users who currently irrigate pasture that is used for commercial grass leases to non-resident lessees. With the exception of the Gossacks, who pasture their 2 personal horses, *all of the other users are irrigating lawns.*

Regarding the objections for 75-13948 and 75-13950, as I told you yesterday, I will accept 4.0 acres, but not less. Regarding the objections for 75-14444 and 75-14446, that acreage should be raised to 3.2 acres.

If IDWR intends not to revise and reissue our recommendations, I will need to involve my attorney so that your agency can show cause for its decision. Otherwise, as stated on the objection forms, IDWR should contact me directly regarding its resolution of these matters.

Sincerely,

Arden Arrington

RE: Objections to Amended Director's Report dated August 24, 2009,
SRBA Civil Case # 39576; Rights #'s 75-13948, 75-13950, 75-14444, 75-14446

Dear Ms. Van Bussum:

As we discussed yesterday, I am forwarding to you copies of objections to the above-listed recommendations in the new Director's Report. As I mentioned, unlike other folks in this case, we received no notice of a court order setting aside the partial decrees that were conditionally granted back on November 17, 2008. Our rights had never been objected to, and IDWR had issued the partial decrees as recommended. Thus, I had no idea that your visit to our properties might have resulted in a reduction of our water rights. The information presented as justification in my objections has always been available to IDWR. Simple subtraction will verify the acreages irrigated, using the exhibits contained in this mailing. Had we received the same advance notice that others were given, I could have given you this information then, as part of our due process. Thus, and as I told you twice during our conversation, I am sorry that this has happened. You and I could have resolved this much earlier on.

As I mentioned, Ilene and I are the only water users in this case who currently raise livestock (sheep) on our property commercially. We and Gertrude Maxwell are the only two water users who currently irrigate pasture that is used for commercial grass leases to non-resident lessees. With the exception of the Gossacks, who pasture their 2 personal horses, *all of the other users are irrigating lawns.*

Regarding the objections for 75-13948 and 75-13950, as I told you yesterday, I will accept 4.0 acres, but not less. Regarding the objections for 75-14444 and 75-14446, that acreage should be raised to 3.2 acres.

If IDWR intends not to revise and reissue our recommendations, I will need to involve my attorney so that your agency can show cause for its decision. Otherwise, as stated on the objection forms, IDWR should contact me directly regarding its resolution of these matters.

Sincerely,

COPY

Arden Arrington

75-14446 and Notice of Completed Administrative Proceeding
(NCAP)

Dear Mr. Sullivan:

The Idaho Department of Water Resources (IDWR) acknowledges receipt of a notice correcting the spelling of Ilene's name for the above referenced water right(s). Based on this change, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated.

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

Bobby Kern

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.
