13. Remarks (Include an explanation of the priority date selected):

Pond excavated in 1961 as a tributary to Flat Creek for fire protection. The pond supports the College of Natural Resources at the University of Idaho under Idaho Title 38 to conduct research, teaching and demonstrations associated with challenges in protecting forest resources and timber production. Fire pond 2 is used in teaching and experiments that vary annually and may include irrigation of planted tree seedlings, saplings, or mature trees; retention or diversion of snowmelt to manipulate hydrologic impacts on forests; and wetting and other manipulation of fuel moistures to study prescribed and wildland fire behavior and safely control fire behavior research. Water is diverted periodically using portable pumps, water tenders, storage tanks, hose lay, and pipe.
