RE: Palouse River Basin Adjudication (PRBA) Notice of Claim to a Water Right Number 87-11048 & 87-11051

To Whom It May Concern:

The claims identified with the numbers shown above have been filed in the PRBA. The claims indicate that your water usage is based on "Beneficial Use". Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed, and are termed beneficial use rights. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.

Since the priority date and historic use of a beneficial use right cannot be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed and the historic use of water. The types of evidence which may be used include well drilling reports, taxlot data, receipts for materials purchased, certificate of occupancy, or a statement from someone having first-hand knowledge of when the home was built and hooked up to the well.

Also, the claims do not show where the well is located or where the water usage is occurring. When returning the evidence information, we ask that you also return the enclosed maps showing the point of diversion and the place of use.

Please return this information, to my attention, by **December 20, 2019**. This will allow us to complete your claim recommendations in a timely manner. Be sure to contact me if you have any questions. I can be reached at (208) 762-2800 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda A. Werner
Senior Water Resource Agent
