RE: Water Right 75-14093 split into 75-14512 and 75-14513

Sirs:

I received a NCO for the above water right (copy of cover letter is enclosed). Water right 75-14093 was for an eight acre parcel of land that received 0.160 CFS. This parcel was split into two parcels, one of 5.9 acres and one of 2.1 acres. The water right was split into 75-14512 for the 2.1 acre parcel which received 0.120 CFS and 75-14513 which received 0.04 CFS.

I am writing because I believe the quantity of water received for each parcel is incorrect and was inadvertently reversed. I believe that the 5.9 acre parcel should receive 0.120 CFS and the 2.1 acre parcel should receive 0.040 CFS. I would appreciate it if you would review this and make the correction.

Thank you.

RE: Water Right 75-14093

Sirs:

I recently received a Notice of Change of Water Right Ownership for 75-14093 and Notice of Completed Administrative Proceeding, dated March 14, 2008 (copy enclosed). I am the seller of this property. Please be advised that this water right is for an 8 acre parcel that was known as Lot 15 of Diamond Creek Subdivision. I divided that 8 acre parcel into two smaller parcels known as Lot 15A and Lot 15B. The parcel sold to Linda Barinaga and Dick Williams was Lot 15A and contained 5.92 acres.

In view of this, the water right needs to be split, with a prorated portion to the new owners and the remaining portion staying with Lot 15B. Please advise as to what steps I need to take to correct this situation.

Thank you.

David Yanoff

Please feel free to contact me if you have any questions concerning this matter.
